

# Ehlen Road NE at Butteville Road NE

Marion County

## Project Description

We're making safety improvements at the Ehlen Road NE and Butteville Road NE intersection.

### Estimated Schedule

Design: 2024-2026

Construction: 2027

## Purpose and Need

We've found that this area has a higher than normal frequency or severity of crashes.

Most of these crashes were at an angle or happened while turning.

## Proposed Solutions

We're installing a rural, single lane roundabout at the intersection of Ehlen Road NE and Butteville Road NE.

## Anticipated Benefits

Installing a roundabout will make the intersection more efficient and safer.

Roundabouts:

- Eliminate some of the conflict points where crashes can occur.
- Reduce the number of crashes that result in injuries.
- Slow traffic going through the intersection.
- Increase fuel efficiency due to reduced stops.

## Estimated Project Cost

Estimated total cost:

\$5,734,348
