

# OR 99E: (SE Mcloughlin Blvd) SE Risley Ave. - W Gloucester St.

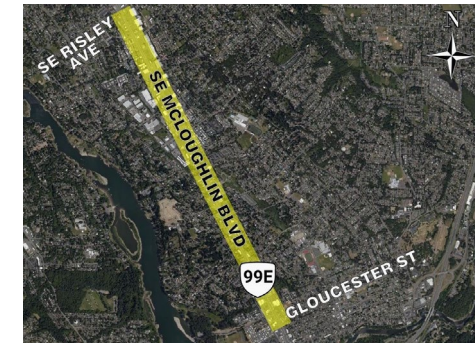

## Clackamas County

### Project Description

Improve traveler safety for people walking and biking by installing crosswalks with a rectangular rapid flashing beacon (RRFB), stop bars and signs. Install curb ramps to meet Americans with Disabilities Act (ADA) requirements.

### Anticipated Benefits

- Improves safety and accessibility for people who walk, bike and use transit by adding overhead RRFB signals, lighting, signage, and curb ramps that meet ADA requirements.
- Improves visibility for all travelers in this high-speed corridor.

Project location along OR 99E

### Purpose And Need

This project improves safety and access for people who walk and bike. The area scores in the top 5% of areas with prioritized pedestrian needs and top 10% for bicycle priority needs. This roadway segment has unsignalized, unmarked pedestrian crossings and a history of pedestrian and bicycle crashes.

Transit users on OR 99E lack access to safe crossing

### Proposed Solutions

Safety improvements for people walking, rolling biking and taking transit at this intersection include an overhead RRFB, pedestrian island, ramps, lighting, striping and signing to improve visibility and accessibility.

### Estimated Project Cost

Estimated cost	\$9,677,000
