

Help us make Beltline better.

The Oregon Department of Transportation (ODOT) is developing concepts to determine how to improve safety and travel times on the Randy Papé Beltline Highway between River Road and Delta Highway.

Why is this project needed?

Beltline Highway from River Road to Delta Highway is one of the most congested places in the Eugene/Springfield area. The 2014 Beltline Highway Facility Plan recommends several projects to improve safety and mobility in this area.
