

N. Columbus Ave. at W. Jackson Street Roundabout (Medford)

Jackson County

Project Description

Construct a mini-roundabout at this high crash location in west Medford intersection.

This current four-way stop is listed as of 2017 as the second worst crash location in Medford.

Purpose And Need

Increase safety and mobility for all modes.

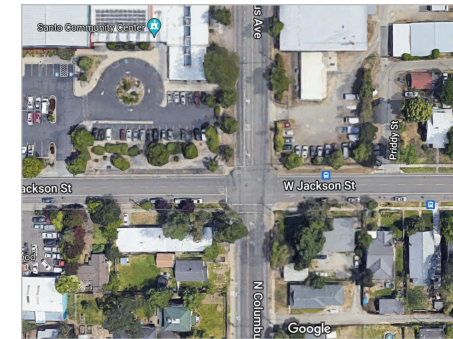

Proposed Solutions

Construct a mini-roundabout with small footprint at the intersection of North Columbus Avenue and Jackson Street in the City of Medford.

Anticipated Benefits

Increase safety and mobility by eliminating T-bone and rear end crashes.

The predominant crash cause at this intersection is 'failure to yield right of way.' Angle and turning movement crashes account for nearly 80% of the intersection crashes.

Medford intersection of N. Columbus and W. Jackson

Estimated Project Cost

Total estimated cost:	\$2,6 million
