Portion of Foothill Road Closed for Utility Relocation Work

Starting Friday, March 10, Foothill Road between Lone Pine Road and Cedar Links Drive **will be closed** on weeknights between the hours of 7 p.m. to 6 a.m. and 24/7 on the weekends. This closure is anticipated to last through April 28.

A detour will be in place and will direct southbound traffic from Foothill Road to Cedar Links Drive, to Springbrook Road, to Lone Pine Road and back to Foothill Road. Northbound traffic will have the opposite detour. The map below outlines the closure route.

The detour will be signed with message boards providing advance notice and with detour signing along the route.

Contractors will be performing trenching across Foothill Road at the two Lone Pine Road power substations. They'll also be installing large concrete pipes — conduit — that will house power and communication lines between the two substations.

About Project: The Medford Foothill Road Project will upgrade Foothill Road between Hillcrest and Delta Waters. The number of travel lanes within the section of Foothill Road will increase from two lanes to five, including a center turn lane. Other improvements include new bike lanes, sidewalks, storm drains, street lighting, retaining walls, and landscaping.

The \$62 million Medford Foothill Road project is being constructed in part due to a \$15 million Federal Build Grant received by the City of Medford. ODOT is administering and inspecting the Foothill Road improvements for Medford.

Construction on the Medford portion of the project from Hillcrest Road to Delta Waters Road is expected to be complete by the end 2026.
