

About the project

The Oregon Department of Transportation will begin construction soon on a project to increase safety on **the SE Lake Road/Harmony Road bridge over OR 224 in Milwaukie**. The project will install a new protective screening on both sides of the bridge.

This work is part of a larger project that includes installing new protective screening on twelve bridges over ODOT highways in the Portland area, and new railings on four of the twelve bridges. Work begins in 2021 and we expect it to continue through early 2022.

Project benefits

New protective screening on the bridge will improve safety by reducing the ability for objects to fall or be thrown off the bridge.

Project schedule

We expect construction to take place over up to several weeks beginning in April.

The project schedule is subject to change. To get updates on schedule and traffic impacts, you can check out our project website or visit **TripCheck.com**.

An example of protective screening similar to what ODOT will install on the Lake Road bridge over OR 224 in Milwaukie in early 2021.

Construction hours

- Most of the work for this project will happen at night. The hours for nighttime work will be **6 p.m. to 7 a.m. Monday through Thursday nights**.

Lake Road traffic impacts

- The right lanes of Lake Road/Harmony Road will be closed in one or both directions at night during construction.
- The ramp from Lake Road to OR 224 east will also be closed during nighttime work.

OR 224 traffic impacts

- There will be nighttime single lane closures on OR 224 in both directions underneath the Lake Road bridge.

Construction noise

- Residents in the area may hear some noise at night from typical construction equipment. For nighttime noise concerns, please call our **24/7 noise hotline at 503-412-2349**.

March 2021

Portland Area Bridge Screening & Rail Retrofit

Construction begins soon on Lake Road over OR 224

**New protective screening coming to a bridge near you:
SE Lake Road over OR 224 in Milwaukie**

Find more information inside.

About the project

ODOT will increase safety on twelve bridges over state highways in the Portland area in 2021 and 2022 by installing protective screening to reduce the ability for objects to fall or be thrown off the bridge. ODOT will also install new railings on four bridges to reduce the ability for vehicles to crash through the railing onto the highway below.
