

82nd Avenue at NE Pacific and SE Mitchell

Two new enhanced crossings for people walking, rolling and biking across 82nd Avenue

The Oregon Department of Transportation is working now on two new enhanced crossings on OR 213 (82nd Avenue) at NE Pacific Street and SE Mitchell Street.

About Rectangular Rapid Flashing Beacons

Rectangular rapid flashing beacons, or RRFBs, use flashing yellow lights to alert drivers that someone is crossing the street. Pedestrians activate the beacons with the press of a button. ODOT installs RRFBs at specific crossings with high pedestrian and vehicle traffic because they can reduce crashes by as much as 47 percent according to the Federal Highway Administration.

Improved safety on 82nd Avenue

The new RRFBs at these two busy intersections will make it safer for people to cross 82nd Avenue to get to nearby destinations like schools, bus stops, parks and stores. New sidewalk curb ramps around the intersections will help make the crossings safer and more accessible. At both intersections, there will be a median island where people can activate the lights with a push button again and wait for drivers to stop once they get to the center of the road.

Learn more about ODOT and RRFBs

ODOT is also getting ready to install over 20 other RRFBs in Portland, Clackamas County, Cornelius, Gresham, and West Linn in the next several years. To learn more about our upcoming RRFB projects or watch videos about how RRFBs work, visit the project website.

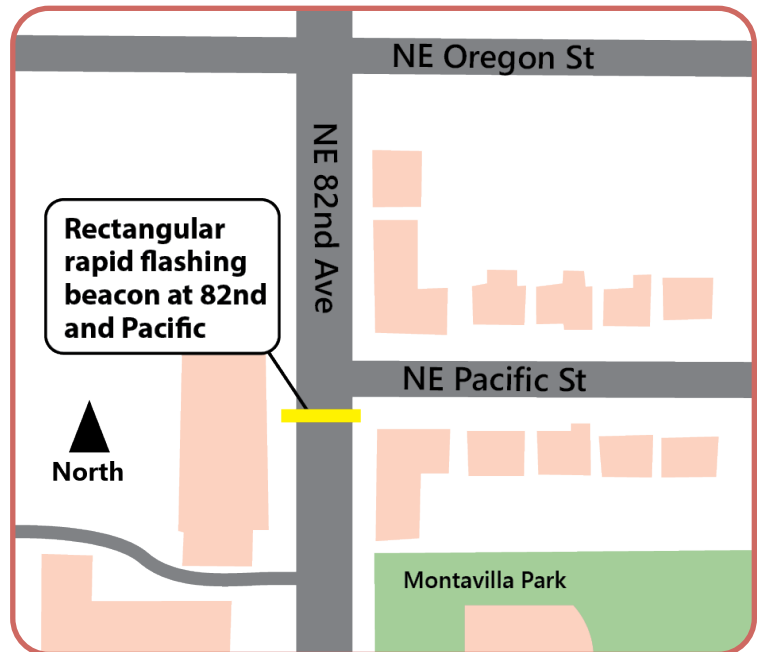

Project schedule and impacts

Construction is beginning soon and we expect it to be complete by this summer. The project schedule may change, so stay up to date by visiting the project website or checking [TripCheck.com](https://www.tripcheck.com).

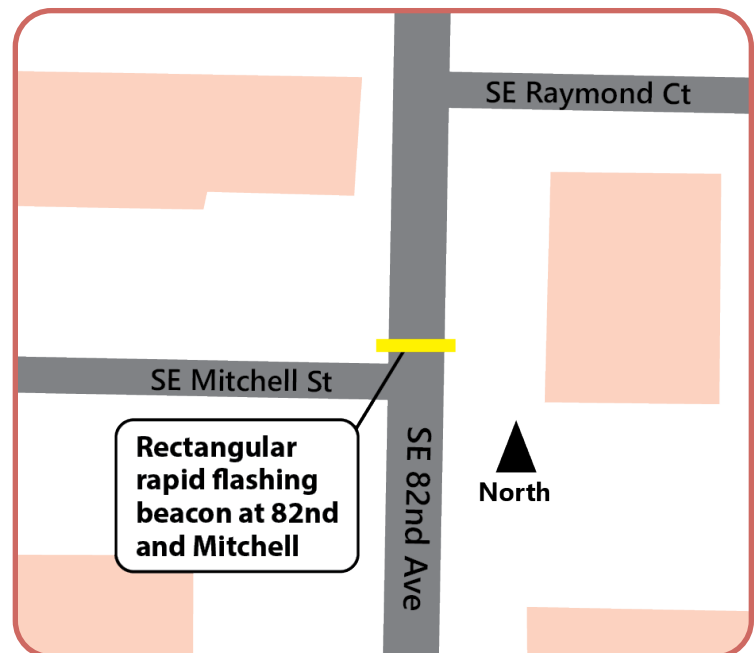

There may be nighttime or daytime work with this project, with **single lane closures on 82nd Avenue in both directions**. There will be some 24/7 sidewalk closures for concrete work with an accessible detour at all times.

Residents in the area can also expect some noise during nighttime work. **For nighttime noise concerns, call 503-276-7812.**

Project location at NE Pacific Street

Project location at SE Mitchell Street

82nd Avenue at NE Pacific and SE Mitchell Two new enhanced crossings for people walking, biking and rolling across 82nd Avenue

ODOT is constructing two new enhanced crossings on OR 213 (82nd Avenue) at NE Pacific Street and SE Mitchell Street in Portland. The flashing beacons will alert drivers that people are crossing the street.

Work is starting soon and we expect it to be complete in summer 2022.

Rectangular rapid flashing beacons like the one seen above are coming to 82nd Avenue at the intersections of NE Pacific Street and SE Mitchell Street.
