Organization	Contact	Date	From	Type	Comments	Response
CTGRCO	Chris Bailey	5/22/2020	Jessica Bochart-Leusch	email	Project Introduction. Geotech Drilling Holes.	email from Chris Bailey on 6/22/2020 stating, "Thank you for the notification about this project. This is a highly sensitive area. We would appreciate a copy of AINW's report when it is completed so that we can provide further comment. My initial impulse is to request some amount of monitoring, especially in any area where ground disturbances will occur near Fern Ridge Lake and any areas where there are recorded cultural resources. This could change depending on the archaeological recommendations. Please feel free to contact me if you have any questions."
