

2024 -2027 STIP Preservation Program

Region 1 helps develop and scope projects for two types of Preservation funding:

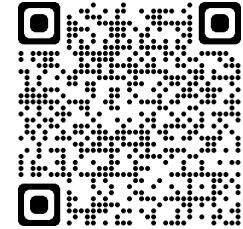

- ODOT Highway Preservation Program - for pavement improvement projects on ODOT's Highway network, and;
- Interstate Maintenance Preservation - For pavement improvements on the Interstate system.

Region 1 manages \$22.3 million in ODOT Highway Preservation funds and the Interstate Maintenance funds are managed at the statewide level. Both preservation programs follow a similar project selection process that is driven by asset condition data. Final prioritization and selection is coordinated by regional leadership and the statewide preservation program

Visit www.odotregion1stip.org for more information.

The following projects are currently under consideration for Preservation funding.
