**Project Description**

Repairs or replaces culverts in poor condition along US30 (NW St. Helens Road) between Watson Road and NW Hoge Avenue.

**Purpose And Need**

Some culverts along this section of US30 are in need of repairs or replacement. US30 is an ODOT priority route and culvert failures could impact traveler safety and close the highway. Culvert repairs or replacements are needed to reduce further damage and impacts to the highway.

**Proposed Solutions**

- Repair or replace culverts in poor condition along this corridor.

**Anticipated Benefits**

- Increased safety by reducing the risk of culvert failures by repairing or replacing culverts in poor condition.

**Cost**

- Culvert: $1,524,000
- Estimated Total Cost: $1,524,000
