Project Description

Replaces and installs Variable Message Signs to improve operations and provide real-time travel information throughout ODOT Region 1, which includes all of Multnomah and Hood River Counties as well as most of Clackamas and Washington Counties.

Purpose And Need

Some of the Variable Message Signs in Region 1 have outdated technology. Replacing these signs will reduce the maintenance required to keep the devices working.

Proposed Solutions

- Replace outdated and non-functional Variable Message Signs with new equipment.

Anticipated Benefits

- Ensured functionality and reliability of the Variable Message Signs system and improved operations and safety for the traveling public.
- Replaced and upgraded equipment to improve operations and traveler information.

Operations $1,642,522
Estimated Total Cost $1,642,522
