**Portland Metro and Surrounding Areas Audible Crosswalk Signals**
**ODOT - Various Counties**

---

### Project Description
Installs audible crosswalk signal replacements to improve accessibility for pedestrians crossing at various locations throughout ODOT Region 1, which includes all of Multnomah and Hood River Counties as well as most of Clackamas and Washington Counties.

### Purpose And Need
There are needs for audible crosswalk signals at times outside of regular maintenance or project schedules, which makes funding difficult. This project will address audible crosswalk signal concerns as needs are identified.

### Proposed Solutions
- Replace audible crosswalk signals where needed.

### Anticipated Benefits
- Improve safety at crossings and assist pedestrians by providing an audible cue to the crosswalk signal status. Locations along the Oregon 8, Oregon 43, Oregon 99E, Oregon 99W, Oregon 217 and Oregon 224 corridors will be prioritized.

### Funding
