## Tips for driving safely in work zones

An inattentive driver is the most common cause of work zone crashes. Drivers and their passengers — not workers — make up the majority of work zone fatalities. What you can do:

- **SLOW DOWN!**
- **Pay attention**
- **Obey signs and flaggers**

**Know before you go!** Call 511 or visit [www.TripCheck.com](http://www.TripCheck.com) to check routes, work zones and road and weather conditions before you head out.
