

Thousands of Oregonians travel safely to and from work, recreation, and excursions each day. But every year, hundreds of people still die, and thousands experience life-altering injuries while traveling our state.

The Transportation Safety Action Plan (TSAP) aims to eliminate these preventable tragedies.

The TSAP unifies transportation safety planning in Oregon. It provides long-term goals, policies, and strategies, as well as near-term actions to eliminate transportation system deaths and life-changing injuries.

THE 2021 UPDATE

Five years ago, ODOT conducted a robust statewide visioning and planning effort to develop the 2016 TSAP. The 2021 update will refresh that plan to address emerging safety issues and meet federal requirements. ODOT will analyze what has changed in the past five years, evaluate overall progress toward reducing fatalities and serious injuries, and identify new strategies to achieve the vision and goals of the 2016 TSAP. Specific activities include the following:

- Analyze updated crash data.
- Identify emerging safety trends and challenges.
- Evaluate the success of recent safety programs and projects.
- Identify solutions and actions to address safety needs for all travelers.

2016 TSAP EMPHASIS AREAS

Risky Behaviors. Most crashes involve human error. Increasing seat belt usage and minimizing impaired or distracted driving and speeding make a big difference.

Infrastructure. Roads, sidewalks, signs, traffic signals, and other items need regular maintenance and improvements to reduce roadway departure and intersection crashes.

Vulnerable Users. It is important to protect those most vulnerable to injury, including motorcyclists, bicyclists, pedestrians, and older system users.

Improved Systems. Improving safety data, training and education, and emergency response, will increase the safety of system users.

TSAP PARTNERS

A successful TSAP relies on partners who commit to making the plan's policies, programs, and projects a reality to save lives and prevent injuries.

- State, regional, tribal, county and city agencies
- Transportation planning and engineering organizations
- Enforcement agencies
- Emergency medical service providers
- Education providers
- Public health agencies
- Safety advocacy groups
- Private employers
- You!

ODOT NEEDS YOUR VOICE!

Help the Oregon TSAP team update the plan to meet your transportation safety needs. Email your questions or comments to: safety@odot.state.or.us

Visit the [TSAP Update Project Website](#) for resources on the past and future of the TSAP.

OPPORTUNITIES TO STAY ENGAGED

- Receive the [TSAP update e-newsletter](#) for the latest information to ensure your needs are heard.
- [Online Survey](#) available October 1st–November 20th.
- Public Comment Period to review draft in Spring 2021.
