At 20 mph you will stop in front of the first child.

At 25 mph you not only will have hit the first two children, but you will have increased their chances of a major injury* to 60%.

It doesn’t matter how good a driver you are. The faster you go, the longer it takes to stop.

Driving 5 miles over the speed limit may not seem like a big deal, until someone steps out in front of you.

Killing or injuring a child – now that’s a big deal.

Show you CARE! Drive the Speed Limit.

64 feet to stop  Traveling at 20 mph
86 feet to stop  Traveling at 25 mph
112 feet to stop  Traveling at 30 mph
138 feet to stop  Traveling at 35 mph
170 feet to stop  Traveling at 40 mph

* A major injury is an incapacitating injury such as broken bones, severe cuts, and unconsciousness, with the potential for being permanently disabling.
Show You CARE!
Drive the Speed Limit.

Where will you STOP...

if you go just 5 miles over the 20 mph limit?
