<u>Project #</u>	<u>Project Name</u>	<u>Project Total</u>
B3T-24-54-17-00	CAR Imaging of Crash Reports	\$160,200 405(c)

This project will fund ODOT-DMV for the necessary hours and tools needed to catch up on a significant backlog in the scanning of crash reports from DMV (official collector) to ODOT's CAR Unit (Crash Analysis Reporting) to make crash data timelier, and more available than is currently. This includes acquiring (2) scanners and funding the hours necessary to complete the project activities with temporary staff assignments.

Expected outcome(s): B3T-24-54-17-00 will lessen the time currently needed to bring a backlog of 11 months of crash records to be transferred to the ODOT Crash Data Analysis unit. This will make the data more readily available in a timely, and more accessible manner for all data users.
