Oregon State Police – Patrol Services Division  
Ignition Interlock Device Program

**To:** Governor's Advisory Committee on DUII  
Chair: Mr. Chuck Hayes and Members of the Board:

The following is the monthly update for the Ignition Interlock Device Program (IID).

- We have some new personnel in the program including myself, acting as the Interim IID Sergeant, as well as Senior Trooper Michael Holloran, who will be serving as our northwest Trooper. We have two additional compliance specialist positions (east and southwest regions), that we will begin hiring for in the fall/winter timeframe.
- Due to the staffing changes and a current administrative vacancy, our focus currently are our core transactions and continuing to have responsive and timely customer service.
- We continue working with the Manufacturing Representatives to resolve any non-compliance issues as they arise.
- Our team will begin rewriting the program OAR's this fall and winter.

I anticipate being able to issue a more robust report in the future as we continue growing our team.
