

Oregon Transportation Safety Committee
March 10, 2021
CONSENT CALENDAR

1. Approve new projects for the 2021 Highway Safety Plan:

Project #	Project Name	Funding Source	Project Total
TS-21-XX-XX	E-Citation Implementation		\$500,000

This project allows for expansion of electronic citation and crash reporting by Oregon law enforcement agencies through the purchase of software and equipment. The project will purchase system components (equipment/hardware, software and licenses which will also include some consultant time for integration needs and training. This will allow continued efforts to move Oregon law enforcement agencies toward more accurate digital submission of crash and citation data to the courts and DMV for processing and analysis.

A side benefit of this project also addresses multiple improvement points within multiple systems, by allowing agencies to move forward with key system improvements identified in the current Traffic Records Coordinating Committee (TRCC) Strategic Plan, and in the most recent NHTSA assessment of Oregon's traffic records program. The project purpose is to improve the procedures/process flows for the Crash data system, and reflect best practices as identified in the Traffic Records Program Assessment Advisory, including an improvement to the interfaces with the Crash data system; improve the data quality control program for the Crash data system; improve the interfaces with the Citation and Adjudication systems; and improve the data quality control program for the Citation and Adjudication systems.
