

Older Road User Program Management

VIRTUAL LIVE

Course Information:

Learn the skills necessary to manage a successful and sustainable older road user safety program. Individuals involved with older road user safety have specific needs that are often not met in other courses. This live online course consists of four hours of training in a one-day period.

Who Should Attend?

State Highway Safety Office personnel, National Highway Traffic Safety Administration (NHTSA) regional personnel and other highway safety professionals involved in coordinating an older road user program, State and community coordinators of pedestrian safety, law enforcement liaisons and non-profit organizations.

Course Content:

- ▶ Highway Safety Program Guideline No. 13
- ▶ Necessity of program
- ▶ Role of program manager
- ▶ Coalition building
- ▶ Implementing the Guideline
