

**State of Oregon
 ODOT Transportation Safety Division
 Driver Safety Belt Survey**

Survey Date: _____ Time: _____

Survey Location: _____

Officer: _____ Agency: _____

This survey applies only to the drivers of passenger vehicles, including cars, vans, pickup trucks and sport utility vehicles including those bearing out-of-state plates. Observe, from the side of the roadway, whether a driver is shoulder belted and check the appropriate block below (yes or no).

Observe 100 vehicles per location and count each vehicle passing your observation point. If you cannot tell if a driver is buckled, count that driver as UNBUCKLED. Subsequent surveys should be conducted in the same location and at a similar time of day and day of week in order to obtain the most valid comparison of results.

Yes	No	Yes	No	Yes	No	Yes	No
