

Community Charging Rebates Fact Sheet

Community Charging Rebates

The Community Charging Rebates (CCR) program is a multi-year program by the Oregon Department of Transportation (ODOT) supporting the installation of Level 2 (L2) charging stations across Oregon.

- **Funding Rounds:** Round 4 opens November 6, 2025, with \$3 million available in rebates, accepting applications until March 2026, or until funds are depleted.
- **Priority Communities:** 70% of funding will be directed to projects in rural and predominantly low income communities. To check if your project qualifies, visit [ODOT's CCR website \(linked here\)](#).
- **Support from Forth:** ODOT partners with [Forth](#) for education, outreach, and technical assistance to increase awareness and reduce barriers to accessing funding.
- **Rebate Amounts:** \$8,000 per L2 charging port, or up to 80% of project costs - whichever is lower. Rebates can be stacked with utility incentives.

Eligible Applicants Must

- Be a business, non-profit organization, or state, local or Tribal entity.
- Be the site owner of an eligible location or their authorized agent with a Site Verification and Recipient Acknowledgement Form. Third-party organizations may assist Eligible Applicants in the application process, or apply for a rebate on their behalf, but the rebate must go to the entity that incurs project costs.

Eligible Site Types for EV Charging Stations

Publicly Accessible Parking Sites Includes public/private lots, tourist spots, public parks, retail locations, hospitals, restaurants, hotels, transit stations, or curbside parking.

Multifamily Housing (MFH) Site Applies to apartment buildings, townhouses, condos, or co-ops with at least five units and five parking spaces primarily serving the MFH.

Workplace Site Includes office buildings, manufacturing facilities, and other workplaces. Charging stations may be for employee use only or a wider group. Must serve employees at or near the site.

How to Apply

1. **Apply Online:** Complete your application on the program webpage, submitted one application per physical address with required documents. Applications are processed on a first-come, first-served basis until funds are depleted.
2. **Application Review:** ODOT will verify eligibility and completeness. Ineligible applicants will be notified by email. Eligible applications will receive a Reservation Date and funds will be allocated for the project.
3. **Install the EV Charger:** You have 300 days from the Reservation Date to complete the installation. Once the charger is operational, submit the final documents online.
4. **Receive Rebate:** ODOT will review your final documents. If approved, a check will be issued within 45 business days. ODOT will collect utilization data for the following five years to ensure operability.
