GENERAL PROVISIONS

1. ROAD & WEATHER

Movement is not permitted when road surfaces are hazardous due to ice, snow or frost or when visibility is restricted to less than 500 feet by fog, smoke, or other atmospheric conditions if the width is in excess of 8 feet or if the overall length is in excess of 80 feet.

2. POSTED LOAD LIMITS

The posting of any highway or structure to reduce limits of weights or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

3. CONVOY MOVEMENT

Unless otherwise endorsed hereon the convoy movement of two or more overwidth and/or overlength vehicles and/or combinations of vehicles operating under authority of this permit is strictly prohibited.

4. HOLIDAYS

No movement shall be allowed on the following holidays: Christmas day, New Year day, Memorial day, Independence day, Labor day, and Thanksgiving day. Whenever any of the said holidays fall on a Sunday then the following Monday shall be deemed the holiday.

5. PILOT VEHICLES

Unless otherwise specified herein a pilot vehicle may be an automobile, pickup, or solo truck of legal size and weight. Combination of vehicles not authorized.

6. PILOT VEHICLE OPERATOR DUTIES

It shall be the duty of the pilot vehicle operator to warn approaching or overtaking traffic as the case may be of the hazard occasioned by the movement by the use of approved signaling devices or flags and signs. Pilot vehicles shall, on rural highways, maintain a distance ahead and behind the movement of not less than 300 feet nor more than 500 feet. In cities or in congested areas where traffic is controlled by signals this distance shall be reduced as may be required to protect the traveling public.

7. WARNING SIGNS

Pilot vehicles shall display appropriately to the front or rear standard signs bearing the words "OVERSIZE LOAD". The signs shall be 5 feet wide by 10 inches high with black letters 8 inches high with 1 inch brush stroke in accordance with Federal Highway Administration series B on highway yellow background. Oversize loads and towing or hauling vehicles shall display to the front and rear standard signs bearing the words "OVERSIZE LOAD". Signs shall be 7 feet wide by 18 inches high with black letters 10 inches high with 1-5/8 inch brush stroke in accordance with Federal Highway Administration series C on highway yellow background. All such signs shall be displayed only during the course of the movement of the oversize load and shall be removed or retracted at all other times.

8. IMPAIRED CLEARANCE

Full responsibility for the determination of adequate clearance both vertical and horizontal, is hereby imposed upon the permittee and the driver of equipment having a width and/or height in excess of the legal limit. When the vertical or horizontal clearance of any bridge or structure is impaired to the extent that full two-way traffic cannot be maintained the permittee shall provide a pilot vehicle whose duty shall be to prevent approaching vehicles from entering the bridge or structure while it is impaired by the movement covered by this permit. The cutting or trimming of trees or shrubs on Highway right-of-way is strictly prohibited.

9. HIGHWAY DAMAGE - BOND

The permittee shall be held responsible and liable for any and all damage to, or destruction of any highway or any highway structure occasioned by the movement over said highways, and hereby agrees to reimburse the State Highway Division for cost or expense of repairing or restoring any highway structure damaged or destroyed, such reimbursement to be made by the permittee within 10 days after being billed for the same by the State Highway Division.

When requested to do so, permittee shall furnish the State either a certified check or a surety bond, in any amount to be specified by the Division to guarantee the payment of claim for damages which may result from the movement.

10. INSURANCE

A Certificate and Endorsement of Insurance (Form 734- 1852) shall be on file in the District Office issuing this permit. This permit shall automatically terminate, and be of no force and effect in the event that any insurance filed under this provision is canceled or is allowed to lapse.

11. COUNTY ROADS & CITY STREETS

This permit does not authorize operation over county roads or city streets. To operate over a county road a permit must be obtained from the county court having jurisdiction over the road; likewise, to operate over a city street other than a state highway route, a permit must be obtained from the proper city authority.

12. CANCELLATION

This permit may be canceled at any time by the granting authority upon proof satisfactory to it that the permittee has violated any of the terms of the permit, or that the permit was obtained through misrepresentation in the application therefor, or when in the judgment of the granting authority the public interest requires cancellation.

13. INTENT

This permit is intended only to permit movement of the commodity and/or vehicle(s) described herein and must be carried at all times in the cab of the power unit and shall be available for inspection by any police officer, any representative of the State Highway Division or the Public Utility Commissioner. This permit is subject to the terms and conditions attached hereto and made a part hereof pursuant to the provisions of ORS CHAPTER 818

14. ACCEPTANCE OF TERMS AND CONDITIONS

The receipt of this permit by the permittee and initiation of any movement authorized thereby shall be deemed acceptance by him of all descriptions, terms, and conditions herein.

15. REAR VIEW MIRRORS

Vehicles or combinations of vehicles towing or transporting overwidth vehicles, machines or loads under authority of this permit must be equipped with rear view mirrors capable of affording the operator a view to the rear of the vehicle and or combination of vehicles. Such mirrors may exceed width authorized herein by 5 inches on either side, but must be retracted to legal width when vehicle or combination of vehicles and/or load is of legal width.

16. HIGHWAY BLOCKAGE

Normally, movements must be of a size which will allow highway traffic to proceed without delay; however, short movements of a width which will block the highway to two way traffic may be permitted providing turn-outs or widened areas are available for use in allowing traffic to clear. In no case shall the complete blocking of traffic be permitted for a period longer than 10 minutes and this will only be allowed in unusual circumstances as may be deemed appropriate by the state highway representative and with consideration given to the volume of highway traffic.

17. FIRE DEPARTMENTS

The permittee shall give timely notice of the movement to the local Fire Department having jurisdiction in the area(s) of the move.

18. GRANT OF MOVEMENT

No building or structure shall be moved onto the highway right-of-way until all conditions specified herein have been satisfied and authority to proceed has been granted by the local representative of the State Highway Engineer.
