Please read this before you start your driving test . . .

The test you are about to take is perhaps the most important part of your Class C driver license examination.

You do not have to score a perfect 100% to pass. We know you're probably a little nervous.

During the drive test your examiner will be an observer, not an advisor. Your examiner will not talk or visit with you during the test, except to give you instructions. Any discussion or questions about your skills or mistakes you may make will be discussed after you return to the starting point. This way you can keep your mind on your driving. Your examiner will not trick you. You will not be asked to do anything against the law, nor will you be asked to do anything that is not a part of driving in today's traffic. You may ask your examiner to repeat any direction. If you have any questions about the test, please ask before the test starts.

During the test, the examiner will make notes on the test score sheet. The key items to be checked are listed inside. You may want to check them over now. You have 100 points at the start of the test. Points will be taken off for driving mistakes the examiner observes. Your examiner will explain your test results to you when the test ends. The test has only one purpose - to help make sure those who are licensed to drive know how to drive safely and legally.

Your examiner will inspect your vehicle to ensure the vehicle equipment needed during the drive test is safe, legal, and in working order. If your vehicle is not properly licensed or does not have operable equipment or safety belts, the test will be rescheduled.

Smoking is not allowed during the drive test. Properly adjust your mirrors. Please turn off your electronic devices such as radio, cell phone, GPS, etc. Photos during the drive are not allowed. No passengers or pets are allowed in the vehicle during the drive test. Please remove any objects from the dashboard, rearview mirror or emergency brake area that may obstruct your vision or cause bodily harm if the vehicle stops abruptly or that may hinder the operation of vehicle emergency equipment.

DMV appreciates your feedback. If you took your test at a DMV office please complete a drive test survey.
