<b>Guests</b>	Transit Multimodal Working Group (TMWG) members

## OBJECTIVES

- Review research from other toll programs around the country regarding transit and multimodal investments.
- Review Oregon transportation funding guidelines and laws and how they impact the Toll Program.
- Review [Equity Framework](#) Step 1, which starts by identifying who, what, and where inequity exists.
- Further the process to help ODOT identify tangible, equitable investments in transit and multimodal transportation options.

## MEETING MATERIALS

- Meeting packet
  - Meeting # 8 Preview Video
  - Agenda

## PUBLIC COMMENT

We welcome the public at the Equity and Mobility Advisory Committee meetings. You can submit written or verbal comments at any time. **Please submit comments by email ([oregontolling@odot.state.or.us](mailto:oregontolling@odot.state.or.us)) with “Committee Public Comment” in the subject line, or call 503-837-3536 and state “Committee Public Comment” in your message.** If we receive your comment by 11:00 a.m. two business days before the meeting, we will send them to the committee in advance. All comments received after 11:00 a.m. two business days before the meeting will be provided to the committee at the next meeting. We will ensure that all written and verbal comments we receive prior to or at the meeting are included in the meeting summary.

## **EQUITY AND MOBILITY ADVISORY COMMITTEE PURPOSE**

The committee shall advise the Oregon Transportation Commission by:

- Providing input and supporting ODOT during the technical and environmental review process to ensure milestone decisions and project developments are grounded in the draft toll projects' equity framework, including the development and refinement of performance measures and the evaluation of alternatives for the I-205 and I-5 Toll Projects.
- Providing input on mobility and equity strategies as the I-205 and I-5 Toll Projects are going through the environmental review process, including:
  - Availability of transit and other transportation options
  - Transportation needs of, and benefits for, people of color and people with low-incomes, limited English proficiency or disabilities that live near or travel through the project area
  - Better understanding of neighborhood benefits and impacts for the communities near the tolled facilities (e.g., changes to cut-through traffic, pedestrian and bicycle options, transit access)
- Developing an equitable engagement plan that will result in ongoing input and participation from communities that have been historically and are currently underrepresented in transportation planning
- Supporting the implementation of the equitable engagement plan by hosting or cohosting meetings, events and/or other activities as determined by the engagement plan
