EQUITY AND MOBILITY ADVISORY COMMITTEE PURPOSE

The committee shall advise the Oregon Transportation Commission by:

- Providing input and supporting ODOT during the technical and environmental review process to ensure milestone decisions and project developments are grounded in the draft toll projects' equity framework, including the development and refinement of performance measures and the evaluation of alternatives for the I-205 and I-5 Toll Projects.
- Providing input on mobility and equity strategies as the I-205 and I-5 Toll Projects are going through the environmental review process, including:
 - Availability of transit and other transportation options
 - Transportation needs of, and benefits for, people of color and people with low-incomes, limited English proficiency or disabilities that live near or travel through the project area
 - Better understanding of neighborhood benefits and impacts for the communities near the tolled facilities (e.g., changes to cut-through traffic, pedestrian and bicycle options, transit access)
- Developing an equitable engagement plan that will result in ongoing input and participation from communities that have been historically and are currently underrepresented in transportation planning
- Supporting the implementation of the equitable engagement plan by hosting or cohosting meetings, events and/or other activities as determined by the engagement plan
