D.7 TRANSCRIPTS OF VOICEMAILS

I-205 Toll Project

Voicemail Transcripts

VOICEMAIL TRANSCRIPTS

Date Received: 8/13/2020	Source: Voicemail from Steve Ferguson
Communication: Hello Mat, my name is Steve Ferguson. I'm calling from a company by the name of Lindsay Transportation. I actually was listening in yesterday on the I-205 Tolling Webinar virtual meeting that you guys had appreciate all the information. I actually submitted a question that that I wanted to kind of follow up with you on. Not that it would be specific to this project, but I felt like it might be important to see if maybe we could schedule a quick little meeting for us to kind of talk about what we do as it relates to contraflow lanes a little bit different than reversible lanes. Same concept for the most part, but I do believe that a contraflow lane would be effective for that I-205 area in addition to that the I-5 tolling project that you guys are looking at. Anyways. Sorry for the long message. It would be great to chat with you if I had the opportunity. My phone number is [xx]. Just want to talk to you for a couple minutes at the most and see it might be interested to schedule a meeting to do some sort of little webinar about our movable barrier system. Again, thank you very much for the time.	

Date Received: 8/25/2020	Source: Voicemail from Khoi
Communication: Hi Mat, this is Khoi with the city of Wilsonville. I have a quick question for you regarding the I 205 agency coordination plan. Can you give me a call back? My phone number is [xx] thank you bye bye
