Oregon Administrative Rule (OAR) 104 Division 10: Participation of Local and Tribal Governments in EMPG states:

“OAR 104-010 requires cities participating in the EMPG Program to coordinate program activities with their respective county emergency managers. Similarly, the rules require counties with participating cities to coordinate their program activities with the city emergency managers.

To meet this requirement, each participating city must have its proposed annual work plan and quarterly program reports reviewed by its county emergency manager or managers if the city limits are within more than one county. Conversely, each county with a participating city or cities must have its proposed annual work plan and quarterly program reports reviewed by the emergency manager of the participating city or cities.”

While Tribal Nations are not required to do so, coordination with their surrounding counties on program activities is encouraged.

Budget Request:

ALL capital outlay and/or equipment that is identified on the Authorized Equipment List (AEL), require screening through the environmental planning/historical preservation (EHP) process. Please see copy of Information Bulletin 329 and the EHP screening memo, both attached.

You must have this approval in writing from OEM and FEMA **BEFORE** the funds can be expended. Your request to OEM must include an electronic version of the EHP screening memo. Please ensure that you allow adequate time for OEM to process your request and obtain FEMA approval for the purchase, which could take up to 60+ days once the EHP is submitted.

Note: OEM cannot submit FY 2020 EHP requests to FEMA Headquarters until we have a signed FY2020 grant agreement with FEMA, which could occur as late as October 2020.

Any capital outlay/equipment purchased without pre-approval from OEM/FEMA (*and this includes issuing a purchase order prior to approval*) will not be reimbursed under the EMPG grant program. Once purchases have been approved, requests for reimbursement must be supported by vendor invoices along with a General Ledger or other financial report from your jurisdiction. The equipment must also be maintained on your local government capital/fixed assets reporting system.

You must have approval in writing from OEM **BEFORE** any budget reallocation occurs. Reallocation of funds may require a grant amendment.

Indirect Facilities and Administration (F&A) Costs: If your agency wishes to request indirect costs be included in your EMPG sub-award, please note the following:

1. The amount of your EMPG sub-award allocation will remain the same – it will not increase by the amount of indirect you are requesting.
2. You will need to submit a copy of your **approved federally recognized indirect cost rate** negotiated between you (the sub-recipient) and the Federal government with your EMPG application, or
3. If no such rate exists, you may:
 - a. Submit with your EMPG sub-award application an indirect cost rate proposal to this office in compliance with 2 CFR 200.331(a) (4).

Requirements for development and submission of indirect (F&A) cost rate proposals and cost allocation plans are contained in Appendices III-VII of 2 CFR 200.

- b. If your agency has never received an indirect cost rate, and receives less than \$35 million in direct federal awards, you may elect to request a de minimis indirect cost rate of 10% of modified total direct costs (MTDC) as defined in 2 CFR 200.414.
 - i. To receive the de minimis indirect cost rate you must include a certification with your EMPG application that your agency has never received an indirect cost rate.
 - ii. As described in 2 CFR 200.403, costs must be consistently charged as either indirect or direct costs, but may not be double charged or inconsistently charged as both. **If chosen, this methodology once elected must be used consistently for all Federal awards until such time as your agency chooses to negotiate for an indirect cost rate [2 CFR 200.414(f)].**
 - iii. See 2 CFR 200.68 for definition of Modified Total Direct Cost (MTDC).
