

OREGON DEPARTMENT OF EMERGENCY MANAGEMENT

Training Opportunity

L0101: Foundations of Emergency Management

Training Course

Date:

February 5-9, 2024

8:00am to 5:00pm (PST) each day

Location:

3930 Fairview industrial Dr

Salem, OR 97302

Course Description:

FEMA recognizes the need to tie training programs to an established set of emergency management competencies and to a Career Development Program through a progressive training and education system that includes the entry-level Academy, called the National Emergency Management Basic Academy. Training objectives for this course are based on the newly established emergency manager competencies that the National Emergency Management Association; the International Association of Emergency Managers; and state, local, territorial, and tribal emergency management professionals have established in coordination with EMI.

Course Objectives

Describe the foundations of emergency management in the United States, including its history, doctrine, and principles, and the role of the emergency manager. Identify and explain legal issues in emergency management, including legal authorities for emergency management, potential legal issues, and strategies for avoiding legal risk. Describe the intergovernmental and interagency context of emergency management, including the roles of Federal, state, local, tribal, and territorial government organizations, individuals and households, the private sector, and Non-Governmental Organizations (NGOs) in the emergency management network. Explain key factors in serving the whole community, including trends that contribute to disaster complexity, demographic characteristics that influence the disaster needs of community members, and strategies for building the resilience of the whole community. Describe how to employ stress management techniques in an organization; both routinely and during or after an incident or period of organizational change. Explain the function of collaboration in emergency management, including benefits of and challenges to collaboration in emergency management,

strategies and tools for building collaborative relationships, and a process for collaborative problem-solving. Explain the relationship between whole community preparedness and achieving Core Capabilities in the Prevention, Protection, Mitigation, Response, and Recovery Mission Areas. Describe key aspects of the Prevention and Protection Mission Areas, including the nature of the missions, guiding principles, and planning issues. Describe key aspects of the Mitigation Mission Area

Target Audience

This course is intended for newly appointed emergency managers from Federal, state, local, tribal, territorial, and emergency management agencies, and prospective professionals transferring from another discipline to emergency management.
