Oregon's Tool for Tracking Incident Data

The screenshot displays two main data tables from the OpsCenter application. The top table, titled 'Incidents (All Counties/Tribes)', lists various incidents with columns for Incident Number, Incident Name, Incident Type, Incident Reported Date, Jurisdiction, and Request Status. The bottom table, titled 'Requests All', lists requests with columns for Request Summary, Request Type, Incident, Request Priority, Request Date, Jurisdiction, Requester Name, Request Status, and Request Score.

Incident Number	Incident Name	Incident Type	Incident Reported Date	Jurisdiction	Request Status
2012-0289	Positive Behavior Check Road Landslide	Landslide - Debris Flow	04/21/2017	Linn	County Activation Only
2012-0408	Mahout County, Edge East-8/2017	Other	02/21/2017	Mahout	Info Sharing
2012-0312	Yamhill County April 2017 Wild Storms	Wildfires	04/07/2017	Yamhill	Limited Activation
2012-0309	Columbia County April 2017 Wild Storms	Wildfires	04/07/2017	Columbia	Limited Activation
2012-0403	Multnomah County March 2017 Flooding	Flood	03/22/2017	Multnomah	Limited Activation
2012-0304	Hernu County Flooding	Flood	01/16/2017	Hernu	Info Sharing
2012-0288	Umatilla Co Feb 2017 Flooding	Flood	02/09/2017	Linn	Limited Activation
2012-0402	Grant Rowley Feb 2017 Flooding	Flood	02/09/2017	Grant Rowley Tribes	Info Sharing
2012-0302	Columbia County Feb 2017 Flooding	Flood	02/09/2017	Columbia	Limited Activation
2012-0400	Mahout County Feb 2017 Flooding	Flood	02/07/2017	Mahout	Limited Activation
2012-0401	Multnomah Foreman Winter Storms	Winter Storms	02/04/2017	Multnomah	County Activation Only
2012-0401	Hernu Co Jan 2017 Winter Storms	Winter Storms	01/26/2017	Hernu	Limited Activation
2012-0303	Umatilla County Jan 2017 Winter Storms	Winter Storms	01/19/2017	Umatilla	County Activation Only
2012-0405	Warm Springs Jan 2017 Winter Storms	Winter Storms	01/18/2017	Warm Springs Indian Reservation	Full Activation
2012-0308	Hernu Co Jan 2017 Winter Storms	Winter Storms	01/18/2017	Hernu	Limited Activation
2012-0305	Hood River Jan 2017 Winter Storms	Winter Storms	01/17/2017	Hood River	Limited Activation
2012-0306	Wasco County Jan 2017 Winter Storms	Winter Storms	01/17/2017	Wasco	County Activation Only

Request Summary	Request Type	Incident	Request Priority	Request Date	Jurisdiction	Requester Name	Request Status	Request Score
Request for Assistance	Assistance	Multnomah Foreman Winter Storms	2 Urgent	02/22/2017	Multnomah County	Sunny Stephens, 503-241-5673	406	13-Open Score
Request for Equipment	Equipment	Hernu County Flooding	2 Urgent	02/16/2017	Hernu County	Heis Burnett	404	15-Closed
Request for Equipment	Equipment	Mahout County - Closed Jan 2017 Winter Storms	2 Urgent	02/15/2017	Mahout County	Rob Hunsacker	404	Closed
Request for Equipment	Equipment	Multnomah Foreman Winter Storms	2 Urgent	02/04/2017	Multnomah County	Lisa Hermsdorf	403	Closed
Request for Equipment	Equipment	January 2017 Winter Storms	2 Urgent	01/25/2017	Hernu County	Loren Enring	402	Closed
Request for Equipment	Equipment	Mahout County - Closed Jan 2017 Winter Storms	2 Urgent	01/24/2017	Mahout County	Rob Hunsacker	401	Closed
Request for Assistance	Assistance	January 2017 Winter Storms	2 Urgent	01/20/2017	Mahout County	Clay Gary Russel	401	Closed
Request for Assistance	Assistance	Mahout County - Closed Jan 2017 Winter Storms	2 Urgent	01/20/2017	Mahout County	Rob Hunsacker	399	Closed
Request for Equipment	Equipment	Mahout County - Closed Jan 2017 Winter Storms	2 Urgent	01/20/2017	Mahout County	Adam Brown, City Manager	396	Closed

The State of Oregon purchased the OpsCenter Crisis Management Application in 2005 to have a common platform to gather critical data during events. The OpsCenter application was used during the December 2007 floods to track requests for state resources and incident data.

Changes were then made after those events to further refine reporting and tracking actions to get to the critical data that was required.

OpsCenter is a crisis management application that allows users to input situation report information and associated critical data related to requests for state resources into a single system.

OpsCenter allows us to gather, track, and share critical information with our emergency management community.

Critical Data and Tools

OpsCenter gathers critical information during actual and simulated events. With OpsCenter, the emergency management community can enter and track critical data 24 hours a day, 7 days a week.

- Incidents (All Counties/Tribes) Status Board — enables users to view and enter in information related to an incident, including situation status, Emergency Operation Center information, and declarations or other associated documents.
- Requests (All) Status Board — enables users to view and enter in requests for state resources.
- Actions (All) Status Board — enables users to view and enter in actions assigned to an agency for fulfilling missions assigned for a request for state resources.
- Situation Report Inputs — enables users to enter in situation report data for inclusion within the State's Situation Report.
- Request Report — enables users to create a report based upon an incident for any requests for state resources and actions assigned for that request.
