Re: Status Update on Fiscal Years 2020-2023 Building Resilient Infrastructure and Communities (BRIC) Program Subawards and Subapplications

Dear Erin McMahon:

As we move the Building Resilient Infrastructure and Communities (BRIC) program forward, we are pleased to provide a status update on existing subawards and pending subapplications submitted for the BRIC program in fiscal years 2020-2023 in Oregon.

Subawards: You must follow all applicable laws, regulations and applicable policies for your BRIC subawards. Please continue to complete your approved and obligated projects according to your scope of work. FEMA expects you to draw down funds regularly, based on your actual expenses and progress. If your project is phased, FEMA must review your Phase I deliverables before reviewing and approving funding to award Phase II.

Subapplications: FEMA is required to review all subapplications before releasing funds for grants. These actions will ensure that funding is obligated and disbursed in line with our statutory and regulatory programmatic requirements. Upon completion of the reviews and assurance that all programmatic requirements have been met, funding may be approved and processed through the respective grant systems. We are currently reviewing BRIC subapplications from fiscal years 2020-2023 in Oregon that have not yet been approved and awarded. Because of a lapse in U.S. Department of Homeland Security appropriations, most FEMA grants staff are furloughed. This may cause delays until the lapse ends.

You can find the status of each subaward and subapplication in the attachment. Please note the status is based on data in FEMA GO. However, FEMA acknowledges there may be minor discrepancies between the actual status and the status noted. We will be able to resolve discrepancies once the lapse ends.

Building Resilient Infrastructure and Communities FY 20-23 Status Update Field Descriptions

Definitions are applicable to grant programs managed in FEMAGO, including BRIC. Financial information is given as of 03/13/2026

Field	Description
Subapplication Identifier	Single-value that uniquely identifies the subapplication/subgrant. The Subapplication Identifier is made up of the [FEMA Organization Code][FEMA Region Letter Code]-[Fiscal Year Opportunity]-[Program Code]-[Application Number]-[Subapplication Number]. This is a system generated field in FEMA GO.
Region	Number (1-10) used to represent the Region associated with the subapplication/subgrant. This is a required field in FEMA GO.
Fiscal Year	The Federal Government Fiscal Year of the grant program funding opportunity. The Fiscal Year runs from October 1 to September 30. This is a required field in FEMA GO.
Applicant State	Full name of the State (e.g., Illinois) associated with the Applicant/Recipient. This is a required field in FEMA GO.
Applicant Name	Name of the Applicant requesting Hazard Mitigation Grant funding (e.g., Illinois Emergency Management Agency). An Applicant becomes a Recipient (previously termed Grantee) when it receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. This is a required field in FEMA GO.
Subapplication Title	Title of the subapplication submitted to FEMA by the subapplicant. This field may be altered by FEMA to remove Personal Identifiable Information (PII). If PII is removed, it will be replaced by "[REDACTED]". This is a required field for subapplicants in FEMA GO.
Status	Current status of the subapplication/subgrant in the system. This is a system maintained field in FEMA GO. <i>submittedToFEMA:</i> The subapplication has been submitted to FEMA <i>subawardAccepted:</i> The award is accepted by the recipient and the subaward was included in the award <i>closeoutInitiated:</i> The recipient has initiated closeout for the subgrant <i>subgrantFinancialReconciliation:</i> The closeout reviews have been completed and financial reconciliation has commenced for the subgrant. <i>closed:</i> The subgrant has completed all required closeout tasks
Selected Federal Share Amount	Cost share amount in dollars approved during the Selection Phase for the subapplication/subgrant to be covered by FEMA. This value may differ from the Federal Share Amount field. This is a conditional field that is dependent when Selection Status is 'Identified for Further Review'. This information may differ from the formal selection announcement made by FEMA following the close of the application period.
IFMIS Total Obligations	Total federal amount obligated for the subgrant. Obligations are executed in increments, based on the subgrant meeting an established project milestone schedule, until the subgrant is completed. This is a system maintained field in Integrated Financial Management Information System (IFMIS), FEMA's financial system of record and the authoritative record for financial transactions related to grants and subgrants. Transaction data is not publicly available and may differ from the FEMAGO OpenFEMA Data.
IFMIS Total Payments	Total amount in dollars for payments for the subgrant. A payment is requested by the Applicant/Recipient for reimbursement of eligible activity costs. This is a system maintained field in Integrated Financial Management Information System (IFMIS), FEMA's financial system of record and the authoritative record for financial transactions related to grants and subgrants. Transaction data is not publicly available and may differ from the FEMAGO OpenFEMA Data.
IFMIS Total Unliquidated Obligations	Total amount in Unliquidated obligation dollars for the subgrant. Unliquidated obligations are calculated as the difference between the total obligations and total payments.
