Dear Friends and Community Partners,

The Oregon Health Authority Equity and Inclusion Division is pleased to announce recruitment for the Health Equity Committee (HEC).

The Health Equity Committee was established by the Oregon Health Policy Board (OHPB) in 2017. The committee's purpose is to coordinate, develop and recommend policy that proactively promotes the elimination of health disparities, inequities, and the achievement of health equity for all people in Oregon.

The Health Equity Committee is responsible for reviewing health policy and leading efforts to develop best-practice policies which improve health equity. Some committee duties include:

- Provide analysis, guidance and recommendations to OHPB on policy, including key legislation, using an equity framework.
- Assess OHA's progress toward achieving defined health equity goals, including steps to becoming a more culturally responsive organization.
- Collaboratively work with other Oregon Health Policy Board (OHPB) committees and make recommendations on improvements

To ensure equitable representation, and based on known gaps in current representation, we are seeking diverse representatives from all identities and areas of the State, and especially:

- Oregon Coast, Willamette Valley, Multnomah, all rural and frontier counties;
- Tribal members
- People who identify as African American, Black, Asian/Pacific Islander;
- People with disabilities;
- People who identify as LGBTQIA2S+
- Health care providers
