

# PFST Release Notes

## Version 2.9.5: June 2025

### Feature Updates

- Field validation rules updated.
- Age calculation logic adjusted to encompass day and month.
- Age rules for user to be unable to enter a future DOB.
- Updates to what languages users can select on Language page in survey questions.
- Translations of GUI for supported languages implemented across tool.
- Limited access to PFST via URL containing metadata, if user uses base URL to access tool, then it will now not let them progress to survey. User must access tool via their facility or program link.
- Updated confirmation email text and hyperlink.
- Text style and formatting updates.
