Oregon Health Authority —New dashboard: RHEC Policy and Systems Priorities

We are pleased to share the launch of a new [interactive dashboard](#) illustrating the 2025 policy and systems priority areas and recommendations from Oregon's Regional Health Equity Coalitions, now live on the [Equity and Inclusion Division RHEC webpage](#).

The dashboard offers two views. The first highlights more than 20 priority areas where RHECs are actively engaged, from tobacco use disparities and language access to housing, behavioral health, and corrections reform. The second compiles more than 60 specific policy recommendations, such as expanding multilingual services and increasing access to gender affirming care.

This resource is designed to help potential future partners identify connection points for collaboration with RHECs and the communities they serve.

For more information visit the [RHEC Program website](#). To connect directly with a RHEC, complete [this request form](#).
