

Newly eligible populations and eligibility dates

We are here

Phase 1B Started on January 25, 2021

Groups 1–4

- Childcare providers, early learning and K–12 educators and staff
- People 70 and older

Group 5

Eligible March 1, 2021

- People 65 and older

Group 6

Eligible no later than March 29, 2021

- Adults 45–64 with one or more underlying health conditions with increased risk*
- Migrant and seasonal farm workers
- Seafood and agricultural workers
- Food processing workers
- People living in low-income senior housing, senior congregate and independent living

- Individuals experiencing houselessness (sheltered and unsheltered)
- People currently displaced by wildfires
- Wildland firefighters

Group 7

Eligible no later than May 1, 2021

- Frontline workers as defined by CDC**
- Multigenerational household members
- Adults 16–44 with one or more underlying health conditions with increased risk*

Phase 2

Group 1

Eligible no later than June 1, 2021

- People who are 45–64

Group 2

Eligible no later than July 1, 2021

- All Oregonians 16 and older eligible.

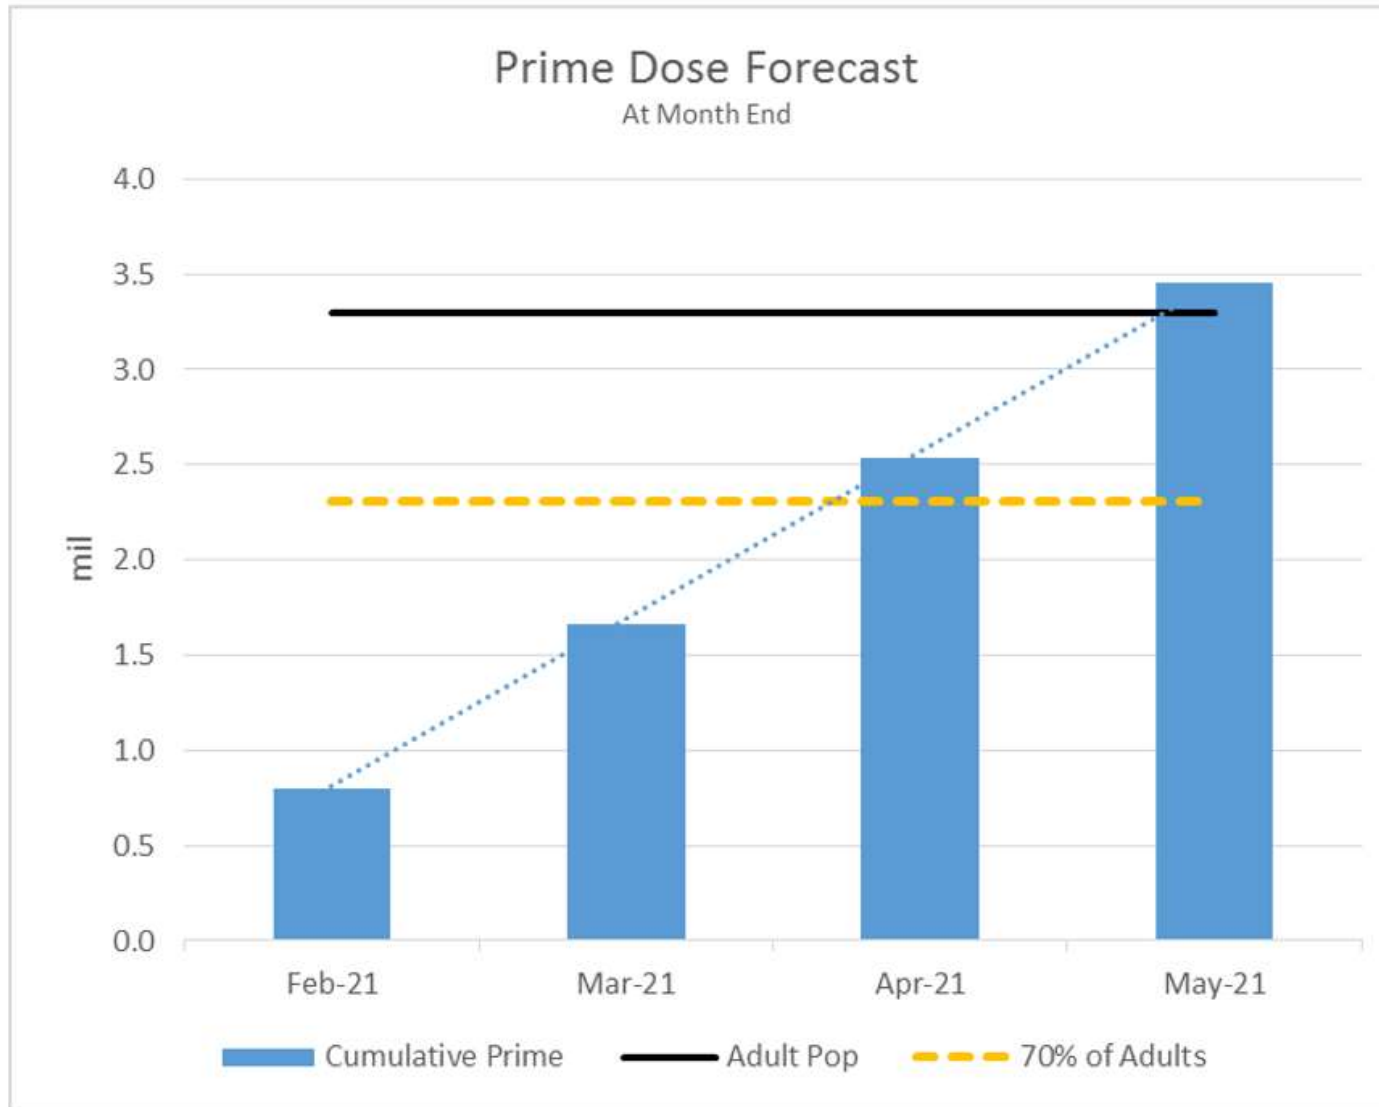

High Level Forecast

First Dose Supply vs. Eligible Population

Prime Dose Forecast

At Month End

- Based on 2/23/21 testimony of vaccine manufacturers
- Assumes Oregon will receive 1.28% of national supply
- Assumes no lag between manufacturers' stated date of availability and actual distribution to Oregon vaccinators

Vaccine Availability Surge Planning: Site Readiness

- Oregon’s projected weekly vaccine allotment by March 7th: 120,000 prime doses
- Vaccine throughput in Oregon ready to increase by over 200%.
- Site readiness for surge by vaccine channel*:

Vaccine Channel	Current Throughput (prime doses/wk)	Throughput Readiness (max. prime doses/wk)
Max Vax Sites	24,600	48,900
Other Hospital/Health System	min.	89,180
Retail Pharmacy	24,000	33,000
FQHC	3,200	9,000
Other Clinic	min.	50,000
LPHAs	35,000	90,400
Total	86,800	320,480

Notes:

- Some LPHA throughput is dependent on other channels (e.g., overlap exists)
- Retail pharmacy estimates are based on past maximum influenza vaccine throughput

*estimates only based on initial survey responses; actual throughput capacity is likely higher

*** Underlying health conditions with increased risk as defined by the Centers for Disease Control and Prevention (CDC)**

- Cancer
- Chronic kidney disease
- COPD (chronic obstructive pulmonary disease)
- Down Syndrome
- Heart conditions, such as heart failure, coronary artery disease, or cardiomyopathies
- Immunocompromised state (weakened immune system) from solid organ transplant or HIV
- Obesity (BMI greater than or equal to 30 kg/m²)
- Pregnancy
- Sickle cell disease
- Type 2 diabetes mellitus

**** Frontline workers include people who work in these industries:**

- A frontline worker is someone who has a job that puts the individual at higher risk for contracting COVID-19 because of:
 - » Regular close contact with others outside of their household (less than six feet); and
 - » Routine (more than 15 minutes per person(s)) close contact with others outside of their household; and
 - » They cannot perform their job duties from home or another setting that limits the close or routine contact with others outside of their household.

These include[†]:

- Workers who are manufacturing vaccine, therapeutics, devices, supplies, or personal protective equipment
- Ranching, greenhouses, beverage manufacturing
- Grocery store and retail workers, including food markets, pharmacies, convenience stores, retail clothing and specialty stores
- Community colleges, colleges, universities, vocational rehabilitation, trade and professional schools
- U.S. Postal Service workers
- Public transit workers, including rural, interurban and urban bus and rail operators
- Manufacturing; including paper, petroleum, coal, asphalt, roofing, chemical, plastics, metal, industrial machinery, computers, electronics, transportation, medical equipment, repair and maintenance
- Transportation and logistics, including air, rail, water, truck, taxi, limousine, charter bus, other transit and ground passenger transportation, warehousing, storage and delivery services
- Food service, including restaurant, bar and kitchen staff
- Energy, including utilities, oil and gas extraction, mining, gas stations, fuel delivery, environmental consulting
- Water and wastewater, solid waste management and recycling, including utilities
- Housing, including construction, contractors, real estate and hotels, housing services such as affordable housing programs, motels and commercial accommodations
- Information technology and communications
- News media, including broadcasting and publishing
- Public health workers, including scientific and technical consulting, research and development
- Public safety, including civil engineers, human services and social services, such as child protective services
- Finance, including banks, accounting, tax preparation, payroll services
- Legal, including court staff, judges, attorneys
- Government, including employees and contractors performing services or business for the public, and elected officials
- State of Oregon legislative and executive branch frontline employees on a list maintained by the Department of Administrative Services (DAS)

[†] This is not an exhaustive list; see <https://www.cdc.gov/vaccines/covid-19/categories-essential-workers.html> for a full list.
