How to find a COVID-19 Vaccine in Oregon

Who can get a vaccine?

Check your current eligibility by:

 Reviewing this document

OR

 Using the Get Vaccinated Oregon tool

Why should I create a Get Vaccinated Oregon account?

The Get Vaccinated Oregon (GVO) tool will tell you if you are currently eligible to receive a vaccine in Oregon. If you are not yet eligible, it will enable you to set up text or email notifications to be notified when you become eligible. Once you are eligible, this tool will also help you find a vaccine provider or vaccination event near you. Sign up today!

 Get Vaccinated Oregon

If you are unable to use the GVO tool, you can also contact 211 for vaccine registration information. Text ORCOVID to 898211 (English and Spanish only), email ORCOVID@211info.org or call 211 or 1-866-698-6155 (toll-free from 6 a.m. to 7 p.m. daily TTY: call 711 then dial 1-866-698-6155).

Where can I find a vaccine?

What do I need to know before I go?

COVID vaccines are safe and effective

The Food & Drug Administration (FDA) requires rigorous safety testing before it will approve any vaccine. The COVID-19 vaccines from Pfizer, Moderna and Johnson & Johnson were tested in tens of thousands of study participants and generated enough data to convince the FDA that the vaccines were safe and effective.

Mass vaccination will help slow the spread of COVID-19

Safe and effective vaccines are the key to achieving community immunity from COVID-19 and returning to normal life as soon as possible.
