

Federal Provider Relief Fund (PRF) – Summary of Distributions to Oregon Hospitals

The federal CARES Act and Health Care Enhancement Act provided billions in relief funds to hospitals and other healthcare providers across the country. A federal dataset listed all providers that have received a payment and attested (agreed to the Terms and Conditions) as of May 14, 2020. The Oregon Health Authority summarized the federal dataset for Oregon hospitals.

Summary

Almost \$300 million dollars has been distributed to Oregon hospitals and hospital systems to date. Oregon hospitals that have received PRF dollars, but not yet attested are not reflected in the federal dataset or this summary.

Two-thirds of these dollars have been distributed to Oregon hospitals who are part of larger health systems (either multi-hospital, or hospital and medical groups); 33% went to individual, or unaffiliated, hospitals. See Table 1 for dollar amounts by individual hospital and Table 2 for dollar amounts by hospital and health system.

Figure 1. Federal Provider Relief Fund Distributions to Oregon Hospitals and Health Systems as of May 14, 2020

Of the \$98 million distributed to unaffiliated hospitals, OHSU received one-third of the funds, followed by Sky Lakes Medical Center (12.8%) and Mid-Columbia Medical Center (8.5%). Pioneer Memorial Hospital in Heppner received the smallest amount: \$388,830 (0.4%). Funds were distributed in proportion to providers' Medicare Fee For Service payments in 2019.¹ See Table 1 for detailed dollar amounts by hospital.

Data Source and Methods

Methods

Oregon Health Authority manually mapped the federal dataset to Oregon hospitals based on names, key words, and locations, making reasonable assumptions. For example, a health system may have been listed multiple times in the federal dataset, with varying locations and distribution amounts. OHA mapped those listings to the known locations of that health system's hospitals.

Other providers (e.g. medical groups) that received federal distributions may be affiliated with hospitals and hospital systems but were not included in this summary.

These data were not reported by hospitals; this summary is an approximation only and does not reflect all of the federal distributions made to Oregon providers.

Data Source

The federal dataset was updated on May 14, 2020 and includes all providers who received a payment from the General Distribution and/or the Rural Targeted Allocation of the Provider Relief Fund *and* who have attested payments and agreed to the Terms and Conditions.²

Several Oregon hospitals and hospital systems are not yet reflected in this dataset, including:

- Adventist Tillamook Regional Medical Center
- Kaiser Health System (Sunnyside and Westside Medical Centers)
- Shriners Hospital for Children

Table 1: Provider Relief Fund Distribution by Hospital

As of May 14, 2020.

We have identified payments for 52 of Oregon’s 60 hospitals. If blank, hospital was not listed in federal dataset, but may be represented by another hospital distribution. For example, PeaceHealth – Sacred Heart Medical Center – Riverbend’s distribution could potentially reflect Riverbend *and* University District.

Table 2: Aggregating Hospital Data into Hospital and Health Systems

Oregon Health Authority aggregated individual hospital distributions into hospital and health systems as described below. If the federal dataset included other distributions for costs that were likely hospital related (e.g., laboratory services) and could be identified as part of the broader health system, those distributions were also included in the total.
