

Child and Adolescent Well-Care Visits (WCV, CMIT #24)

Measure Basic Information

Name and date of specifications used: OHA follows HEDIS® MY2026 Technical Specifications for Health Plans (Volume 2).

Measure Description: The percentage of persons 3–21 years of age who had at least one comprehensive well-care visit with a PCP or an OB/GYN practitioner during the measurement period.

URL of Specifications: This measure is selected in the CMS CHIP and Medicaid Child Core Set; the detail manual and Value Set Dictionary can be found on the CMS resource page:
<https://www.medicare.gov/medicaid/quality-of-care/performance-measurement/adult-and-child-health-care-quality-measures/child-core-set-reporting-resources/index.html>

Measure Type:

☒ HEDIS ☐ Survey ☐ Other Specify:

Measure Utility:

☒ CCO Incentive ☐ CMS Adult Core Set ☒ CMS Child Core Set ☐ Other Specify:

Note: WCV measure sub-age range 3-6, formerly known as the ‘Well-Child Visits in the Third, Fourth, Fifth and Sixth Years of Life (W34)’ is incentivized in the CCO metrics program starting measurement year 2020.

Data Source: MMIS/DSSURS

Measurement Period: January 1, 2026 – December 31, 2026

WCV_Age3-6*	2024^	2025^	2026^
Benchmark for OHA measurement year	70.2%	72.0%	75.3%
Improvement target for OHA measurement year	MN method with 2 percentage point floor	MN method with 1.5 percentage point floor	MN method (no floor)
Source:	MY2022 CCO 90th percentile	MY2023 CCO 90th percentile	MY2024 CCO 90th percentile

^This measure is selected for the Challenge Pool.

Note on telehealth: Telehealth visits no longer qualify for the measure starting MY2025.

Changes in specifications from MY2025 to MY2026:

- Updated the race and ethnicity stratification categories to align with OMB SPD 15 2024.
- Added instructions on allowable adjustments to the race and ethnicity stratifications.
- HEDIS MY2026 specifications restructured the sections related to denominator criteria, but the requirements remain the same.

- Eliminated the legacy Anchor Date rule; the existing requirement is included in the allowable enrollment gap criteria.

CCO coverage type: ☒ CCOA ☒ CCOB ☐ CCOE ☐ CCOF ☐ CCOG

Starting MY2024, CCO members under the Basic Health Plan (BHP) anytime during the required continuous enrollment period are excluded from the incentive quality rates. Note that the Cover All Kids (CAK) and Healthier Oregon Program (HOP) recipients have also been excluded from the incentive quality rates.

Specify claims used in the calculation:

WCV	Claim from matching CCO	Denied claims included
Numerator event	Y	Y

Measure Details

Initial population:

Measure item count: Person.

Attribution basis: Enrollment.

- *Benefits:* Medical.
- *Continuous enrollment:* The measurement period.
- *Allowable gap:* No more than one gap of ≤ 45 days during the continuous enrollment period. No gap on the last day of the measurement period.

Ages: 3–21 years of age as of the last day of the measurement period.

Event: None.

Denominator exclusions:

Persons with a date of death.

Death in the measurement period, identified using data sources determined by the organization. Method and data sources are subject to review during the HEDIS audit.

Persons in hospice or using hospice services.

Persons who use hospice services ([Hospice Encounter Value Set](#); [Hospice Intervention Value Set](#)) or elect to use a hospice benefit any time during the measurement period. Organizations that use the Monthly Membership Detail Data File to identify these persons must use only the run date of the file.

Denominator: The initial population minus denominator exclusions.

Report four age stratifications and total rate:

- *3-6 Years
- 7-11 Years
- 12-17 Years
- 18-21 Years
- Total

* WCV measure sub-age range 3-6, formerly known as the ‘Well-Child Visits in the Third, Fourth, Fifth and Sixth Years of Life (W34) measure’ is incentivized in the CCO metrics program starting measurement year 2020. The original HEDIS WCV measure requires reporting three age stratifications: 3-11, 12-17 and 18-21.

OHA further stratify the first group to age 3-6 and 7-11 so the incentivized measure age range (3-6) can still be reported separately. Additional age stratification is within the HEDIS Allowable Adjustment rules.

Deviations from cited specifications for denominator: None.

Numerator criteria: Persons who had one or more well-care visits during the measurement period with a PCP or OB/GYN practitioner. Either of the following meet criteria:

- A well-care visit (Well Care Visit Value Set).
- An encounter for well-care (Encounter for Well Care Value Set). Do not include laboratory claims (claims with POS code 81).

Do not include telehealth visits (visits billed with a code that indicates telehealth: Telehealth POS Value Set; Online Assessments Value Set; Telephone Visits Value Set). Note that OHA applies the telehealth exclusion at the unique claim detail line level.

The well-care visit must occur with a PCP or an OB/GYN practitioner, but the practitioner does not have to be the practitioner assigned to the member.

To identify PCPs and OB/GYNs, OHA adopts the Oregon Primary Care Primary Care Provider Types and Specialties list established by OHA's Medicaid Division with the addition of Federally Qualified Health Centers (FQHC), Rural Health Clinics (RHC) and Indian Health Clinics (IHC). This method is approved by NCQA.

Qualifying Medicaid Division codes below and can be identified from either the Billing or the Performing Provider. For outpatient and outpatient crossover claims, the Attending Provider is used as a substitution when the Performing Provider information is missing.

Medicaid Division Provider type/specialty codes qualify for PCP or OB/GYN:

PROV_TYPE	PROV_SPEC	CDE_PROV_TYPE	CDE_PROV_SPEC
Physician	Adolescent Medicine	34	222
