

Assessments for Children in ODHS Custody (DHS)

Measure Basic Information

Name and date of specifications used: OHA developed these specifications based on requirements for physical, mental, and dental health assessments for children who enter ODHS custody. The required assessment windows are revised in MY2026 to more closely align with OAR 413-015-0465¹, following the Health Care Standards published by American Academy for Pediatrics (AAP) and Child Welfare League of America (CWLA)².

URL of Specifications: N/A

Measure Type:

☐ HEDIS ☐ Survey ☒ Other Specify: OHA-developed

Measure Utility:

☒ CCO Incentive ☐ CMS Adult Core Set ☐ CMS Child Core Set ☐ Other Specify:

Data Source: MMIS/DSSURS and OR-KIDS

Measurement Period: Cases with First Notification Date November 1, 2025 – October 31, 2026

Note the cut-off date of notification is on October 31st so the health assessment period can occur by the end of the year.

DHS	2024	2025	2026
Benchmark for OHA measurement year	93.2%	93.2%	80.0%
Improvement target for OHA measurement year	MN method with 3 percentage point floor	MN method with 3 percentage point floor	MN method with 2 percentage point floor
Source:	MY 2022 CCO 75th percentile	MY 2022 CCO 75th percentile	Committee consensus

Note on telehealth: This measure is telehealth eligible as the qualifying numerator services do not require in-person place of service codes in claims data. For further information specific to Oregon, the Health Evidence Review Commission (HERC) has provided this [guideline](#) on telehealth services.

Changes in specifications from MY2025 to MY2026:

- The numerator period for physical and dental health assessment is shortened to within 30 days after the first notification to the CCO.

¹ Link to OAR: https://oregon.public.law/rules/oar_413-015-0465

² Link to Health Care Standards by AAP and CWLA: https://www.aap.org/en/patient-care/foster-care/health-care-standards/?srsltid=AfmBOorDnPNKNT4q-iOBRTX2z_dqNh9LAhHeLTppnqdKAJg2Szdpu3Xf

- Updated the denominator and denominator exception sections for numerator compliant cases to be retained in the denominator even if the case didn't meet the continuous ODHS custody or CCO enrollment criteria.
- Added to numerator criteria if the child refused the health assessment.
- Remove the requirement for numerator claims from the matching CCO.
- Remove the obsolete CPT code 99201 from physical health assessment.
- Added information regarding the daily notification files and upcoming changes to the 834 file method.
- Updated the Appendix for additional fields available in the daily notification files.

CCO coverage types: ☒ CCOA ☐ CCOB ☐ CCOE ☐ CCOF ☐ CCOG

- CCO members with eligibility for Basic Health Plan (BHP) or Healthier Oregon Program (HOP) anytime during the required continuous enrollment period are excluded from the incentive quality rates.

Specify claims used in the calculation:

DHS	Only use claims from matching CCO	Denied claims included
Numerator assessments	N (all MMIS/DSSURS claims for the member are used, regardless of Open Card claims, or from other CCOs)	Y

Measure Details

Initial population: Identified children/adolescents 0 – 17 years of age as of the first date of ODHS/OHA notification within 30 days of a new ODHS custody episode start date. Only children/adolescents that ODHS/OHA notified CCOs about will be included in the denominator. Include cases notified from November 1 of the year prior to the measurement year, to October 31 of the measurement year.

Continuous custody and enrollment criteria:

- All cases remain in ODHS custody and continuously enrolled with the notified CCO (for CCOA coverage) from the date of notification through 60 days after (61 total days) with no gaps in coverage, are included in the measure denominator.
- Cases that do not fully meet the 61-day continuous enrollment and ODHS custody criteria but qualify for the denominator exception criteria and meet all numerator criteria, are retained in the denominator. Cases qualify for denominator exception but do not meet all numerator criteria, are excluded. See the Denominator Exception section for more detail.

Whether a child 'remained in custody' is determined by Child Welfare discharge date or transfer of custody (such as OYA) in the OR-Kids data. If a CCO received information from ODHS for change of custody, the CCO should preserve communication records; OHA will review these records and determine exclusions from the metric on a case-by-case basis.

OHA and ODHS launched a new weekly notification data layout on January 13, 2021 which included the key improvements:

- An 'Episode Start Date' (also known as the Foster Care Entry date, or ODHS Custody Entry Date) is provided in the notification file for the CCO to determine whether a new round of assessments is needed, i.e., a new denominator event is triggered for the measure. Assessments are required if the first notification date for the CCO is within 30 days of the latest Episode Start Date. Note that a child may have more than one unique ODHS custody episode in a year.
- Notified cases stay in the weekly files for 90 days so the CCO can receive updates on placement status changes through the assessment period.
- A 'First Notification Date' remains constant with the unique episode throughout the time the case stays in the report and there is a 'count of days with CCO' which helps the CCO to keep track of the assessment completion timeline. There are rare scenarios that could cause child to be dropped from the weekly notification file, then the First Notification Date would be restarted if they returned to the notifications; in this case, only the very first 'First Notification Date' of each unique episode is used to for the calculation to anchor the continuous enrollment and assessment period.

See Appendix for full detail of data fields in the new weekly notification file, including scenarios that could cause the First Notification Date to be restarted.

OHA continues to use the *weekly* CCO notification files as the main source for identifying denominator cases for the measure; the weekly files are normally generated on the Wednesday of the week and then distributed to CCOs on Thursdays (see additional information in numerator period adjustment related to the notification file distribution lag).

OHA has also launched a daily notification file in October 2025 to provide more frequent updates for the children's placement and contact information, based on changes in OR-Kids. The new daily files share similar structure as the existing weekly file, with additional fields focusing on the caregiver information. Cases may appear in the daily file earlier than the weekly file, but OHA continues to use the First Notification Date in existing weekly file to anchor the assessment window for measure calculation.

The daily MMIS/834 enrollment files can provide supplemental information on changes in eligibility and enrollment for all children in ODHS custody within a CCO, but they are not the main source for identifying new cases that require assessments as of MY2025.

Note that OHA is in the process to add the ODHS custody episode start date to the 834 file, which will allow CCOs to identify whether the case is new and the assessments are needed, within the same file that the CCO regularly receive for new enrollees and eligibility changes. OHA's goal is for the 834 file to become the new timely and reliable way for notification on new cases, accompanied by the separate daily notification file for detail placement and contact information from OR-Kids for care coordination.

Denominator exclusion:

Custody cases will be automatically excluded from the final measure denominator for the following reasons:

- The CCO did not receive notification from OHA on the child, even if the CCO was informed by ODHS or another source when the child entered ODHS custody/substitute care.

- The child entered ODHS custody/substitute care more than 30 days prior to the first OHA notification to the CCO³, i.e., a case is excluded if the First Notification Date to the CCO is more than 30 days after the Episode Start Date in the new weekly notification file.
- If a CCO is notified more than once for the same case of a child entering ODHS custody (same Episode Start Date for a child on more than one weekly notification file), only the very first 'First Notification Date' documented in the weekly file is used, and the continuous enrollment and numerator assessment periods are calculated based on this date. Any other CCO notification dates for the same child and ODHS custody entry are excluded.

Custody cases may be excluded from the final measure denominator for the following reasons manually, with OHA review of supporting evidence:

- A child placed in a rehabilitation, residential treatment facility or in OYA detention is not an automatic exclusion, unless the placement is out of the service area for the CCO, or the local ODHS instructed the CCO to not follow up with the case. The CCO needs to preserve communication records for OHA review and determination.

Denominator Exception: Children meet any of the following criteria qualify for denominator exception:

- Children who are not continuously enrolled with the CCO from the date of the first notification through 60 days after (including late start of the enrollment, Run Away status or any enrollment gaps and early disenrollment), but had at least 7 total days of enrollment with the notified CCO.
- Children who do not remain in ODHS custody from the date of the first notification through 60 days after (including custody transferred to OYA, permanent reunification or other scenarios that ends the ODHS custody early).
- Children who were already in 'Trial Reunification' when the case was notified to the CCO or entered 'Trial Reunification' anytime from the date of notification through 60 days after.

Among the denominator exception cases, those that meet all numerator criteria are retained in the measure denominator (and the CCO receives the numerator credits).

Among the denominator exception cases, those that do not meet the numerator criteria are excluded from the denominator.

Final denominator: Initial population minus denominator exclusion, plus denominator exception cases that meet all numerator criteria, minus denominator exception cases that do not meet all numerator criteria.

Numerator criteria: Depending on age at CCO notification date, members in the denominator are required to receive a physical health assessment (all ages 0-17) within 30 days of the notification date, a dental health assessment (age 1-17) within 30 days of the notification date, and a mental health

³ Note: this signals that the case is not new to ODHS custody, therefore does not need new health assessments. The weekly notification file also includes all ODHS custody children new to the CCO, but not necessarily new to ODHS custody or a foster care placement.

assessment (age 3-17) within 60 days of the notification date. All assessments completed within 30 days prior to the notification date can also count, using all MMIS claims regardless of the payer for the visit.

If the child refused the assessment, the CCO can submit documentation from the ODHS case worker or the provider for numerator credit. Each type of assessment needs to be documented separately.

	Required assessments for children entering ODHS custody		
Age on CCO Notification Date	Physical	Dental	Mental
Less than 1 year old	YES	NO	NO
1 to 2 years old	YES	YES	NO
3 to 17 years old	YES	YES	YES
Assessment window from the CCO notification date	-30 to +30 days	-30 to +30 days	-30 to +60 days

Note that due to the regular gap between the file generation date (as the First Notification Date on the weekly notification files) and the distribution on the next day, OHA has allowed an additional one day in numerator window since the MY2025 calculations. The physical and dental health assessment window in the calculation is -30 to +31 days of the First Notification Date and the mental health assessment window is -30 to +61 days of the First Notification Date. OHA will also allow additional days in the numerator window for unique distribution delay incidences.

Qualifying health assessments are identified by one of the following procedure codes:

Physical health assessment codes:

- Outpatient and office evaluation and management codes: 99202- 99205, 99212 – 99215
- Preventative visits: 99381 – 99384, 99391 – 99394
- Annual wellness visits: G0438, G0439
- If physical health assessments as indicated in these new patient E&M codes CPT 99201-99205 include qualifying mental health or child abuse/neglect diagnosis on the same claim (see code table below), they will count as both mental and physical health assessments. This is to reflect assessments provided by a psychiatric (nurse or physician) provider, but OHA does not apply a check of provider specialty in the calculation. Qualifying diagnosis codes include⁴:

Visits with CPT 99202 – 99205 can count as both physical and mental health assessments if paired with following diagnosis codes:	
Source	ICD-10CM Diagnosis (All diagnosis fields apply)
Mental Health Diagnosis Value Set	F03, F20 – F53, F59 – F69, F80 – F99 (total of 291 codes)

⁴ Qualifying diagnosis codes are based on the OHA Health Analytics Behavioral Health team review with Oregon's Prioritized List and additional codes that may be picked up in deferred diagnosis situations.

Diagnosis related to child abuse or neglect	T74.02xA, T74.02xD, T74.12xA, T74.12xD, T74.22xA, T74.32xA, T74.32xD, T74.22xD, T76.02xA, T76.02xD, T76.12xA, T76.12xD, T76.22xA, T76.22xD, T76.32xA, T76.32xD, T76.92xA, T76.92xD
---	--

Mental health assessment codes:

- Psychological assessment and intervention codes: 90791, 90792, 96130, 96131, 96136, 96137, 96138, 96139, H0031, H1011
- Mental health assessment (by non-physician) and CANS assessment at the same visit: H2000-TG (modifier must be included)⁵
- Behavioral health; long-term residential (non-medical, non-acute care in a residential treatment program where stay is typically longer than 30 days): H0019⁶
- Psychiatric health facility service, per diem: H2013
- Community psychiatric supportive treatment program, per diem: H0037

Dental health assessment codes:

- Dental diagnostic codes (clinical oral evaluations): D0100-D0199

Required exclusions for numerator: N/A

For more information: The guidance document for this measure is available online at <https://www.oregon.gov/oha/HPA/ANALYTICS/Pages/CCO-Metrics.aspx>

⁵ Only Licensed Professional Counselor (LPC), Licensed Marriage Family Therapist (LMFT), Licensed Clinical Social Worker (LCSW), psychologist and Qualified Mental Health Professional (QMHP) qualify for performing mental health assessment and eligible for billing H2000-TG. Other providers such as Qualified Mental Health Associates (QMHA), case managers, or care coordinators do not qualify for performing mental health assessment and to use the modifier TG.

⁶ Use of this code counts as both mental and physical health assessment for children in PRTS.

Appendix: Data Fields in Revised CCO Weekly Notification Report for Children in ODHS Custody

	Column Name	Description	Notes
A	firstnotificationdate	The date that the child first appears on the report. To identify the first notification date used in the OHA metric calculation	A child can have a new “first” notification date if the child goes to Out of State (No Service Area Exception), Runaway or Detention and returns to a placement within the first 90 days of the foster care episode. If a case first appears on different dates between the weekly notification and the daily files, the first notification date documented in the weekly file is prioritized for MY2025/MY2026 measure calculation.
B	CountOfDaysWithCCO	Report run date minus first notification date	
C	newtoccoflag	Values can be Y, N, or N/A Y = Child is new to this CCO but not new to this report. Count of days with CCO is 0 days N = Child is not new to this CCO, has been on report previously for this CCO, Count of days with CCO is greater > 0 N/A = Child is new to this report. Count of days with CCO is 0 days.	The count of days with CCO can start over if child is missing from the report for a week or more. This might be because they are returning after a status of Detention or Runaway or because their eligibility is being updated etc.
D	managedcareregion	The region the CCO is governed by	Codes can be found here
E	mmisproviderid	The CCO Provider ID	
F	mmisprovidername	CCO the child is enrolled in	
G	eligibilityeffectivedate	The date the child's medical eligibility began	Not always the same date as foster care episode start date
H	primeid	The child's prime ID from OR-Kids	
I	lastcaseid	The child's OR-Kids case ID	
J	childid	The child's OR-Kids person ID	
K	lastname	The child's last name	
L	firstname	The child's first name	
M	dob	The child's date of birth	
N	gender	The child's gender (m/f)	
O	primaryracelabel	The child's primary race	
P	episodestartdate	The first day of the foster care episode	
Q	daysfcephisodeopen	Run date minus Episode Start Date	
R	lastsvcstartdate	Current service the child is placed in	See tab called "List of Services"

S	lastservicedesc	The type of foster care placement the child is in	See tab called "List of Services"
T	cwcaretakerid	ID of current caretaker	If ID shows as 9999, it means child is on trial reunification
U	cwcaretakeridchangeflag	Values can be Y, N, or N/A Y = Child has new caretaker from previous report N = Child does not have new caretaker from previous report N/A = Child is new to this report so does not have new caretaker from previous report	
V	cwcaretakername	Name of current caretaker	Field will be blank for kids on trial reunification at home with their parents
W	street	Street address of child's current location	
X	city	City of child's current location	
Y	state	State of child's current location	
Z	zip	Zip of child's current location	
AA	phone	Phone number at child's current location	
AB	email	Email at child's current location	
AC	addressstartdate	Start date of current address	
AD	addresschangeflag	Values can be Y, N, or N/A Y = Child has new address from previous report N = Child does not have new address from previous report N/A = Child is new to this report so does not have new address from previous report	
AE	districtdesc	District of primary worker	District map can be found here
AF	branchid	MMIS Branch code	
AG	rundate	Date that this report was run out of OR-Kids	
AH	CaretakerStreet	Street address of Caretaker's current location	
AI	CaretakerCity	City of Caretaker's current location	New in daily file
AJ	CaretakerState	State of Caretaker's current location	New in daily file
AK	CaretakerZip	Zip of Caretaker's current location	New in daily file
AL	CaretakerPhone	Caretaker's current phone number	New in daily file
AM	CaretakerEmail	Caretaker's current email	New in daily file
AN	CaretakerAddressStartDate	Start date of current Caretaker address	New in daily file

Overview

The weekly CCO Notification report will provide timely notification to the child's enrolled Coordinated Care Organization (CCO) that the child has entered foster care and is enrolled in the named CCO. The child will appear on the report if both criteria are met: an open foster care placement and open eligibility/enrollment to a CCO. The child will remain on the report until the foster care placement has been open for ninety days or until disenrollment occurs (for reasons such as Out of State, Detention or Runaway Placement).

Change Flags

If the child moves but remains with the same CCO, the report will update to the current address for the child. If the child moves and the CCO changes, the child's info will update to reflect the new CCO name and child's new address and create a new First Notification Date. A child's address can change because the provider moved while the child remains with that provider, or the child moves to a new provider/placement. Many CCO's upload their list into their own data systems, therefore change flags will be included to specify what changed from the prior day:

- Provider/Placement Change Flag (new provider/placement from prior day)
- Address Change Flag (new address from prior day)
- CCO Enrollment Change Flag (new CCO Provider ID from prior day)

Non-Subcare Placement Rules

If a child goes on **Runaway** and a notification to ODHS Central Office staff occurs, a manual disenrollment will take place. Because this doesn't always happen, the report will drop the child when the runaway placement is opened in ORKids, before MMIS disenrollment occurs. There are three runaway placements: Missing/Runaway (Cd 131), Missing/Abducted (Cd 1080), and Missing/Other (not known why child is missing) (Cd 1081). If the child returns to a foster care placement and enrollment to a CCO occurs prior to the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child goes to **Detention** (Cd 134) and a notification to ODHS Central Office staff occurs, a manual disenrollment will take place. Because this doesn't always happen, the report will drop the child when the detention placement is opened in ORKids, before MMIS disenrollment occurs. If the child returns to a foster care placement and enrollment to a CCO occurs prior to

the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child is placed **Out of State** (County Code 999 in MMIS) with no SAE Exception (child is not in placement Cd 133: Child Placed in Mental Health Facility) auto-disenrollment will occur. If the child returns to a foster care placement and enrollment to a CCO occurs prior to the foster care episode being open for ninety days, the child will re-appear with a new First Notification Date, whether the CCO has changed or not.

If a child is in an **OYA Placement** (Cd 1083: OYA Paid Placement – Foster Care or Cd 1084: OYA Paid Placement - Residential) the child will remain on the report and the Count of Days with the CCO will continue. (No new First Notification Date)

If a child is on **Trial Reunification** (Cd 1030) the child will remain on the report and the Count of Days with the CCO will continue. (No new First Notification Date)
