

Please fill out each excel page tab in sequence, beginning with Step 2 and working through each worksheet. Values inputted will then populate on the final CBR Summary form tab. Instructions on how to complete the steps will be included with each tab.

Please review the final CBR Summary tab for accuracy before submitting data to OHA.

In addition to completing this form, please remember to submit:

**- The most recent version of your hospital's community needs assessment, completed in compliance with section 501(r)(3) of the Internal Revenue Service codes.**

**- A community benefit supplemental narrative answering the following questions**

1. The year of publication for the current community health needs assessment.
2. The top health needs identified in the hospital's most recent community health needs assessment. Include information on geographies, populations or demographic groups affected.
3. The significant community benefit activities the hospital engaged in that addressed the health needs identified above.
4. Identify any community benefit activity that addresses the social determinants of health. Separate activities into those that:
  - a. Address individual health-related social needs
  - b. Address systemic issues or root causes of health and health equity

**For more information on completing the supplemental narrative, please refer to the community benefit report form instructions.**

**Submit completed CBR-1 form, CHNA and supplemental narrative to [hdd.admin@odhsoha.oregon.gov](mailto:hdd.admin@odhsoha.oregon.gov)**

# Community Health Improvement Services

## Community Building Activities

## Community Benefit Operations

Input data

Computed Field

Community Health Improvement Services are activities that are carried out to improve community health. These services do not generate inpatient or outpatient bills. They may involve a nominal patient fee or sliding scale fee. These activities are based on an identified community need. Eligible expenses include direct and indirect costs, equipment, transportation and employee time as long as the employee is performing the function during their normal working hours. **Count:** School based health programs, wellness classes, general chronic disease management, weight loss and nutrition classes, special event health screenings, transportation support. **Do not count:** classes designed to increase market share, prenatal classes offered to insured patients, customary education as a part of comprehensive care, classes offered to employees as a benefit, health screenings as a part of routine business, programs that refer patients to your facility.

Do not count any grants or other cash distributions that are also claimed as Cash and In Kind contributions.

Community building activities improve the community's health and safety by addressing the root causes of health problems, such as poverty, homelessness and environmental hazards. These are activities that improve overall health, but are not direct health services. These may also be referred to as social determinants of health. Examples include neighborhood improvements and revitalizations, economic development, and community support. **Count:** Neighborhood improvements, public works, lighting, tree planting, graffiti removal, housing rehabilitation, low income housing support, economic development, grants to local businesses, child care services, environmental clean up. **Do not count:** Employee housing costs, construction of medical facilities, business investments, landscape and maintenance of facilities, facility environmental improvements required by law.

Charity care- means free or discounted health services provided to persons who cannot afford to pay and from whom a hospital has no expectation of payment. Charity care does not include bad debt, contractual allowances or discounts for quick payment. Eligibility determinations by hospitals can be made at any point during the revenue cycle but all efforts should be made to determine eligibility as early in the revenue cycle as possible. **Count:** Free and discounted care, expenses incurred by the provision of charity care, indirect costs not already included in calculating costs. **Do not count:** Bad debt, contractual allowances, implicit price concessions, or quick-pay discounts, Any portion of charity care costs already included in the subsidized health care services category. **If your hospital cannot provide charity care cost data by primary payer, input all payer charity care in the "other" category, lines 5a-5d below**

### Calculation of Unreimbursed Costs of Medicaid Programs

Indicate which expense method is being used to correctly populate the summary table  
 Cost to Charge Ratio     Cost Accounting

Unreimbursed costs for Medicaid are the shortfall created when a facility receives payments that are less than the cost of caring for Medicaid or SCHIP beneficiaries. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input NET COSTS for line 2.

## Other Public Payer Worksheet

### Calculation of Unreimbursed Costs of Other Public Payers

Unreimbursed costs other public payers are the shortfalls created when a facility receives payments that are less than the cost of caring for beneficiaries of non-Medicare, non-Medicaid public programs. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input **NET COSTS** for line 2. **Count:** Veterans Health Administration, Tricare, CHAMPUS, Indian Health Services, other state or federal benefit programs. **Do not count:** Medicare, Medicaid, SCHIP.

## Subsidized Health Services

Subsidized health services are clinical service lines that are provided despite a financial loss because they meet an identified community need and it is reasonable to conclude that if the hospital no longer offers the service, then the service would be unavailable in the community, the community's capacity to provide the service would be below the community's need, or the service would become the responsibility of government or another tax-exempt organization. Such services must be at an financial loss after removing revenue and expenses associated with Medicaid, bad debt, charity care and other public programs.

Version Number	Date	Notes
CBR12022.02	11.28.22	Corrected formula field on summary tab to correctly link Step3 encounters and Step8 patient visits. Updated email address on Step1 Moved subsidized health services from line 14 to line 9 to align with the methodology of the minimum spending floor. Line 11 (Row 24) totals are what OHA will use to calculate unreimbursed care trends for the community benefit minimum spending floor purposes. Clarified patient visits are requested in charity care tab, not unique patients. Added input line for percent of charity care dollars at 100%
CBR12022.01	7.26.22	Corrected formula field on summary tab that was including charity care in public programs sub total, resulting in double counting charity care.
CBR12021.05	3.2.22	Made a formatting change on Charity Care workbook, cost accounting column to improve readability and highlight the correct field that is used.
CBR12021.04	2.25.22	Corrected formula field in the CCR workbook that incorrectly referenced net expenses. Corrected issue on charity care total gross charges formula that incorrectly included patients served instead of gross charges from "Other Payor" section.
CBR12021.03	2.9.22	Corrected issue on summary tab where unreimbursed care summed incorrectly
CBR12021.02	2.2.22	
CBR12021.01	1.1.22	New Release
