Community Health Improvement Services Community Building Activities Community Benefit Operations

Input data

Computed Field

Community Health Improvement Services are activities that are carried out to improve community health. These services do not generate inpatient or outpatient bills. They may involve a nominal patient fee or sliding scale fee. These activities are based on an identified community need. Eligible expenses include direct and indirect costs, equipment, transportation and employee time as long as the employee is performing the function during their normal working hours. **Count:** School based health programs, wellness classes, general chronic disease management, weight loss and nutrition classes, special event health screenings, transportation support. **Do not count:** classes designed to increase market share, prenatal classes offered to insured patients, customary education as a part of comprehensive care, classes offered to employees as a benefit, health screenings as a part of routine business, programs that refer patients to your facility.

Do not count any grants or other cash distributions that are also claimed as Cash and In Kind contributions.

Community building activities improve the community's health and safety by addressing the root causes of health problems, such as poverty, homelessness and environmental hazards. These are activates that improve overall health, but are not direct health services. These may also be referred to as social determinants of health. Examples include neighborhood improvements and revitalizations, economic development, and community support. Count: Neighborhood improvements, public works, lighting, tree planting, graffiti removal, housing rehabilitation, low income housing support, economic development, grants to local businesses, child care services, environmental clean up. Do not count: Employee housing costs, construction of medical facilities, business investments, landscape and maintenance of facilities, facility environmental improvements required by law.

Community Benefit Operations are costs associated with conducting community needs assessments, community benefit strategy development and operations. These include staff costs, including wage and benefit, contracting, equipment and software costs. Use caution to not double count staff costs accounted in community benefit operations in other categories. **Count:** Staff costs for managing community benefit programs, costs associated with needs assessments, grant writing and fundraising costs, administrative costs of outreach or public forums, training costs associated with community benefit. **Do not count:** Market analysis, market surveys, grants or fundraising for non-community benefit projects, staff time for inhouse volunteer programs.

Cash and in-kind contributions includes funds, grants and in-kind services donated to individuals or the community at large. As a general rule, count donations to organizations and programs that are consistent with your organization's goals and mission. In-kind services include hours donated by staff to the community while on health care organization work time, overhead expenses of space donated to not-for-profit community groups (such as for meetings), and donation of food, equipment, and supplies. **Count:** Hospital cash donations, grants, event sponsorship, general contributions to not-for-profit organizations or community groups, scholarships to community members not specific to health care professions, meeting room overhead and space for not-for-profit organizations and community groups, equipment, supplies, staff time while on regular working hours, **Do not count:** Staff time for employees volunteering outside their working hours, employeedonated funds, Emergency funds provided to employees, fees for sporting event tickets, time spent at golf outings or other primarily recreational events, employee perks or gifts.

11	Patient care cost-to-charge ratio (divide line 7 by line 10; use this percentage on Charity Care, Medicaid, and other public program cost worksheets)	44.41%	48.6%

Charity Care Worksheet Calculation of Charity Care at Cost

Input data

Computed Field

DRAFT

Charity care- means free or discounted health services provided to persons who cannot afford to pay and from whom a hospital has no expectation of payment. Charity care does not include bad debt, contractual allowances or discounts for quick payment. Eligibility determinations by hospitals can be made at any point during the revenue cycle but all efforts should be made to determine eligibility as early in the revenue cycle as possible. Count: Free and discounted care, expenses incurred by the provision of charity care, indirect costs not already included in calculating costs. Do not count: Bad debt, contractual allowances, implicit price concessions, or quick-pay discounts, Any portion of charity care costs already included in the subsidized health care services category. If your hospital cannot provide charity care cost data by primary payer, input all payer charity care in the "other" category, lines 5a-5d below

Indicate which expense method is being used to correctly populate the summary table

Cost to Charge Ratio

O Cost Accounting

8	Total Direct off-setting revenue	0	0	0
12	Net community benefit expense	2,363,497	\$2,285,707	0

If your hospital elects to use a cost accounting methodology in lieu of a cost to charge ratio, input **NET COST** for lines 1b, 2b, 3b, 4b, and 5b under the cost accounting column.

If your hospital cannot provide charity care data by payor, use lines 5a-5d, other payor, to input all payer charity care amounts, for both CCR or cost accounting methods.

Unreimbursed Costs of Medicaid Unreimbursed Costs of Other Public Payers Subsidized Health Services

Input data Computed Field

Medicaid Worksheet

Calculation of Unreimbursed Costs of Medicaid Programs

Indicate which expense method is being used to correctly populate the summary table

Cost to Charge Ratio

Cost Accounting

Unreimbursed costs for Medicaid are the shortfall created when a facility receives payments that are less than the cost of caring for Medicaid or SCHIP beneficiaries. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input NET COSTS for line 2.

Line		Amount	Sample
1	Number of Medicaid patients, including managed Medicaid and SCHIP		2,000
2	Gross patient charges from Medicaid programs, including managed Medicaid and SCHIP		23,000,000
3	Cost-to-charge ratio	44.41%	48.6%
4	Medicaid Expenses	0	11,185,349
5	Medicaid Provider Taxes		1,000,000
6	Total Medicaid Expenses	0	12,185,349
7	Net patient service revenue from Medicaid programs, including managed Medicaid and SCHIP		7,000,000
8	Other revenue (Ex: HRA payments, Provider Tax Reimbursement, Qualified Directed Payments)		1,000,000
9	Total direct offsetting revenue	0	8,000,000
10	Net community benefit expense	0	4,185,349

If your hospital elects to use a cost accounting methodology in lieu of a cost to charge ratio, input **NET COST** for line 2, under the cost allocation column.

Form CBR

Other Public Payer Worksheet

Calculation of Unreimbursed Costs of Other Public Payers

Unreimbursed costs other public payers are the shortfalls created when a facility receives payments that are less than the cost of caring for beneficiaries of non-Medicare, non-Medicaid public programs. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input <u>NET COSTS</u> for line 2. **Count:** Veterans Health Administration, Tricare, CHAMPUS, Indian Health Services, other state or federal benefit programs. **Do not count:** Medicare, Medicaid, SCHIP.

DRAFT

Line		Amount	Sample		
1	Number of other public payer patients, excluding Medicare and Medicaid	4,566	500		
2	Gross patient charges from Other Public Payers, excluding Medicare and Medicaid	15,983,260	10,000,000		
3	Cost-to-charge ratio	44.41%	48.6%		
6	Total Other Public Payer Expenses	7,098,355	4,860,000		
7	Net patient service revenue from Other Public Payers, excluding Medicare and Medicaid	4,131,289	4,000,000		
8	Other revenue related to services provided to Other Public Payers		500,000		
9	Total direct offsetting revenue	4,131,289	4,500,000		
10	Net community benefit expense	2,967,066	360,000		
Note: If net community benefit expense is negative, indicating a gain, do to report results on form CBR-1, as gains are not reportable.					

Cost Accounting Option	j
	(
	(
	(

If your hospital elects to use a cost accounting methodology in lieu of a cost to charge ratio, input **NET COST** for line 2, under the cost allocation column.

Subsidized Health Services

Subsidized health services are clinical service lines that are provided despite a financial loss because they meet an identified community need and it is reasonable to conclude that if the hospital no longer offers the service, then the service would be unavailable in the community, the community's capacity to provide the service would be below the community's need, or the service would become the responsibility of government or another tax-exempt organization. Such services must be at an financial loss after removing revenue and expenses associated with Medicaid, bad debt, charity care and other public programs.

Line		Amount	Sample	
1	Number patient encounters for subsidized health services		500	
2	Total expenses, excluding losses to Medicaid, Charity Care or other public payers		10,000,000	
3	Net patient service revenue from subsidized health services		4,000,000	
4	Grants, subsidies or other sources of revenue that support subsidized health services		500,000	
5	Total direct offsetting revenue	0	4,500,000	
6	Net community benefit expense	0	5,500,000	
Note: If net community benefit expense is negative, indicating a gain, do to report results on form CBR-1, as gains are not reportable.
