Re: Harney District Hospital Form CBR-1 Supplemental Information

To Whom It May Concern:

Please accept this letter as the Supplemental Narrative that is required to be submitted with Form CBR-1 following a 9-month process of data collection, analysis and preparation of the report. Harney District Hospital's CHNA process is explained in detail in the published assessment.

Harney District Hospital's most recent Community Benefit Report was published August 2022.

The top health needs identified were:

1. Substance Abuse/Addiction (Drugs, Alcohol, and Tobacco)
  - a. Status: Awareness campaign, cessation resources, & support of community partners in process.
2. Mental Health (Mental Illness/Depression and Suicide Prevention)
  - a. Status: Employee resource support, awareness campaign, local partnerships in process.
3. Child Abuse/Neglect/ Trauma (Adverse Childhood Experiences)
  - a. Status: Support strategies, trauma informed care practice, hosting social events for youth in process.
4. Obesity/Diabetes/Chronic Illness
  - a. Status: Know your numbers campaign, annual health fairs, Frontier veggie RX program in process.

Information regarding the geographies, populations and demographic groups affected are included in the published CHNA report.

The community benefit activities that the hospital has engaged in are included on the improvement plan/progress report which is included with the submission of Form CBR-1 and would be redundant to repeat in this narrative.
