## Community Health Improvement Services

## Community Building Activities

## Community Benefit Operations

Input data

Computed Field

Community Health Improvement Services are activities that are carried out to improve community health. These services do not generate inpatient or outpatient bills. They may involve a nominal patient fee or sliding scale fee. These activities are based on an identified community need. Eligible expenses include direct and indirect costs, equipment, transportation and employee time as long as the employee is performing the function during their normal working hours. **Count:** School based health programs, wellness classes, general chronic disease management, weight loss and nutrition classes, special event health screenings, transportation support. **Do not count:** classes designed to increase market share, prenatal classes offered to insured patients, customary education as a part of comprehensive care, classes offered to employees as a benefit, health screenings as a part of routine business, programs that refer patients to your facility.

Do not count any grants or other cash distributions that are also claimed as Cash and In Kind contributions.

Charity care- means free or discounted health services provided to persons who cannot afford to pay and from whom a hospital has no expectation of payment. Charity care does not include bad debt, contractual allowances or discounts for quick payment. Eligibility determinations by hospitals can be made at any point during the revenue cycle but all efforts should be made to determine eligibility as early in the revenue cycle as possible. **Count:** Free and discounted care, expenses incurred by the provision of charity care, indirect costs not already included in calculating costs. **Do not count:** Bad debt, contractual allowances, implicit price concessions, or quick-pay discounts, Any portion of charity care costs already included in the subsidized health care services category. **If your hospital cannot provide charity care cost data by primary payer, input all payer charity care in the "other" category, lines 5a-5d below**

Indicate which expense method is being used to correctly populate the summary table

## Medicaid Worksheet

### Calculation of Unreimbursed Costs of Medicaid Programs

Indicate which expense method is being used to correctly populate the summary table

Cost to Charge Ratio

Cost Accounting

Unreimbursed costs for Medicaid are the shortfall created when a facility receives payments that are less than the cost of caring for Medicaid or SCHIP beneficiaries. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input NET COSTS for line 2.

If your hospital elects to use a cost accounting methodology in lieu of a cost to charge ratio, input **NET COST** for line 2, under the cost allocation column.

Note: If net community benefit expense is negative, indicating a gain, do not report results on form CBR-1, as gains are not reportable.

## Other Public Payer Worksheet

### Calculation of Unreimbursed Costs of Other Public Payers

Unreimbursed costs other public payers are the shortfalls created when a facility receives payments that are less than the cost of caring for beneficiaries of non-Medicare, non-Medicaid public programs. If using a cost to charge ratio, the workbook will populate the cost to charge ratio computed previously. If using a cost accounting method, fill out only the cost accounting option provided to the right. Only input NET COSTS for line 2. **Count:** Veterans Health Administration, Tricare, CHAMPUS, Indian Health Services, other state or federal benefit programs. **Do not count:** Medicare, Medicaid, SCHIP.

Note: If net community benefit expense is negative, indicating a gain, do to report results on form CBR-1, as gains are not reportable.

If your hospital elects to use a cost accounting methodology in lieu of a cost to charge ratio, input **NET COST** for line 2, under the cost allocation column.

## Subsidized Health Services

Subsidized health services are clinical service lines that are provided despite a financial loss because they meet an identified community need and it is reasonable to conclude that if the hospital no longer offers the service, then the service would be unavailable in the community, the community's capacity to provide the service would be below the community's need, or the service would become the responsibility of government or another tax-exempt organization. Such services must be at an financial loss after removing revenue and expenses associated with Medicaid, bad debt, charity care and other public programs.

Line		Amount	Sample
1	Number patient encounters for subsidized health services	35,667	500
2	Total expenses, excluding losses to Medicaid, Charity Care or other public payers	22,096,591	10,000,000
