### Metrics and Scoring Committee Background

The Metrics and Scoring Committee was established in 2012 by Senate Bill 1580 for the purpose of recommending outcomes and quality measures for Coordinated Care Organizations (CCOs). Metrics and quality measures are used by the Oregon Health Authority to determine whether CCOs are effectively and adequately improving care, making quality care accessible, eliminating health disparities, and controlling costs for the populations that they serve. CCOs earn incentive dollars for their performance on the measures selected by the Metrics & Scoring Committee. Membership must include:

- Three members at large;
- Three individuals with expertise in health outcomes measures; and
- Three representatives of coordinated care organizations.

Committee members will be expected to commit to full participation, including effort to attend meetings in person. The Committee meets at least quarterly (and often monthly). Additional information on the Metrics and Scoring Committee, including charter, bylaws, and 2018 meeting schedule is available online at: [www.oregon.gov/oha/hpa/analytics/Pages/Metrics-Scoring-Committee.aspx](http://www.oregon.gov/oha/hpa/analytics/Pages/Metrics-Scoring-Committee.aspx)
