

# Agenda

## Social Emotional Health Metric Learning Collaborative

### Agenda overview

### OHA updates and next steps on Learning Collaborative

- April 6<sup>th</sup>: Optional learning collaborative meeting

### Action Plans: Small group discussions

- By geography
- By topic area
- Highlights

### Close and next steps

# Group discussions by geography

**Room 1: Metro (HSO, Trillium) - Laura**

**Room 2: Central/Eastern (EOCCO, Pacific Source, Yamhill) – Rachel**

**Room 3: Southern (Allcare, Advanced, JCC, Umpqua, Cascade) - Cathy**

**Main room: Coastal Central (IHN, CPCCO, Pacific Source) - Diana**

# Questions for discussion by geography

In the asset mapping of contracted providers, what/where are the biggest gaps you found that informed your Action Plans?

Are there any common/shared contracted providers (or non-contracted partners) among your CCOs in this regional group?

How could you work together as a group of CCOs with partners (contracted or non-contracted)?

Group  
discussions  
by topic  
areas

---

**Room 1: Therapy Services** (within Specialty Behavioral Health and Integrated Behavioral Health) - Laura

---

**Room 2: Screening & Assessment by CCO Contracted Providers** - Rachel

---

**Room 3: Referral Pathways** - Cathy

---

**Main room: Environment** - Diana

## **Therapy Services (within Specialty Behavioral Health and Integrated Behavioral Health)**

- Increase range of social-emotional health therapy services by CCO contracted providers
- Workforce development to improve skills of available providers (e.g., training, support for credentialing, tool provision, quality improvement facilitation)
- Workforce development to increase provider diversity and availability (e.g., recruitment strategies, training, support for credentialing or other educational attainment)
- Pursue new contract and payment options for community-based providers to enhance provision of Social-Emotional health services.

## **Screening & Assessment by CCO Contracted Providers**

- Increase Social-Emotional health assessments provided to children in CCO covered settings.
- Increase Social-Emotional screening of young children in CCO covered settings.
- Workforce trainings/quality improvement support to implement population-based screening of children birth to five for social-emotional delays in primary care.

## **Supporting Access - Referral Pathways**

- Address access barriers for families (e.g., improve language access supports, provide child care supports, provide transportation supports, expand hours or offer flexible scheduling)
- Improve care coordination for families, including providing support navigating Social-Emotional health services and improving referral pathways
- Supporting Publicly Available Information about Providers: Materials about behavioral health providers available in region for children birth-to-five that are easy to access and use, including provider
- Pilot of “warm referrals”, feedback loops.

## **Environment**

- Public health messaging

# Room 1: Discussion questions for therapy services

What are the specific therapy services/programs your CCO is planning to implement?

What are the steps/activities your CCO plans to take to implement these programs?

What type of support might you need from other CCOs, from partners, from OHA?

Room 2:  
Discussion  
questions for  
screening and  
assessment  
by CCO  
contracted  
providers

What specific steps are you planning to take to improve screening and assessments?

With whom are you partnering to take these steps?

What type of support might you need from other CCOs, from partners, from OHA?

Room 3:  
Discussion  
questions for  
supporting  
access-  
referral  
pathways

What are some of the biggest types of access barriers you are planning to address?

Who are the partners and what are the specific steps you plan to take?

What type of support might you need from other CCOs, from partners, from OHA?

# Main room: Environment

What type of environmental or public health strategies is your CCO planning to improve the overall landscape for improving social-emotional health services to young kids?

Who are the partners and what specific steps do you plan to take?

What type of support might you need from other CCOs, from partners from OHA?
