

Cost Growth Target Reporters for 2025 Data Submission – Mandatory Reporters

Mandatory Reporters are payers and licensed third-party administrators with at least 1,000 members across all required lines of business (Commercial, Medicare Advantage, Medicaid).

Payers with cells highlighted in gold have less than 5,000 covered lives across all markets or for one specific market (Medicaid, Medicare Advantage, Commercial). They will not be identified individually in any public reporting for the highlighted market(s) at the payer level. Their data will be reported in aggregate at the state and market level only.

¹ Commercial market includes the individual market and the small group market, both on and off exchange, the large group market, short-term plans, as well as student plans and associations, trusts, and MEWAs (multiple employer trusts).

² According to Oregon Administrative Rule (OAR) 409-065-0010, mandatory submitter status is based on data from DCBS for the Medicare Advantage line of business. For Aetna, the data reflected in the table for Medicare Advantage were taken from enrollment data from the Centers for Medicare and Medicaid Services (CMS). This is because DCBS data for Aetna's Medicare Advantage line of business are incorrect. Aetna reaches the threshold to be a mandatory reporter for the program regardless of its Medicare Advantage enrollment.

Voluntary Reporters

Voluntary reporters are payers and licensed third-party administrators invited to submit data to Oregon's Cost Growth Target program.

Voluntary reporters include payers with at least 1,000 covered lives in the commercial: self-insured market in Oregon identified in the 2023 DCBS enrollment data and payers solely providing Medicare Advantage plans with covered lives representing less than 5 percent of the total Medicare Advantage market in Oregon. Payers that have both fully-insured and self-insured plans in Oregon are included in the Mandatory Reporters above.

Voluntary reporters highlighted in gold are invited to submit data but will not be identified individually in any public reporting. Their data will be reported in aggregate at the state and market levels only.
