SUSTAINABLE HEALTH CARE COST GROWTH TARGET PROGRAM**

In the Matter of:

Oregon Healthcare Resources, LLC,
an Oregon Limited Liability Company
dba Oregon Medical Group

For the Cost Growth Target
measurement period: 2022-2023

Agency No. **CGT-2024-PROV-07**

**NOTICE OF PROPOSED DETERMINATION
AND RIGHT TO REQUEST A HEARING**

Oregon Health Authority's (OHA) Sustainable Health Care Cost Growth Target Program (CGT) is tasked with monitoring the cost of health care in Oregon and holding payers and provider organizations accountable for cost growth that exceeds the annual target with statistical confidence and without an acceptable reason. The CGT is governed by Oregon Revised Statutes (ORS) 442.385 through 442.386 and Oregon Administrative Rules (OAR) Chapter 409, Division 65.

Per ORS 442.386 and OAR 409-065-0035, OHA reviews underlying cost drivers and reasons for cost growth and makes a determination as to whether such conditions or factors, or combination of such conditions or factors, suffices as reasonable cause for an entity to exceed the cost growth target for the measurement period.

Now, therefore, upon due consideration of the circumstances, including the mandatory cost growth target data submissions, supplemental information provided by the entity, and the entirety of OHA's record, OHA enters the following Notice of Proposed Determination.

Procedural History and Findings of Fact

1. OHA's CGT conducted its cost growth review under OAR 409-065-0035 which requires that OHA conduct analyses to understand potential systematic causes or other factors that might result in payers or provider organizations exceeding the cost growth target. The cost growth target for 2021 through 2025 is 3.4%.¹
2. Oregon Healthcare Resources, LLC, an Oregon Limited Liability Company dba Oregon Medical Group ("Oregon Medical Group") (owned by Optum) is a provider organization in Oregon and was identified as an accountable organization for the 2022-2023 measurement period. To be accountable to the target, provider organizations must have at least 10,000 unique patient lives or 5,000 lives within any one CGT market (Medicaid, Medicare Advantage, Commercial) attributed to them across CGT data submissions for the measurement period.²
 - a. On or around January 9, 2025, OHA notified Oregon Medical Group that they had sufficient attributed patient volume to be subject to the cost growth target program for the 2022-2023 cost growth period.

¹ The cost growth target value for 2021-2025 was established by the Cost Growth Target Implementation Committee, as documented in their January 2021 Recommendations Report.

² Provider inclusion criteria were established by the Cost Growth Target Implementation Committee, as documented in their January 2021 Recommendations Report.

<https://www.oregon.gov/oha/HPA/HP/HCCGBDocs/Cost%20Growth%20Target%20Committee%20Recommendations%20Report%20FINAL%2001.25.21.pdf>. OHA publishes the list of provider organizations that meet inclusion criteria every year.

- b. On or around January 23, 2025, OHA generated a data output summary and shared it with Oregon Medical Group on or around February 13, 2025.
 - c. OHA held a data validation meeting with Oregon Medical Group on March 26, 2025 to review data output for the 2024 data cycle and discuss and resolve any data validation concerns.
 - d. During OHA's CGT-1 data validation with provider organizations in Spring 2025, several questions arose about the payer submitted CGT-1 data that led to Providence resubmitting their final and accepted data on or around March 14, 2025 and United Health resubmitting their final and accepted data on or around June 24, 2025.
 - e. On or around July 2, 2025, OHA shared an updated version of Oregon Medical Group's cost growth target data, following resubmissions of 2022-2023 cost growth target data by several cost growth target mandatory reporters (payers) that resulted from the Spring 2025 provider validation process.
 - f. OHA completed CGT-1 data validation with Oregon Medical Group on or around July 2, 2025.
 - g. During a July 25, 2025 meeting between OHA and Oregon Medical Group regarding Medicare Advantage cost drivers, Oregon Medical Group raised data validation concerns with a major Medicare Advantage payer.
 - h. OHA met with the Medicare Advantage payer on August 14, 2025 to discuss data reporting issues and possible remedies. Due to the lack of transparency around certain payment categories, OHA removed this segment of 2022-2023 Medicare Advantage market spending for Oregon Medical Group.
 - i. On or around August 28, 2025, OHA shared an updated version of Oregon Medical Group's cost growth target data. This did not change the overall target performance for Oregon Medical Group.
3. In addition to collecting and reporting on Oregon Medical Group's cost growth, per OAR 409-065-0028, OHA notified Oregon Medical Group on July 31, 2024

that it was required to submit a CGT-4 Frontline Workforce data template, with a due date of December 6, 2024.

- a. Oregon Medical Group submitted its CGT-4 Frontline Workforce data template on or around December 5, 2024.
 - b. On or around December 5, 2024, OHA completed validation of Oregon Medical Group's CGT-4 frontline workforce data submission.
4. OHA identified Oregon Medical Group as having intedeterminant cost growth between calendar years 2022 and 2023 for the following markets: **Commercial, 5.3%** and **Medicaid, 6.4%**.
5. OHA identified Oregon Medical Group as having cost growth over the target between calendar years 2022 and 2023 for the following market: **Medicare Advantage, 8.7%**.
6. Per OAR 409-065-0035(3), on or around August 28, 2025, OHA notified Oregon Medical Group that:
 - a. it had exceeded the cost growth target in Medicare Advantage for the 2022-2023 measurement period; and
 - b. a determination of reasonableness process for the Medicare Advantage market was not required following an initial review of cost growth target data and other available information.

Findings of Determining Reasonableness Process

1. **Rising cost of pharmacy (retail and medical).** A significant portion of the growth in per member per month costs between 2022-2023 was due to an increase in the amount spent on retail and medical pharmacy for Oregon Medical Group patients. The cost of pharmaceuticals is an ongoing concern in Oregon and nationally. The latest Centers for Medicare and Medicaid Services (CMS) National Health

Expenditure data reports prescription drug expenditures grew 11.4% in 2023, faster than the rate increase of other health care expenditures³.

PROPOSED DETERMINATION

1. Following a review of CGT data and additional information on health care spending, OHA has determined that Oregon Medical Group's health care cost growth for **Medicare Advantage** from 2022-2023 was **due to acceptable reason(s)**. Oregon Medical Group will not be held accountable for cost growth in this measurement period and no further action is required for this measurement period. Attached as Exhibit A, and incorporated herein by reference, is a running summary of Oregon Medical Group's cost growth performance over time.

Dated this 31 day of October 2025.
