SUSTAINABLE HEALTH CARE COST GROWTH TARGET PROGRAM**

In the Matter of:

Oregon Healthcare Resources, LLC,  
an Oregon Limited Liability Company  
dba Oregon Medical Group

For the Cost Growth Target  
measurement period: 2021-2022

Agency No. **CGT-2023-PROV-07**

**NOTICE OF PROPOSED DETERMINATION  
AND RIGHT TO REQUEST A HEARING**

Oregon Health Authority's (OHA) Sustainable Health Care Cost Growth Target Program (CGT) is tasked with monitoring the cost of health care in Oregon and holding payers and provider organizations accountable for cost growth that exceeds the annual target with statistical confidence and without an acceptable reason. The CGT is governed by Oregon Revised Statutes (ORS) 442.385 through 442.386 and Oregon Administrative Rules (OAR) Chapter 409, Division 65.

Per ORS 442.386 and OAR 409-065-0035, OHA reviews underlying cost drivers and reasons for cost growth and makes a determination as to whether such conditions or factors, or combination of such conditions or factors, suffices as reasonable cause for an entity to exceed the cost growth target for the measurement period.

Now, therefore, upon due consideration of the circumstances, including the mandatory cost growth target data submissions, supplemental information provided by the entity, and the entirety of OHA's record, OHA enters the following Notice of Proposed Determination.

### **Procedural History and Findings of Fact**

OHA's CGT conducted its cost growth review under OAR 409-065-0035 which requires that OHA conduct analyses to understand potential systematic causes or other factors that might result in payers or provider organizations exceeding the cost growth target. The cost growth target for 2021 through 2025 is 3.4%.<sup>1</sup>

Oregon Healthcare Resources, LLC, an Oregon Limited Liability Company dba Oregon Medical Group (owned by Optum) is a primary care provider in Oregon and was identified as an accountable organization for the 2021-2022 measurement period. To be accountable to the target, provider organizations must have at least 10,000 unique patient lives or 5,000 lives within any one CGT market (Medicaid, Medicare, Commercial) attributed to them across CGT data submissions for the measurement period.<sup>2</sup>

On or around December 13, 2023, OHA notified Oregon Medical Group that it had sufficient patient volume to be accountable to the cost growth target. On or around January 10, 2024, OHA generated a data output summary and shared it with Oregon Medical Group on or around January 24. On or around March 14, 2024, OHA met with Oregon Medical Group to review data output for the 2023 data cycle and discuss and

<sup>2</sup> Provider inclusion criteria were established by the Cost Growth Target Implementation Committee, as documented in their January 2021 Recommendations Report.

<https://www.oregon.gov/oha/HPA/HP/HCCGBDocs/Cost%20Growth%20Target%20Committee%20Recommendations%20Report%20FINAL%2001.25.21.pdf> OHA publishes the list of provider organizations that meet inclusion criteria every year.

resolve any data validation concerns. On or around April 10, 2024, OHA completed CGT-1 data validation with Oregon Medical Group.

On or around May 7, 2024, OHA notified Oregon Medical Group of the cost growth data that were to be reported publicly in OHA's 2024 Cost Growth Target Annual Report, for the 2021-2022 cost growth measurement period. This report was released publicly on or around May 28, 2024.

On or around August 1, 2024, OHA reissued its 2024 Cost Growth Target Annual Report for the 2021-2022 cost growth measurement period due to data mitigation implemented after an error found in a payer's previously-validated submission. This update resulted in an update to Oregon Medical Group's 2021-22 cost growth.

In the corrected report, OHA identified Oregon Medical Group as having cost growth over the target between calendar years 2021 and 2022 for the following markets:

**Commercial, 6.5%**

On or around July 25, 2024, OHA notified Oregon Medical Group that it had exceeded the cost growth target for the 2021-2022 measurement period pursuant to OAR 409-065-0035(3).

OHA met with Oregon Medical Group between August and October of 2024 to discuss potential reasons for excess cost growth in the Commercial market. See Attachment 1 for meeting dates and participants. Following these meetings, Oregon Medical Group provided additional information on its reasons for growth following consultation with one of its primary payers, and responded to questions from OHA regarding this information.

### **PROPOSED DETERMINATION**

Following a review of CGT data and additional information on health care spending, OHA has determined that Oregon Medical Group's health care cost growth for the Commercial market from 2021-2022 was:

- **Not due to acceptable reason(s).** Oregon Medical Group will be held accountable for cost growth in this measurement period.

- Pursuant to ORS 442.386 and OAR [409-065-0045](#), 2021-2022 will count as one year of excess cost growth in the “at least three out of five calendar years” that trigger a financial penalty.

Please see Attachment 2 for a running summary of Oregon Medical Group’s cost growth performance over time.

Dated this 21 day of January, 2025.
