Consolidated Financial Statements  
December 31, 2021 and 2020  
(With Independent Auditors' Report Thereon)

KPMG LLP  
Suite 2900  
1918 Eighth Avenue  
Seattle, WA 98101

### Independent Auditors' Report

The Board of Directors  
MultiCare Health System:

#### *Opinion*

We have audited the consolidated financial statements of MultiCare Health System (the Company)(a Washington nonprofit corporation), which comprise the consolidated balance sheets as of December 31, 2021 and 2020, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Company as of December 31, 2021 and 2020, and the results of its operations and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

#### *Basis for Opinion*

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Company and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### *Responsibilities of Management for the Consolidated Financial Statements*

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for one year after the date that the consolidated financial statements are issued.

#### *Auditors' Responsibilities for the Audit of the Consolidated Financial Statements*

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Company's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

**(1) Nature of Organization and Summary of Significant Accounting Policies**

**(a) Organization Description**

MultiCare Health System (MHS), a Washington nonprofit corporation, is an integrated healthcare delivery system providing inpatient, outpatient, and other healthcare services primarily to the residents of Pierce, King, Spokane and Thurston Counties and, with respect to pediatric care, much of the southwest Washington region. As of December 31, 2021, MHS was licensed to operate 2,099 inpatient hospital beds, including 120 beds associated with a joint venture psychiatric hospital in Tacoma, Washington. MHS operates nine acute care facilities (Tacoma General Hospital, Good Samaritan Hospital, Allenmore Hospital, Mary Bridge Children's Hospital, Auburn Medical Center, Covington Hospital, Deaconess Hospital, Valley Hospital and Capital Medical Center) and one behavioral health hospital (Navos). MHS also operates eight outpatient surgical sites, five free-standing emergency departments, home health, hospice, and multiple urgent care, primary care and multispecialty clinics located throughout the MHS service areas.

The consolidated financial statements include the operations of these facilities and services as well as those of three wholly owned subsidiaries (Greater Lakes Mental Healthcare, Medis, Inc. and MultiCare Rehabilitation Specialists, P.C.), a wholly owned professional services organization supporting cardiovascular services at MHS (CHVI Professional Corp), a wholly owned accountable care organization (MultiCare Connected Care), and two fundraising foundations (Mary Bridge Children's Foundation and MultiCare Foundations, which is doing business as MultiCare Health Foundation, Good Samaritan Foundation, MultiCare South King Health Foundation, MultiCare Behavioral Health Foundation and MultiCare Inland Northwest Foundation).

On April 1, 2021, MHS completed the purchase of Capital Medical Center in Olympia, Washington from an affiliate of LifePoint Health and physician owners to acquire a 100% ownership interest. Capital Medical Center is licensed to operate 107 inpatient hospital beds as well as operates multiple primary care and multispecialty clinics within Thurston County. The acquisition of Capital Medical Center was valued at \$44,662. Assets and liabilities purchased included land, buildings, equipment, accounts receivable, intangibles and other assets offset by accounts payable, accrued compensation, other current liabilities and other liabilities and were recorded at their estimated fair values as determined based on standard asset appraisal techniques. MHS hired substantially all of the employees previously employed by Capital Medical Center. The following table summarizes the estimated fair values of

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

assets acquired and liabilities assumed as of the acquisition date along with the cash consideration paid.

Recognized amounts of identifiable assets acquired and liabilities assumed:

Patient accounts receivable	\$ 13,500
Other current assets	3,628
Land, buildings and equipment	30,551
Intangibles and other assets	8,915
Accounts payable, accrued compensation and other current liabilities	(8,695)
Other liabilities	(3,295)
	<hr/>
Total identifiable net assets assumed	44,604
Recognized amount of goodwill assumed:	
Goodwill	58
	<hr/>
Total	\$ 44,662
Total cash consideration transferred	\$ 39,173

On December 20, 2021, MHS completed a separate purchase of land and buildings associated with the Capital Medical Center hospital campus and several surrounding clinic offices from an affiliate of Medical Properties Trust (MPT). The acquisition was valued at \$135,000 of land, buildings and other related assets acquired.

Recognized amounts of identifiable assets acquired:

Land	\$ 20,053
Buildings	114,069
Leasehold improvements	163
Intangible assets	715
	<hr/>
Total	135,000
Transaction expenses	3,148
	<hr/>
Total cash consideration transferred	\$ 138,148

**(b) Principles of Consolidation**

The accompanying consolidated financial statements include the accounts of MHS after elimination of all significant intercompany accounts and transactions.

**(c) Use of Estimates**

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

**(d) Cash and Cash Equivalents**

Cash and cash equivalents include certain investments in highly liquid instruments with maturities of three months or less at the date of purchase. Cash equivalents and investments that are held by outside investment managers or restricted per contractual or regulatory requirements are classified as investments on the consolidated balance sheets.

**(e) Accounts Receivable**

Accounts receivable are primarily comprised of amounts due for healthcare services from patients and third-party payors and are recorded net of amounts for contractual adjustments and implicit price concessions.

**(f) Supplies Inventory**

Supplies inventory consists of pharmaceutical, medical-surgical, and other supplies generally used in the operations of MHS. Supplies inventory is stated at lower of cost or net realizable value using the average cost method, except for pharmacy, which uses the first-in, first-out (FIFO) method. Obsolete and unusable items are expensed at the time such determination is made.

**(g) Donor Restricted Assets**

The majority of the donor restricted assets are invested in MHS' investments and are stated at fair value or estimated fair value. Donor restricted assets that are held separately from MHS' investments include perpetual trusts and charitable remainder unitrusts, where MHS is the beneficiary but not the trustee, that are invested in mutual funds, fixed income securities, and equity securities. Those with readily determinable fair values are stated at fair value. Those investments for which quoted market prices are not readily determinable are carried at values provided by the respective investment managers or trustees, which management believes approximates fair value.

Charitable gift annuities, which are included in donor restricted assets, totaled \$2,308 and \$2,471 at December 31, 2021 and 2020, respectively. MHS has recorded a corresponding payable of \$775 and \$1,119 at December 31, 2021 and 2020, respectively, to pay for estimated future obligations to beneficiaries. The current portion of these obligations is included in accounts payable and accrued expenses and the long-term portions are included in other liabilities, net in the accompanying consolidated balance sheets. According to Washington State law, MHS, as a distinct legal entity holding charitable gift annuities, is required to maintain unrestricted net assets of at least \$500, which MHS has done for each of the periods presented.

**(h) Investments**

MHS accounts for its investment portfolio as a trading portfolio, therefore, investments in fixed income securities, equity securities, and commingled trusts with a readily determinable fair value are recorded at fair value, which are determined based on quoted market prices or prices with observable inputs

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

obtained from national securities exchanges or similar sources. Other investments, including limited partnerships, commingled real estate trust funds, limited liability partnerships, and hedge funds are carried at net asset value (NAV) provided by the respective investment managers, which management believes approximates fair value. Valuations provided by investment managers consider variables such as valuation and financial performance of underlying investments, quoted market prices for similar securities, recent sale prices of underlying investments, and other pertinent information. Management reviews the valuations provided by investment managers and believes that the carrying values of these financial instruments are reasonable estimates of fair value.

Realized gains and losses are recorded using the average cost method. Investment income or loss (including realized gains and losses on investments, change in unrealized gains or losses, interest, and dividends) is included in the excess of revenues over expenses unless the income or loss is restricted by donor or law.

***(i) Property, Plant, and Equipment***

Property, plant, and equipment are recorded at cost. Depreciation expense is computed using the straight-line method over the following estimated useful lives of the assets:

Buildings	5–80 years
Land improvements	8–20 years
Equipment	3–30 years

In 2021, MHS re-evaluated the useful lives of property, plant, and equipment used to compute depreciation expense, resulting in a prospective change in estimated useful lives of certain buildings and equipment. The method of determining the new estimated useful lives is based on historical data of similar assets at MHS and similarly sized entities. MHS believes this change aligns the useful life with the actual usage of the asset and is a better depiction of the net book value of the assets held and in-use. This change is recognized prospectively as a change in accounting estimate. MHS recorded reductions in depreciation expense of property, plant and equipment of \$48,094 for the year ended December 31, 2021.

The Company capitalizes all software implementation costs that meet the criteria for capitalization, including those that relate to a service contract (e.g. hosting arrangement). The capitalized software implementation costs are reflected within property, plant and equipment in the consolidated balance sheets. These costs are amortized together with the costs of the related software license; however, the implementation costs related to a service arrangement are amortized over the term of the arrangement. The amortization period for all capitalized implementation costs is generally 10 years.

Maintenance and repairs are charged to operations as they occur. Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. Gains upon sale or retirement of property, plant, and equipment are included in other operating revenue whereas losses are included in other expenses. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of constructing those assets.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

MHS assesses potential impairments to its long-lived assets as well as its intangible assets, as described below, when there is evidence that events or changes in circumstances indicate that an impairment has been incurred. These changes can include a deterioration in operating performance, a reduction in reimbursement rates from government or third-party payors or a change in business strategy. An impairment charge is recognized when the sum of the expected future undiscounted net cash flows is less than the carrying amount of the asset. In 2021 and 2020, there were no impairment charges.

Gifts of long-lived assets such as land, buildings, or equipment are reported as support without donor restrictions, and are excluded from the excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as support with donor restrictions. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

**(j) Leases**

Management reviews contracts in order to identify leases and properly classify leases as either operating or financing. MHS is a lessee of various equipment and facilities under noncancelable operating and financing leases. Operating and financing right-of-use (ROU) liabilities are recognized based on the net present value of lease payments over the lease term at the commencement date of the lease and are reduced by payments made on each lease on the straight-line basis. Since most of the leases do not provide an implicit rate of return, MHS uses its incremental borrowing rate based on information available at the commencement date of the lease in determining the present value of lease payments. Generally, MHS cannot determine the interest rate implicit in the lease because it does not have access to the lessor's estimated residual value or the amount of the lessor's deferred initial direct costs. Therefore, MHS generally uses its incremental borrowing rate as the discount rate for the lease. MHS' incremental borrowing rate for a lease is the rate of interest it would have to pay on a collateralized basis to borrow an amount equal to the lease payments using similar terms. Leases with an initial term of 12 months or less are not recorded on the balance sheet; rather, rent expense for these leases is recognized on a straight-line basis over the lease term, or when incurred if a month-to-month lease.

If a lease contains a renewal option at the commencement date and it is considered reasonably certain that the renewal option will be exercised by management to renew the lease, the renewal option payments are included in MHS' net minimum lease payments used to determine the right-of-use lease liabilities and related lease assets. All other renewal options are included in right-of-use lease liabilities and related lease assets when they are reasonably certain to be exercised.

All lease agreements generally require MHS to pay maintenance, repairs, property taxes and insurance costs, which are variable amounts based on actual costs incurred during each applicable period. Such costs are not included in the determination of the ROU lease liability or ROU lease asset. Variable lease cost also includes escalating rent payments that are not fixed at commencement but are based on an index that is determined in future periods over the lease term based on changes in the Consumer Price Index or other measure of cost inflation.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

Variable lease payments associated with MHS' leases are recognized when the event, activity, or circumstance in the lease agreement on which those payments are assessed occurs. Variable lease payments are presented in other expenses in the consolidated statement of operations and changes in net assets.

MHS has elected the practical expedient to not separate lease components from nonlease components related to its real estate leases.

**(k) Goodwill and Intangible Assets**

Goodwill is an asset representing the future economic benefits arising from the difference in the fair value of the business acquired and the fair value of the identifiable and intangible net assets acquired in a business combination. Indefinite-lived intangible assets are assets that are not amortized because there is no foreseeable limit to cash flows generated from them. Goodwill and intangible assets is included in other assets, net in the accompanying consolidated balance sheets. At December 31, 2021 and 2020, MHS has goodwill of \$152,927 and \$152,869, respectively, which includes \$58 of goodwill recognized as part of the acquisition of Capital Medical Center. At December 31, 2021 and 2020, MHS has intangible assets, net of accumulated amortization, of \$19,136 and \$14,214, respectively, which includes \$8,466 of intangible assets recognized as part of the acquisition of Capital Medical Center. Goodwill and intangible assets are included in other assets, net in the accompanying consolidated balance sheets.

If it is more likely than not that goodwill is impaired, MHS records the amount that the carrying value exceeds the fair value as an impairment charge. Goodwill is not amortized and along with indefinite-lived intangible assets is evaluated at least annually for impairment. There were no impairment charges recognized during the years ended December 31, 2021 or 2020.

Amortizing intangible assets are comprised of certificates of need, license agreements, trade names and lease arrangements, which all have finite useful lives. Amortization expense is recorded on a straight-line basis over the estimated useful life of the assets, which ranges from three to thirty years, associated with the nature of the intangible asset. Amortization expense was \$3,544 and \$1,621 for the years ended December 31, 2021 and 2020, respectively.

**(l) Investment in Joint Ventures**

MHS maintains ownership in certain joint ventures related to imaging, office buildings, behavioral health and other healthcare focused activities and accounts for these joint ventures under the equity method of accounting. As of December 31, 2021 and 2020, MHS held ownership interests in 21 and 15 joint ventures, respectively. Investment in joint ventures is included in other assets, net in the accompanying consolidated balance sheets. Gain on joint ventures for the year ended December 31, 2021 was \$513 associated with several joint ventures performance. Loss on joint ventures for the year ended December 31, 2020 was \$4,709. Gains and losses are included in other operating revenue on the consolidated statements of operations and changes in net assets.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

***(m) Estimated Third-Party Payor Settlements***

Medicare cost reports are filed annually by MHS with the Medicare intermediary and are subject to audit and adjustment prior to settlement. Estimates of net settlements due to Medicare were \$4,634 and \$3,456 as of December 31, 2021 and 2020, respectively, and have been recorded within accounts payable and accrued expenses in the accompanying consolidated balance sheets. Third-party settlements are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, based upon the amount of the final settlements. Patient service revenue decreased by \$1,178 in 2021 and increased by \$106 in 2020 to reflect changes in the estimated Medicare settlements for prior years.

***(n) Interest Rate Swaps***

MHS maintains several interest rate swap agreements as a means of hedging its exposure to variable-based interest rates and fluctuations in cash flows as part of its overall interest rate risk management strategy. All MHS interest rate swaps are recorded at fair value. The accounting for changes in the fair value of these swaps depends on whether those had been designated as cash flow hedges. As of December 31, 2021 and 2020, none of MHS' interest rate swaps were designated as cash flow hedges and therefore, the changes in fair value are recognized and included in other income (loss) on the consolidated statements of operations and changes in net assets. These swaps have notional amounts totaling approximately \$709,000 and expire starting in August 2027 through August 2049. The majority of the swaps have the economic effect of fixing the LIBOR-based variable interest rate on an equivalent amount of MHS' outstanding floating rate principal debt.

Under master netting provisions of the International Swap Dealers Association (ISDA) agreement with each of the counterparties, MHS is permitted to settle with the counterparties on a net basis. Due to the right of offset under these master netting provisions, MHS offsets the fair value of certain interest rate swap assets with swap liabilities on the consolidated balance sheets.

***(o) Net Assets with Donor Restrictions***

Gifts are reported as support with donor restrictions if they are received with donor stipulations that restrict the use of the donated assets to a specific time or purpose or have been restricted by donors and are maintained by MHS in perpetuity. When restricted funds to be used for operations are expended for their restricted purposes or by the occurrence of the passage of time, these amounts are released from restrictions for operations and are classified as revenues, gains, and other support without donor restrictions. When restricted funds are expended for the acquisition of property, plant, and equipment, these amounts are recognized in net assets without donor restrictions as net assets released from restriction – capital acquisitions.

MHS applies the provisions of Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 820, *Fair Value Measurement*, related to using the present value technique to measure fair value of pledges receivable. In accordance with ASC Topic 820, MHS has applied the expected present value technique to pledges received after January 1, 2009 that adjusts for a risk premium to take into account the risks inherent in those expected cash flows. Pledges of financial support are recorded as pledges receivable when unconditional pledges are made and are stated at net realizable value. Pledges are reported net of an allowance for uncollectible pledges and pledges to

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

be collected in future years are reflected at a discounted value using a weighted average discount rate. As of December 31, 2021 and 2020, MHS has recorded \$20,305 and \$14,160, respectively, of net pledge receivables, which are included in donor-restricted assets in the accompanying consolidated balance sheets. As of December 31, 2021, \$5,652 of pledges are due in one year or less and \$14,653 in two to seven years.

**(p) Patient Service Revenue**

Patient service revenue is reported at the amount that reflects the consideration to which MHS expects to receive in exchange for providing patient services. These amounts are due from patients, third-party payors, and others and include the variable consideration for retroactive adjustments to revenue due to final settlement of audits, reviews, and investigations. MHS bills the patient and third-party payors several days after the services are performed or when the patient is discharged from the facility, whichever is later.

**(q) Hospital Safety Net Assessment**

The State of Washington (the State) has a safety net assessment program involving Washington State hospitals to increase funding from other sources and obtain additional federal funds to support increased payments to providers for Medicaid services. In connection with this program, MHS recorded increases in patient service revenue of \$89,738 and \$83,884 for 2021 and 2020, respectively, and incurred assessments of \$64,570 and \$61,112 for 2021 and 2020, respectively, which were recorded in other operating expenses in the accompanying consolidated statements of operations and changes in net assets. MHS has outstanding receivables of \$16,737 and \$14,649 associated with this program as of December 31, 2021 and 2020, respectively, which are included with accounts receivable on the consolidated balance sheets.

**(r) Uncompensated and Undercompensated Care**

MHS provides a variety of uncompensated and undercompensated healthcare services to the communities it serves within the purview of its mission. Because MHS does not pursue collection of amounts determined to qualify as uncompensated care, MHS has determined that it has provided implicit price concessions to uninsured patients and patients with other uninsured balances. The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amount MHS expects to receive based on its historical collections from these patients. Patients who meet the criteria of MHS' uncompensated care policy are eligible to receive these services without charge or at an amount less than MHS' established rates. Such amounts determined to qualify as charity care are not reported as revenue. The State provides guidelines for charity care provided by hospitals in the state. Hospitals are recommended to provide full charity care to patients who meet 100% of the federal poverty guidelines and a lesser amount to patients who meet up to 200% of the federal poverty guidelines. MHS provides full charity care to patients who meet 300% of the federal poverty guidelines and also provides uncompensated care on a sliding scale for patients whose income is between 301% and 500% of the federal poverty guidelines for true self-pay patients and patients with deductibles and coinsurance amounts. The estimated cost of charity care provided was approximately \$48,000 and \$51,000 in 2021 and 2020, respectively. The estimated cost of uncompensated and undercompensated services provided to patients covered under Medicaid in excess of payments received was approximately \$300,406 and \$218,443 in 2021 and

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

2020, respectively. These cost estimates are calculated based on the overall ratio of costs to charges for MHS.

**(s) Other Operating Revenue**

Other operating revenue includes revenue from cafeteria sales, retail pharmacy, laboratory revenue from community providers, medical office rental income, contributions without donor restrictions, grant revenue, contracted behavioral healthcare revenue and other miscellaneous revenue.

**(t) Excess of Revenues over Expenses**

The consolidated statements of operations and changes in net assets include excess of revenues over expenses. Changes in net assets without donor restrictions, which are excluded from the excess of revenues over expenses, primarily include changes in accrued pension asset, net assets released from restrictions for capital expenditures, and capital assets received.

**(u) Federal Income Taxes**

ASC Subtopic 740-10, *Income Taxes*, clarifies the accounting for uncertainty in income taxes recognized in MHS' consolidated financial statements. This topic also prescribes a recognition threshold and measurement standard for the financial statement recognition and measurement of an income tax position taken or expected to be taken in a tax return. Only tax positions that meet the "more-likely than-not" recognition threshold at the effective date may be recognized or continue to be recognized upon adoption. In addition, this topic provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Other than Medis, Inc., which is a taxable corporation, and Columbia Capital Medical Center, LP (operating as Capital Medical Center), which is a taxable partnership, all of the other entities have obtained determination letters from the Internal Revenue Service that they are exempt from federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in 501(c)(3) of the Internal Revenue Code, except for tax on unrelated business income.

**(v) Self-Insurance Reserves**

MHS is self-insured with respect to professional and general liability, workers compensation and medical and other health benefits with excess insurance coverage over self-insured retention limits. MHS records insurance liabilities for these specific items by using third party actuarial calculations and certain assumptions and inputs such as MHS historical claims experience and the estimated amount of future claims that will be incurred.

**(w) New and Pending Accounting Standards**

In June 2016, FASB issued Accounting Standards Update (ASU) 2016-13 and in November 2019, issued ASU 2019-10, *Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*. The amendments in this update require that financial assets are measured at amortized cost basis and presented at the net amount expected to be collected. This eliminates the probable initial recognition threshold in current GAAP and, instead, reflects an entity's current estimate of all expected credit losses and broadens the information that an entity must consider in developing its expected credit loss estimate for assets measured either collectively or individually.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The provisions of this ASU are effective for MHS for the year beginning on January 1, 2023. MHS does not expect the adoption of this ASU to have a material effect on its consolidated financial statements.

In August 2018, FASB issued ASU 2018-15, *Intangibles – Goodwill and Other – Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement That Is a Service Contract*. The amendments in this update align the requirements for capitalizing implementation costs incurred in a hosting arrangement that is a service contract with the requirements for capitalizing implementation costs incurred to develop or obtain internal-use software (and hosting arrangements that include an internal-use software license). The guidance in Subtopic 350-40 is used to determine which implementation costs to capitalize as an asset related to the service contract and which costs to expense and is also used to determine the amortization period of the capitalized costs. The provisions of this ASU are effective for MHS for the year beginning on January 1, 2021. MHS has applied the provisions of this ASU prospectively as is allowed and this ASU does not have a material effect on its consolidated financial statements.

In April 2019, FASB issued ASU 2019-04, *Codification Improvements to Topic 326, Financial Instruments – Credit Losses, Topic 815, Derivatives and Hedging, and Topic 825, Financial Instruments*. The amendments in this update are divided into four separate topics that discuss the details of the improvement areas and the amendments made to the Codification for these improvement areas. Topics 1, 2 and 5 in this ASU relate specifically to ASU 2016-13, which is effective for MHS for the year beginning January 1, 2023. Topics 3 and 4 in this ASU have been evaluated and are not applicable to MHS. MHS does not expect the adoption of this ASU to have a material effect on its consolidated financial statements.

In March 2020, FASB issued ASU 2020-04, *Reference Rate Reform (Topic 848): Facilitation of the effects of Reference Rate Reform on Financial Reporting*. The amendments in this update provide practical expedients to contract modifications when it is being modified due to the replacement of a reference rate within the contract. The provisions of this ASU are effective immediately and will be available through December 31, 2022. Modifications completed after December 31, 2022 must use current guidance instead of the provisions in this ASU. MHS will make contract modifications in 2022 but does not expect the adoption of this ASU to have a material effect on its consolidated financial statements.

**(2) Coronavirus (COVID-19) Impact**

On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was signed into law and on March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law. Both the CARES Act and ARPA were aimed to direct economic assistance for American workers, families, and small businesses, and preserve jobs for American industries. The COVID-19 pandemic impacted all hospitals and physician offices throughout the health system.

The CARES Act and ARPA require the amount of funding received to be validated, which requires management to quantify lost revenues and increased expenses associated with the pandemic. The CARES Act authorized funding to be distributed under the Provider Relief Fund (PRF) and the Coronavirus Relief Fund (CRF). MHS has recognized revenue associated with the PRF, CRF and ARPA funding according to the terms and conditions of the CARES Act and ARPA, and as contribution revenue under

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

FASB ASC 958-605. Refunding of amounts received may be required by the CARES Act if a receiving entity is unable to quantify the financial losses intended to be covered by funding. MHS has determined that it is able to justify retaining all funding received in 2021 and 2020 and has not recorded any liabilities as of December 31, 2021 and 2020 for potential repayment of funds received.

MHS has filed applications and obtained reimbursement of additional expenses from the Federal Emergency Management Agency (FEMA) based on criteria due to the national emergency declaration made due to COVID-19. MHS submitted an expedited funding application with FEMA that covers the period from the start of the national disaster declaration to June 30, 2020. The expedited application allowed MHS to recover up to 50% of the total funding applied for on the application. MHS continues to complete the final reconciliation of the expedited funding application to receive the remainder of the funding and will apply for additional funding pertaining to later periods until the national disaster declaration is no longer in effect.

In March 2020, MHS chose to support employees by protecting pay and benefits for those that were unable to work due to the cancellations/postponements of procedures. Approximately 50% of this cost has been recovered through the employee retention credits offered to employers as part of the CARES Act, which totaled \$2,409. The CARES Act also allowed MHS to defer payment of the employer portion of the FICA taxes due to the federal government through December 31, 2020. Payment of these deferred taxes did occur with 50% paid by the end of 2021 and the other 50% by the end of 2022. The total amount of FICA taxes deferred in 2020 was \$71,866 with \$35,933 due in 2021 and \$35,933 due in 2022. MHS paid the FICA taxes due in 2021 with the remaining amount due in 2022 recorded within accrued compensation and related liabilities on the consolidated balance sheets. MHS considered whether to utilize the Medicare Advanced Payment Program (MAPP) when it was available to obtain additional cash flow but chose not to engage in this program.

The following table shows the funding that has been received to prepare and respond to COVID-19 and recognized as other operating revenue for the years ended December 31, 2021 and 2020:

<b>Sources of external relief funding</b>	<b>2021</b>	<b>2020</b>	<b>Total</b>
CARES Act Provider Relief Fund	\$ 176,448	118,965	295,413
American Rescue Plan Rural Funds	5,284	—	5,284
FEMA	1,405	4,214	5,619
CARES Act Coronavirus Relief Fund	—	2,922	2,922
Insurance Funds for Business Interruption	—	1,003	1,003
<b>Total</b>	<b>\$ 183,137</b>	<b>127,104</b>	<b>310,241</b>

The impact of COVID-19 has increased the uncertainty associated with management's assumptions and estimates made on these financial statements. The actual impact of COVID-19 on MHS's consolidated financial statements may differ significantly from the assumptions and estimates made for the years ended December 31, 2021 and 2020.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

**(3) Revenue from Contracts with Customers**

Revenue is recognized as performance obligations are satisfied. Performance obligations are determined based on the nature of the services provided by MHS and are recognized either over time or at a point in time. Revenue for performance obligations satisfied over time is recognized based on actual charges incurred through a point in time in relation to total actual charges incurred. MHS believes that this method provides a useful depiction of the provision of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in the hospitals or clinics receiving inpatient or outpatient services. MHS measures an inpatient performance obligation from time of admission to time of discharge and an outpatient performance obligation from the start of the outpatient service to the completion of the outpatient service. Revenue for performance obligations satisfied at a point in time is recognized when goods or services are provided to patients and customers.

MHS has elected to apply the optional exemption in ASC 606-10-50-14a as all of MHS' performance obligations related to contracts with a duration of less than one year. Under this exemption, MHS was not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. Any unsatisfied or partially unsatisfied performance obligations are completed within days or weeks of the end of the year.

MHS determines the transaction price based on standard charges for goods and services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with MHS policy, and implicit price concessions provided to uninsured patients. MHS determines its estimates of contractual adjustments and discounts based on contractual agreements, discount policies and historical experience. MHS determines its estimate of implicit price concessions based on its historical collection experience with each class of patients.

Contractual agreements with third-party payors provide for payments at amounts less than MHS' established charges. A summary of the payment arrangements with major third-party payors is as follows:

- Medicare – Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge, which provides for reimbursement based on Medicare Severity Diagnosis-Related Groups (MS-DRGs). These rates vary according to a patient classification system that is based on clinical diagnosis, acuity, and expected use of hospital resources. The majority of Medicare outpatient services is reimbursed under a prospective payment methodology, the Ambulatory Payment Classification System (APCs), or fee schedules.
- Medicaid – Inpatient services rendered to Medicaid program beneficiaries are reimbursed under a prospective payment system similar to Medicare; however, Medicaid utilizes All Payor Refined Diagnosis-Related Groups (APR-DRGs) as opposed to Medicare's MS-DRGs. The majority of Medicaid outpatient services is reimbursed under a prospective payment methodology, the Enhanced Ambulatory Patient Groups (EAPG), or fee schedules.
- Other – MHS has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to MHS under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates and fee schedules.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

Laws and regulations concerning government programs, including Medicare and Medicaid, are complex and subject to varying interpretation. As a result of investigations by governmental agencies, various healthcare organizations have received requests for information and notices regarding alleged noncompliance with those laws and regulations, which, in some instances, have resulted in organizations entering into significant settlement agreements with the government. Compliance with such laws and regulations may also be subject to future government exclusion from the related programs. There can be no assurance that regulatory or governmental authorities will not challenge MHS' compliance with these laws and regulations, and it is not possible to determine the impact, if any, that such claims or penalties would have upon MHS. In addition, the contracts with commercial payors also provide for retroactive audit and review of claims that can reduce the amount of revenue ultimately received.

Settlements with third-party payors for retroactive adjustments due to audits, reviews, or investigations are considered variable consideration and are included in the determination of the current estimated transaction price for providing patient care. These settlements are estimated based on the terms of the payment agreement with the payor, correspondence from the payor, and historical settlement activity, including an assessment to ensure that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the retroactive adjustment is subsequently resolved. Estimated settlements are adjusted in future periods as adjustments become known, or as years are settled and no longer subject to such audits, reviews and investigations. Adjustments arising from a change in the transaction price were not significant in 2021 or 2020.

Generally, patients who are covered by third-party payors are responsible for related deductibles and co-insurance, which vary in amount. MHS also provides services to uninsured patients, and offers those uninsured patients a discount, either by policy or law, from standard charges. MHS estimates the transaction price for patients with deductibles and co-insurance from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charges by any contractual adjustments, discounts, and implicit price concessions. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient service revenue in the period of the change. Additional revenue due to changes in estimates of implicit price concessions, discounts, and contractual adjustments for prior years were not significant for 2021 or 2020. Subsequent changes that are determined to be the result of an adverse change in the patient's ability to pay and deemed uncollectable are recorded as bad debt expense.

Consistent with MHS' mission, care is provided to patients regardless of their ability to pay. MHS has determined that it has provided implicit price concessions to uninsured patients and patients with other uninsured balances. The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amount MHS expects to receive based on its collection experience with those patients. Patients who meet the criteria for charity care are provided care without charge or at amounts less than established rates. Such amounts determined to qualify as uncompensated care are not reported as revenue.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
 December 31, 2021 and 2020  
 (Dollars in thousands)

MHS has determined that the best depiction of its revenue is by its mix of payors as this shows the amount of revenue recognized from each portfolio. Patient service revenue disaggregated by payor for the years ended December 31, 2021 and 2020 are as follows:

	<b>2021</b>	<b>2020</b>
<b>Payors:</b>		
Medicare	\$ 947,979	847,084
Medicaid	554,039	497,785
Premera	501,370	445,238
Regence	334,844	306,588
Aetna	202,379	190,029
Kaiser Permanente	128,538	142,854
First Choice	119,596	112,142
Self-pay	25,450	16,246
Other	<u>690,496</u>	<u>548,002</u>
	<u>\$ 3,504,691</u>	<u>3,105,968</u>

MHS has elected to apply the practical expedient under ASC 340-40-25-4 and therefore, all incremental customer contract acquisition costs are expensed as incurred, as the amortization period of the asset that MHS would have otherwise recognized is one year or less in duration.

**(4) Concentration of Credit Risk**

MHS grants credit without collateral to its patients, most of whom are residents of the communities it serves and are insured under third-party payor agreements. The mix of gross receivables from patients and third-party payors at December 31, 2021 and 2020 was as follows:

	<b>2021</b>	<b>2020</b>
Medicare	33 %	32 %
Medicaid	21	24
Premera	10	10
Self-pay	7	9
Regence	7	5
First Choice	1	1
Health Care Exchange	1	1
Other commercial insurance	<u>20</u>	<u>18</u>
	<u>100 %</u>	<u>100 %</u>

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

**(5) Fair Value Measurements**

**(a) Fair Value Hierarchy**

In accordance with ASC Topic 820, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for similar assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical or similar assets or liabilities that MHS could access at the measurement date. Level 1 securities generally include investments in equity securities, mutual funds and certain fixed income securities.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are based upon observable market inputs for the asset or liability, either directly or indirectly. Level 2 securities generally include investments in fixed income securities (composed primarily of government, agency and corporate bonds), and interest rate swaps.
- Level 3 inputs are unobservable market inputs for the asset or liability. Level 3 securities include donor trusts where MHS is not the trustee.

The level in the fair value hierarchy within which a fair value measurement, in its entirety, falls is based on the lowest level input that is significant to the fair value measurement.

ASC Subtopic 820-10 allows for the use of a practical expedient for the estimation of the fair value of investments in investment companies for which the investment does not have a readily determinable fair value. The practical expedient used by MHS is the Net Asset Value (NAV) per share, or its equivalent. In some instances, the NAV may not equal the fair value that would be calculated under fair value accounting standards. Valuations provided by investment managers consider variables such as the financial performance of underlying investments, recent sales prices of underlying investments and other pertinent information. In addition, actual market exchanges at year-end provide additional observable market inputs of the redemption price. MHS reviews valuations and assumptions provided by investment managers for reasonableness and believes that the carrying amounts of these financial instruments approximate the estimated fair value of the instrument. Where investments are not presented at fair value, NAV is used as a practical expedient to approximate fair value.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The following tables present the placement in the fair value hierarchy of investment assets and liabilities that are measured at fair value on a recurring basis and investments valued at NAV at December 31, 2021 and 2020:

Limited partnerships	11,802	10,633	1,800	N/A	N/A
Total investments valued at NAV	\$ 343,651	456,274	1,800		

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

Hedge funds include investments in hedge fund-of-funds products with certain investment managers. The fair values of the investments in this category have been estimated using the NAV per share of the investment.

Common trust funds include investments in a collective or common trust account that invests funds in an underlying fund or set of funds. The trust account seeks an investment return that approximates the performance of an index as defined by each common trust fund. The fair value of the investments in this category are estimated using the NAV per share of the fund that is derived from the underlying investments in the trust fund.

Limited partnerships include investments in private equity and venture capital funds in both developed and emerging markets with approximately 35% invested in private equity in developed markets, 20% in venture capital in developed markets, and 45% in private equity and venture capital in emerging markets. The fair values of the investments in this category have been estimated using the NAV of MHS' ownership interest in partners' capital. These assets can never be redeemed with the partnerships. Instead, the nature of the investment in this category is that distributions are received through the liquidation of the underlying assets of the partnership.

**(b) Interest Rate Swaps**

The interest rate swaps are recorded at estimated fair value by using certain observable market inputs that participants would use from closing prices for similar assets. In addition, other valuation techniques and market inputs are used that help determine the fair values of these swaps, which include certain valuation models, current interest rates, forward yield curves, implied volatility and credit default swap pricing.

The fair value of the interest rate swaps liability is included in interest rate swap liabilities on the consolidated balance sheets, and the fair value of the interest rate swap asset is included in other assets, net on the consolidated balance sheets. The fair value gains and losses of these interest rate swaps for the years ended December 31, 2021 and 2020 were \$35,246 and (\$67,298), respectively, and are included in gain (loss) on interest rate swaps in other (loss) income, net in the consolidated statements of operations and changes in net assets. Also included in the gain (loss) on interest rate swaps is the loss on net cash settlement amounts associated with the swaps of \$9,373 and \$7,735 for the years ended December 31, 2021 and 2020, respectively.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The following table represents both the fair value and settlement value for the interest rate swap liabilities as of December 31, 2021 and 2020:

	Liability derivatives					
	2021		2020			
	Balance sheet location	Fair value	Settlement value	Balance sheet location	Fair value	Settlement value
Derivative instruments:						
Interest rate swaps	Interest rates swap liabilities	\$ 119,100	124,921	Interest rates swap liabilities	\$ 154,347	159,666

**(6) Donor Restricted Assets and Investments**

A summary of donor restricted assets and investments at 2021 and 2020 is as follows:

	December 31, 2021		
	Donor restricted assets	Investments	Total
Mutual funds	\$ 8,002	817,252	825,254
Equity securities	2,956	301,959	304,915
Fixed income securities	9,600	980,600	990,200
Commingled trust fund – international equity	1,668	170,401	172,069
Hedge funds	1,286	131,351	132,637
Common trust funds	1,931	197,281	199,212
Limited partnerships	115	11,687	11,802
Donor trusts	22,455	—	22,455
Pledge receivables, net and other	48,762	—	48,762
Total	\$ 96,775	2,610,531	2,707,306

**MULTICARE HEALTH SYSTEM**

## Notes to Consolidated Financial Statements

December 31, 2021 and 2020

(Dollars in thousands)

	December 31, 2020		
	Donor restricted assets	Investments	Total
Mutual funds	\$ 5,400	587,099	592,499

<b>Total</b>	<b>\$ 88,900</b>	<b>1,970,458</b>	<b>2,059,358</b>

Fixed income securities include mutual funds, corporate bonds, mortgage-backed securities, asset-backed securities, U.S. government obligations, and state government obligations.

**(7) Liquidity and Availability of Financial Assets**

MHS actively monitors the availability of resources required to meet its operating obligations and other contractual commitments, while also striving to maximize investment returns of its available funds. To help meet its general obligations, MHS can also access the credit markets as a means of producing liquidity, if needed. MHS draws income, appreciation and distributions from its endowment fund up to 5% of the endowment average account value annually, as applicable donor restrictions are met, as another way of providing liquidity. For purposes of analyzing resources available to meet general expenditures over a twelve-month period, MHS considers all expenditures related to its ongoing activities to provide integrated healthcare delivery as well as the conduct of services undertaken to support these activities to be general expenditures.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

At December 31, 2021 and 2020, MHS' financial resources are as follows:

	<b>2021</b>	<b>2020</b>
Cash and cash equivalents	\$ 308,732	946,223
Accounts receivable	460,569	374,372
Other current assets, net	96,361	85,144
Donor restricted assets	96,775	88,900
Investments	<u>2,610,531</u>	<u>1,970,458</u>
	3,572,968	3,465,097
Less prepaid assets included in other current assets, net	(37,444)	(37,612)
Less donor restricted assets	(96,775)	(88,900)
Less investments with redemption limitations of greater than one year	<u>(11,802)</u>	<u>(10,633)</u>
Total financial assets available for general expenditures	<u>\$ 3,426,947</u>	<u>3,327,952</u>

In addition to financial assets available to meet general expenditures over the next twelve months, MHS operates mostly using revenues, gains and other support without donor restrictions and anticipates collecting sufficient revenues to cover general expenditures.

**(8) Property, Plant, and Equipment, Net**

A summary of property, plant, and equipment at December 31, 2021 and 2020 is as follows:

	<b>2021</b>	<b>2020</b>
Land and land improvements	\$ 138,910	131,993
Buildings	2,313,543	2,202,449
Equipment	<u>940,116</u>	<u>1,115,316</u>
	3,392,569	3,449,758
Less accumulated depreciation	<u>(1,500,929)</u>	<u>(1,751,452)</u>
	1,891,640	1,698,306
Construction in progress	<u>118,494</u>	<u>65,360</u>
Property, plant, and equipment, net	<u>\$ 2,010,134</u>	<u>1,763,666</u>

Total depreciation and amortization expense for the years ended December 31, 2021 and 2020 was \$126,307 and \$168,188, respectively. Depreciation expense charged to operations for the years ended December 31, 2021 and 2020 amounted to \$122,293 and \$166,517, respectively. Depreciation expense

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

charged to operations for the year ended December 31, 2021 is net of a \$48,094 reduction in expense as part of the change in estimated useful lives.

**(9) Other Assets, Net**

Other assets are as follows at December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Investment in joint ventures	\$ 77,951	64,534
Deferred compensation plan assets held in trust (note 12)	98,789	85,320
Accrued pension asset (note 12)	60,951	45,590
Self-insured retention receivables, net of current portion (notes 13 and 14)	22,558	23,435
Goodwill and other intangibles	172,063	167,083
Net investment in lease (note 17(b))	23,172	23,200
Notes receivable (note 10)	75,546	75,413
Other	<u>23,595</u>	<u>17,884</u>
 Other assets, net	 <u>\$ 554,625</u>	 <u>502,459</u>

Deferred compensation plan assets held in trust are participant-managed investments consisting of equity and fixed income mutual funds with prices quoted in active markets.

**(10) Notes receivable**

In December 2020, MHS funded \$75,000 into an escrow account as part of a loan based on a credit agreement executed with Astria Health. In January 2021, the final promissory note documents were executed and funds were disbursed at that time to Astria Health. The loan bears a fixed interest rate of 9.5% with payments due June 30 and December 31 of each year. The loan matures in January 2024.

**(11) Other Liabilities, Net**

Other liabilities are as follows at December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Professional liability, net of current portion (note 13)	\$ 89,628	73,822
Deferred compensation liability (note 12)	98,789	85,320
Workers' compensation liability, net of current portion (note 14)	15,454	14,166
Deferred FICA liability (note 2)	—	35,933
Other	<u>4,436</u>	<u>3,805</u>
 Other liabilities, net	 <u>\$ 208,307</u>	 <u>213,046</u>

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

**(12) Retirement Plans****(a) Defined Benefit Pension Plan**

MHS operates one qualified defined benefit pension plan (the Plan) covering eligible employees. The Plan was closed to new employees effective after July 31, 2002. The benefits are based on years of service and the employee's highest five consecutive years of compensation. MHS contributions to the Plan vary from year to year, but the minimum contribution required by law has been provided in each year. Effective December 31, 2016, participants no longer accrue pension benefits under the Plan.

The following tables set forth the changes in projected benefit obligations, changes in fair value of plan assets, and components of net periodic benefit costs for the Plan, which has measurement dates of December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Change in projected benefit obligation:		
Projected benefit obligations at beginning of year	\$ 715,286	639,993
Service cost	650	670
Interest cost	18,786	22,963
Actuarial (gain) loss	(23,106)	85,184
Expected administrative expenses	(650)	(670)
Benefits paid	<u>(47,927)</u>	<u>(32,854)</u>
Projected benefit obligations at end of year	<u>\$ 663,039</u>	<u>715,286</u>
Change in fair value of plan assets:		
Fair value of plan assets at beginning of year	\$ 760,876	685,413
Actual gain on plan assets	11,700	108,966
Actual administrative expenses	(659)	(649)
Benefits paid	<u>(47,927)</u>	<u>(32,854)</u>
Fair value of plan assets at end of year	<u>\$ 723,990</u>	<u>760,876</u>
Funded status recognized in consolidated balance sheets consist of:		
Asset for pension benefits	\$ 60,951	45,590
Amount recognized in net assets without donor restrictions:		
Net loss	90,859	115,669
	<b>2021</b>	<b>2020</b>
Weighted average assumptions used to determine benefit obligations as of December 31:		
Discount rate	3.00 %	2.70 %
Expected return on plan assets	4.50	4.50

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The expected return on plan assets assumption is based upon an analysis of historical long-term returns for various investment categories as measured by appropriate indices. These indices are weighted based upon the extent to which plan assets are invested in the particular categories in arriving at MHS' determination of a composite expected return. An actuary reviews the assumptions annually for reasonableness.

The components of net periodic benefit cost are as follows during the years ended December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Components of net periodic benefit cost:		
Service cost	\$ 650	670
Interest cost	18,786	22,963
Expected return on plan assets	(29,726)	(31,730)
Amortization of net actuarial loss	16,205	10,441
Settlement cost	3,534	—
	<hr/> <u>\$ 9,449</u>	<hr/> <u>2,344</u>

The accumulated benefit obligation for the Plan was \$663,039 and \$715,286 at December 31, 2021 and 2020, respectively.

*(i) Estimated Future Benefit Payments*

The following benefits payments, which reflect expected future service, as appropriate, are expected to be paid as follows:

	<b>Pension benefits</b>
2022	\$ 40,146
2023	40,579
2024	40,010
2025	40,892
2026	39,854
2027–2031	193,155

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The following table presents information for investments where the NAV was used as a practical expedient to measure fair value at December 31, 2021 and 2020:

	NAV December 31, 2021	NAV December 31, 2020	Unfunded commitments	Redemption frequency (if currently eligible)	Redemption notice period
Commingled trust funds:					
Real estate	\$ —	22,426	N/A	Quarterly	45 days
Absolute return funds	\$ 84,911	85,603	N/A	Monthly	5 business days prior to valuation date
Limited partnerships	6,065	5,692	850	N/A	N/A
Total investments valued at NAV	\$ 90,976	113,721	850		

Real estate is a real estate commingled trust that invests in U.S. commercial real estate. The fund owns real estate assets in the U.S. office, industrial, residential, and retail sectors.

Absolute return fund investments consist primarily of listed equity, equity-related and debt securities, including exchange-traded funds, other securities and other pooled investment vehicles. These investments use derivatives or other instruments for both investment and hedging purposes and may take long and/or short positions, and the derivative investments may include but are not restricted to futures, options, swaps, and forward currency contracts.

Limited partnerships include investments in private equity and venture capital in both developed and emerging markets with approximately 35% invested in private equity in developed markets, 20% in venture capital in developed markets, and 45% in private equity and venture capital in emerging markets. The fair values of the investments in this category have been estimated using the NAV of MHS' ownership interest in partners' capital. These assets can never be redeemed with the partnerships. Instead, the nature of the investment in this category is that distributions are received through the liquidation of the underlying assets of the partnership.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The defined benefit plan weighted average asset allocations at December 31, 2021 and 2020 by asset category are as follows:

	<b>2021</b>	<b>2020</b>
Asset category:		
Domestic equities	12 %	10 %
International equities	7	7
Emerging markets	—	1
Fixed income securities	80	78
Alternative investments	1	1
Real estate	—	3
	<b>100 %</b>	<b>100 %</b>

*(iii) Investment Objectives*

The target asset allocations for each asset class are set based on the achieved funding levels for the Plan and are summarized below:

	<b>2021</b>	<b>2020</b>
Asset category:		
Domestic equities	12 %	9 %
International equities	8	8
Emerging markets	—	—
Fixed income securities	80	80
Real estate	—	3
	<b>100 %</b>	<b>100 %</b>

*(iv) Investment Categories**Equities*

The strategic role of domestic equities is to provide higher expected market returns (along with international equities) of the major asset classes; maintain a diversified exposure within the U.S. stock market using multimanager portfolio strategies; and achieve returns in excess of passive indices using active investment managers and strategies.

The strategic role of international equities is to provide higher expected market return premiums (along with domestic equities) of the major asset classes and diversify the Plans' overall equity exposure by investing in non-U.S. stocks that are less than fully correlated to domestic equities with similar return expectations; to maintain a diversified exposure within the international stock market through the use of multimanager portfolio strategies; and achieve returns in excess of passive indices through the use of active investment managers and strategies.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

The strategic role of emerging markets is to diversify the portfolio relative to domestic equities and fixed income investments and to specifically include equity investment in selected global markets and may also include currency hedging for defensive purposes.

*Fixed Income*

The strategic role of fixed income securities is to diversify the Plan's equity exposure by investing in fixed income securities that exhibit a low correlation to equities and lower volatility; maintain a diversified exposure within the U.S. fixed income market using multimanager portfolio strategies; and achieve returns in excess of passive indices through the use of active investment managers and strategies. It also provides effective diversification against equities and a stable level of cash flow.

*Alternative Investments*

The strategic role of alternative investments is for diversification relative to equities and fixed income investments, to add absolute return using hedging strategies, and to achieve expected return premiums over longer holding periods. Alternative investments include investments in equity, equity-related and debt securities, including exchange-traded funds, other securities and other pooled investment vehicles, hedge funds and private equities and are under the supervision and control of investment managers. Hedge funds include investments in a variety of instruments including stocks, bonds, commodities, and a variety of derivative instruments. Private equities consist primarily of equity investments made in companies that are not quoted on a public stock market, which can include U.S. and non-U.S. venture capital, leveraged buyouts, and mezzanine financing.

*Real Estate*

The strategic role of real estate is to diversify the Plan's portfolio relative to equities and fixed income investments included a component of real property investment through a commingled fund structure and providing higher returns than benchmark investments of a similar class. Real estate investments may also include publicly and privately traded real estate investment trusts as well as direct investment through properties and mortgages.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements

December 31, 2021 and 2020

(Dollars in thousands)

**(b) Defined Contribution Plans**

MHS currently maintains three defined contribution plans including the MHS 401(a) Retirement Account Plan (RAP), the MHS 403(b) Employee Savings Plan, and the MHS 401(k) Plan. Most employees assigned to work at Deaconess Hospital, Valley Hospital, Rockwood Clinic and Capital Medical Center are eligible for participation in the MHS 401(k) Plan, which is funded by both MHS and employee contributions. The MHS 403(b) Employee Savings Plan is 100% funded by employee contributions, and the RAP is 100% funded by MHS contributions.

MHS' funding for the defined contribution plans is based on certain percentages of the employees' base pay and/or a percentage of their deferred contributions. Employer contributions to the defined-contribution plans for 2021 and 2020 were approximately \$54,545 and \$49,550, respectively, which were included with employee benefits in the accompanying consolidated statements of operations and changes in net assets.

**(c) Other**

In addition to the defined benefit and defined contribution plans as described above, MHS also maintains several deferred compensation arrangements for the benefit of eligible employees. Substantially all amounts that are deferred under these arrangements are held in trust until such time as these funds become payable to the participating employees.

**(13) Professional Liability**

MHS maintains a self-insurance program for professional liability with excess coverage over self-insured retention limits provided by commercial insurance carriers. MHS has recorded a liability as of December 31, 2021 and 2020, which comprises estimated deductibles and retentions for known claims at year-end and a liability for incurred but not reported claims based on an actuarially determined estimate.

At December 31, 2021 and 2020, the estimated gross professional liability (including current and long-term portions) was \$119,073 and \$97,997, respectively. The current portion is included in accounts payable and accrued expenses, and the remainder is included in other liabilities, net in the accompanying consolidated balance sheets. MHS has recorded a receivable for amounts to be received from the excess insurance carriers for their portion of the claims (including current and long-term portions) of \$33,191 and \$32,450 as of December 31, 2021 and 2020, respectively. The current amount is included in other current assets, net, and the remainder is included in other assets, net in the accompanying consolidated balance sheets.

**(14) Workers' Compensation and Employee Health Benefit Programs**

MHS maintains a self-insurance program for workers' compensation with excess coverage over self-insured retention limits provided by commercial insurance carriers. MHS has recorded a liability based on an actuarial estimate of future claims payments. At December 31, 2021 and 2020, the estimated net liability based on future claims cost totaled \$21,133 and \$17,726, respectively. The gross liabilities (including both current and long-term portions) total \$24,341 and \$21,083 as of December 31, 2021 and 2020, respectively. The long-term amounts are included in other liabilities, net, and the current portions are included in accounts payable and accrued expenses in the accompanying consolidated balance sheets. These liabilities are secured by a letter of credit with the State of Washington. MHS has recorded a receivable for amounts to be received from excess insurance carriers of \$3,207 and \$3,357 as of

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

December 31, 2021 and 2020, respectively, which is included with other current assets, net and other assets, net for the respective estimated current and long-term portions.

MHS maintains a self-insurance program for employee medical and dental insurance. Employees can elect to be included in the self-insurance plan as a part of their fringe benefit package. Premiums deducted from employees' wages are used in paying a portion of members' medical claims. The estimated liability for claims in 2021 and 2020 was \$9,632 and \$10,129, respectively. These amounts are included in accrued compensation and related liabilities in the accompanying consolidated balance sheets.

**(15) Long-Term Debt**

Long-term debt consists of the following at December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
2020 Taxable bonds	\$ 300,000	300,000
2020 OCED financing	59,289	60,889
2019 Term loan	35,255	35,255
WHCFA Revenue bonds, 2017 Series A and B	318,220	321,705
WHCFA Revenue bonds, 2017 Series C, D, and E	191,010	191,010
2017 Term loans	130,170	130,170
WHCFA Revenue bonds, 2015 Series A and B	348,085	352,315
WHCFA Revenue bonds, 2012 Series A	60,000	60,000
WHCFA Revenue bonds, 2009 Series A and B	98,130	98,130
Other	<u>23,106</u>	<u>22,313</u>
	1,563,265	1,571,787
Adjusted for:		
Current portion	(43,609)	(7,950)
Bond premiums, discounts, and debt issuance costs	<u>52,579</u>	<u>55,012</u>
Long-term debt, net of current portion	<u>\$ 1,572,235</u>	<u>1,618,849</u>

**(a) 2020 Taxable Bonds**

In July 2020, MHS issued \$300,000 of taxable 2020 series bonds. These bonds were issued as fixed rate bonds that bear interest of 2.803%. The principal of \$300,000 is due in 2051, with interest only payments made semiannually in February and August of each year.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

**(b) 2020 OCED Financing**

In June 2020, MHS finalized a sale-leaseback transaction for four off-campus emergency departments (OCED) with total cash proceeds received of \$61,794. Due to the specific terms of the agreement, the lease qualified as a financing type lease. The agreement did not meet the criteria for sale-leaseback accounting treatment and instead is considered a financing liability. The agreement bears an implicit interest rate of 4.64%. Annual principal payments range from \$2,040 in 2022 to \$4,482 in 2039 with a final principal payment of \$390 in 2041.

**(c) 2019 Term Loan**

In August 2019, MHS entered into a fixed rate term loan agreement with JPMorgan Chase Bank, N.A., with an interest rate of 1.89%. The principal balance of \$35,255 is due in 2022.

**(d) Washington Health Care Facility Authority (WHCFA) Revenue Bonds 2017 Series A and B**

In November 2017, MHS issued \$333,970 of 2017 Series A and B bonds. These bonds were issued as fixed rate bonds that bear interest ranging from 3.0% to 5.0%. Annual principal payments range from \$3,670 in 2022 to \$62,410 in 2047.

**(e) WHCFA Revenue Bonds 2017 Series C, D, and E**

In November 2017, MHS entered into a \$111,010 variable rate private placement agreement (Series C and D) with JPMorgan Chase Bank, National Association and an \$80,000 variable rate private placement agreement (Series E) with Wells Fargo Municipal Capital Strategies, LLC. The first annual principal payment of \$80,000 is due in 2043, with a final principal payment of \$55,505 in 2049. The interest rates, which were between 0.5% and 0.6% at December 31, 2021, reset monthly and are based on 70% of the one-month U.S. LIBOR plus a spread.

**(f) 2017 Term Loans**

In November 2017, MHS entered into two \$65,085 variable rate term loan agreements with Wells Fargo Bank, N.A. The principal balance of \$130,170 is due in 2047. The interest rates, which were between 0.8% and 0.9% at December 31, 2021, reset monthly and are based on the one-month U.S. LIBOR plus a spread.

**(g) WHCFA Revenue Bonds 2015 Series A and B**

In April 2015, MHS issued \$373,390 of 2015 Series A and B bonds. Series A and B bonds were issued as fixed rate bonds that bear interest ranging from 2.0% to 5.0%. Annual principal payments range from \$4,410 in 2022 to \$24,085 in 2034 with a final payment of \$8,860 due in 2045.

**(h) WHCFA Revenue Bonds 2012 Series A**

In November 2012, MHS issued \$60,000 of 2012 Series A bonds. 2012 Series A bonds were issued as fixed rate bonds that bear interest ranging from 3.8% to 4.1%. Annual principal payments range from \$5,190 in 2040 to \$22,085 in 2045 with a final payment of \$19,715 due in 2046.

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
 December 31, 2021 and 2020  
 (Dollars in thousands)

**(i) WHCFA Revenue Bonds 2009 Series A and B**

In May 2009, MHS issued the 2009 Series A and B bonds as variable rate demand bonds for \$50,000 each. The bonds were backed by an irrecoverable letter of credit equal to the aggregate principal and interest of the bonds. In July 2012, the 2009 Series A and B bonds were converted to \$98,130 of fixed rate bonds that bear interest ranging from 4.4% to 5.0%. Annual principal payments range from \$3,690 in 2040 to \$38,890 in 2044.

**(j) Other**

The other debt listed is primarily made up of debt held by Navos. In April 2020, MHS paid \$11,488 of Navos' debt outstanding to third-party creditors. Of the outstanding debt at December 31, 2021, \$16,965 is associated with certain buildings and other capital assets operated by Navos and is subject to provisions whereby the debt will be forgiven upon compliance with those provisions. These provisions state that Navos maintains the assets that were built or purchased with these notes and maintains their usage when the promissory note was signed for the length specified. If these provisions are not met, the note must be repaid based on the terms of the agreement. The forgivable debt is subject to a forgiveness provision in years 2028 through 2068.

**(k) 2020 Line of Credit**

In April 2020, MHS secured a \$200,000 line of credit through JPMorgan Chase Bank, N.A. The term of the line of credit is for 12 months and bears interest at a variable rate based upon the Central Bank Floating Rate. The line of credit had no draws and was not renewed.

Revenue bonds issued by MHS through WHCFA are subject to applicable bond indenture agreements, which require that MHS satisfy certain measures of financial performance as long as the bonds are outstanding. These measures include a minimum debt service coverage ratio and a condition that the bonds are secured by a gross receivables pledge. Based on management's assessment of these requirements, MHS is in compliance with these covenants at December 31, 2021 and 2020.

Each fixed-rate revenue bond requires semiannual interest payments on February 15 and August 15 of each year until maturity. These bonds are subject to early redemption by MHS on or after certain specific dates and at certain specific redemption prices as outlined in each bond agreement.

Principal maturities on long-term debt are as follows:

Year ending December 31:		
2022	\$	43,609
2023		20,601
2024		21,627
2025		22,704
2026		23,825
Thereafter		1,430,899
	\$	<u>1,563,265</u>

A summary of interest costs is as follows during the years ended December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Interest cost:		
Charged to operations	\$ 50,103	48,464
Amortization of bond premiums, discounts, and issuance costs	(2,433)	(2,494)
Capitalized	<u>382</u>	<u>478</u>
	<u>\$ 48,052</u>	<u>46,448</u>

**(16) Commitments and Contingencies**

Approximately 45% of MHS employees were covered under collective bargaining agreements as of December 31, 2021. These employees provide nursing, nursing support, pharmacy, imaging, lab, inpatient and outpatient therapies, housekeeping, food, laundry, maintenance, and inventory/distribution services to MHS. Collective bargaining agreements have various expiration dates extending through March 2023.

**(17) Leases**

**(a) Lessee**

MHS leases various equipment and facilities under noncancelable operating and finance leases. Lease terms for noncancelable operating leases range from 1 to 18 years, and existing leases have expiration dates through 2036. Lease terms for finance leases range from 1 to 21 years, and existing leases have expiration dates through 2040.

The components of lease cost for the years ended December 31, 2021 and 2020 were as follows:

	<b>2021</b>	<b>2020</b>
Operating lease cost	\$ 37,283	37,232
Finance lease cost:		
Amortization of right-of-use assets	9,031	1,550
Interest on lease liabilities	<u>3,402</u>	<u>388</u>
Total finance lease cost	12,433	1,938
Short term lease cost	1,578	1,644
Variable lease cost	9,233	7,242
Sublease income	<u>(1,662)</u>	<u>(1,049)</u>
Total lease cost	<u>\$ 58,865</u>	<u>47,007</u>

**(b) Lessor**

MHS leases a building to the Alliance for South Sound Health, which does business under the name Wellfound Behavioral Health Hospital (Wellfound). Wellfound is a related party owned 50 percent by MHS. The leased building is owned solely by MHS, and is the only asset that MHS leases out as a lessor. The lease has a 20 year initial lease term, with four 5 year extension options. Due to the related party nature of the lease, MHS considers it reasonably certain that Wellfound will exercise its four lease renewal options, and as such, treats the lease as a 40 year lease. There is no purchase option stated

in the lease contract. MHS has determined that the lease is a sales-type financing lease, since the expected lease term spans a major portion of the useful life of the building. At December 31, 2021, MHS' other assets, net include a net investment in lease of \$23,172.

Revenue from leases for the years ended December 31, 2021 and 2020 is as follows:

	<b>2021</b>	<b>2020</b>
Interest income on net investment in finance leases	\$ 1,048	1,136
Variable lease income	28	28
<b>Total lease income</b>	<b>\$ 1,076</b>	<b>1,164</b>

Future lease payments receivable as of December 31, 2021 are as follows:

Year ended December 31:	
2022	\$ 1,227
2023	1,227
2024	1,227
2025	1,227
2026	1,227
Thereafter	<u>42,114</u>
 Total lease payments to be received	 48,249
 Less unearned interest income	 <u>(25,077)</u>
 Net investment in lease	 <u>\$ 23,172</u>

**(18) Net Assets with Donor Restrictions**

Net assets with donor restrictions are available for the following specified purposes at December 31, 2021 and 2020:

	<b>2021</b>	<b>2020</b>
Healthcare services	\$ 57,511	52,151
Endowment funds, perpetual trusts and related receivables	76,079	71,651

**(19) Endowment Funds**

MHS' endowments consist of over 100 individual funds established for a variety of purposes. They include both endowment funds with donor restrictions and funds designated without donor restrictions by the board of directors of its foundations to function as endowments (board-designated endowments). Net assets associated with endowment funds, including board-designated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions and nature of restrictions, if any.

The following tables present MHS' endowment net asset composition as well as associated changes therein:

	<b>Board designated without donor restrictions</b>	<b>Funds with donor restrictions</b>	<b>Total</b>
Endowment net assets, December 31, 2020	\$ 2,825	42,424	45,249
Investment return:			
Investment income	18	527	545
Net appreciation – realized and unrealized	65	1,289	1,354
Total investment return	83	1,816	1,899
Contributions	—	2,271	2,271
Appropriation of endowment assets for expenditure	(47)	(2,499)	(2,546)
Endowment net assets, December 31, 2021	\$ 2,861	44,012	46,873

	<b>Board designated without donor restrictions</b>	<b>Funds with donor restrictions</b>	<b>Total</b>
Endowment net assets, December 31, 2019	\$ 2,673	39,700	42,373

Endowment net assets, December 31, 2020	\$ 2,825	42,424	45,249

**MULTICARE HEALTH SYSTEM**

Notes to Consolidated Financial Statements  
December 31, 2021 and 2020  
(Dollars in thousands)

Perpetual trusts that are held and managed by third party trustees are recorded as net assets with donor restrictions on the consolidated balance sheets; however, they are not included as endowment net assets with donor restrictions in the above presentation. Those perpetual trusts totaled \$31,008 and \$28,290, respectively, as of December 31, 2021 and 2020. Also excluded from the presentation of endowment net assets with donor restrictions above are pledge receivables and other totaling \$1,059 and \$937, respectively, as of December 31, 2021 and 2020.

**(a) Funds with Deficiencies**

From time to time, the fair value of assets associated with individual donor restricted endowment funds may fall below the level of the original gifts and the amounts of subsequent donations accumulated at the funds. In accordance with generally accepted accounting principles, deficiencies of this nature are reported in net assets with donor restrictions. There were no funds with deficiencies in 2021 or 2020.

**(b) Investment Policy – Including Return Objectives and Strategies to Achieve Objectives**

The endowment assets are invested in an investment portfolio, which include those assets of donor restricted funds that MHS must hold in perpetuity as well as all other foundation-related investment assets. MHS has adopted an investment policy for the foundation investments that intends to provide income to support the spending policy while seeking to maintain the purchasing power of the endowment assets. To satisfy its long-term rate of return objectives, MHS relies on a total return strategy in which investment returns are achieved through both capital appreciation and interest and dividend income. MHS uses a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints. There are some donor restricted funds that are held separately from MHS' pooled investments. These endowments are invested by donors in manners to provide funding for specific purposes as determined by donors.

**(c) Spending Policy**

In order to provide a stable and consistent level of funding for programs and services supported by the endowments, the foundations have determined that an annual spending rate of 5% of the endowment's average account value is prudent. In establishing the spending policies, the MHS foundations considered among other things, the expected total return on its endowments, effect of inflation, duration of the endowments to achieve its objective of maintaining the purchasing power of the endowment assets held in perpetuity, as well as to provide additional growth through new gifts and investment returns.

**(20) Functional Expenses**

MHS provides inpatient and outpatient services, physician services, home health services, and fund-raising activities. Certain categories of expenses are attributable to programs and support services. These included salaries and wages, depreciation and amortization and other expenses. Costs are allocated based on cost allocation methods depending on the allocable expense, including square footage, time utilization and percentage of gross charges. Expenses related to providing these services are as follows for the years ended December 31, 2021 and 2020:

	2021				Total
	Program services			Support services	
	Hospitals and related services	Clinics and urgent care centers	Retail and other services	Corporate and support services

**(21) Litigation and Regulatory Environment**

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government healthcare program participating requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government agencies are actively conducting investigations concerning possible violations of fraud and abuse statutes and regulations by healthcare providers. Violations of these laws and regulations could result in the imposition of significant fines and penalties, significant repayments for patient services previously billed, and/or expulsion from government healthcare programs. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time.

MHS is also involved in litigation arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect to MHS' financial position.

**(22) Subsequent Events**

MHS has evaluated the subsequent events through March 23, 2022, the date at which the consolidated financial statements were issued and has included all necessary adjustments and disclosures.
