**CONTINUING DISCLOSURE ANNUAL REPORT**

---

**Information Concerning**

**PROVIDENCE ST. JOSEPH HEALTH  
AND THE OBLIGATED GROUP**

The Continuing Disclosure Annual Report (the Annual Report) is intended solely to provide certain limited financial and operating data in accordance with undertakings of the Providence and the Members of the Obligated Group under Rule 15c2-12 (the Undertaking) and does not constitute a reissuance of any Official Statement relating to the bonds referenced above or a supplement or amendment to such Official Statement.

The Annual Report contains certain financial and operating data for the fiscal year ended December 31, 2019. Providence has undertaken no responsibility to update such data since December 31, 2019, except as set forth herein. This Annual Report may be affected by actions taken or omitted or events occurring after the date hereof. Providence has not undertaken to determine, or to inform any person, whether any such actions are taken or omitted or events do occur. Providence disclaims any obligation to update this Annual Report, or to file any reports or other information with repositories, or any other person except as specifically required by the Undertaking.

## About Providence

### Our Organization

Providence is a national, not-for-profit Catholic health system comprised of a diverse family of organizations driven by a belief that health is a human right. With 51 hospitals, more than 1,000 clinics, and many other health and educational services, our health system and partners employ nearly 123,000 caregivers serving more than five million patients in communities across seven Western states - Alaska, California, Montana, New Mexico, Oregon, Texas and Washington. Our caregivers provide quality, compassionate care to all those we serve, regardless of coverage or ability to pay.

Continuing an enduring commitment to world class care and serving all, especially those who are poor and vulnerable, Providence uses scale to create Health for a Better World, one community at a time. We have been pioneering health care for 164 years, and have a history of responding with strength and innovation during challenging health care environments. Together, we are reimagining the future of health care delivery in our communities for all ages and populations. Our strategies to diversify and modernize are enabling high-quality care at affordable prices, including through networks of same-day clinics and online care and services.

We are privileged to serve in dynamic, contiguous markets with growing populations, which has led to consistent increases in service utilization. We offer a comprehensive range of industry-leading services, including an integrated delivery system of acute and ambulatory care for inpatient and outpatient services, 29 long-term care facilities, 16 supportive housing facilities, over 7,600 directly employed providers and over 26,000 affiliated providers, a health plan, senior care, financial assistance programs, community health investments, and educational ministries that include a high school and university.

Providence, with headquarters in Renton, Washington, and Irvine, California, is governed by a sponsorship council comprising members of its two sponsoring ministries, Providence Ministries and St. Joseph Health Ministry. We are dedicated to ensuring the continued vibrancy of not-for-profit, Catholic health care in the United States. As one of the largest health systems in the United States, our Mission and values call us to serve each person with love, dignity and compassion, reflecting the legacy of the Sisters of St. Joseph and the Sisters of Providence.

### The Mission

*As expressions of God's healing love, witnessed  
through the ministry of Jesus, we are steadfast in serving all,  
especially those who are poor and vulnerable ®*

### Our Values

*Compassion | Dignity | Justice | Excellence | Integrity*

### Our Vision

*Health for a Better World*

### Our Promise

*"Know me, care for me, ease my way."*

## Our Strategic Plan

***Innovating new approaches to strengthen the Mission and continuously improve.*** Guided by the Mission and our values, we are executing a strategic plan intended to accelerate our progress toward achieving our vision of Health for a Better World. This far-reaching vision includes continuing to deliver high-quality, patient-centered care; ensuring patients are digitally-enabled; and our ministries serving as a partner in health for the patients and communities we serve. We intend to achieve this by focusing on the core areas of revenue growth, capital efficiency and process modernization. Our integrated strategic and financial plan is supported by three key principles:

***Strengthen the core.*** We are focused on delivering outstanding, affordable health care, housing, education and other essential services to our patients and communities by:

- Creating a work experience where caregivers are developed, fulfilled and inspired to carry on the Mission
- Delivering safe, compassionate, high-value quality health care
- Making Providence the provider partner of choice in all our communities
- Stewarding our resources to improve operational earnings
- Fostering community commitment to our Mission via philanthropy

***Be our communities' health partner.*** We are focused on being our communities' health partner, working to achieve the physical, spiritual and emotional well-being of all. We seek to ease the way of our communities by:

- Transforming care and improving population health outcomes, especially for those who are poor and vulnerable
- Leading the way in improving our nation's mental and emotional well-being
- Extending our commitment to whole person care for people at every age and stage of life
- Engaging with partners in addressing the social determinants of health, with a focus on education, housing, and the environment
- Being the preferred health partner for our communities, and those we serve

***Transform our future.*** We respond to the evolving health care landscape, pursuing new opportunities that transform our services, in a strategic and effective manner. We seek to expand and further sustain our Mission by:

- Diversifying sources of earnings to ensure sustainability of the ministry
- Digitally enabling, simplifying, and personalizing the health experience
- Creating an integrated scientific wellness, clinical research and genomics program that is nationally recognized for breakthrough advances
- Utilizing insights and value from big data to drive strategic transformation
- Activating the voice and presence of the System nationally to improve health

***Strategic affiliations.*** As part of our overall strategic planning and development process, Providence regularly evaluates and, if deemed beneficial, selectively pursues opportunities to affiliate with other service providers and invest in new facilities, programs, or other health care related entities. Likewise, we are frequently presented with opportunities from, and conduct discussions with, third parties regarding potential affiliations, partnerships, mergers, acquisitions, joint operating arrangements or other forms of collaboration, including some that could affect the Obligated Group Members. It is common for several such discussions to be in process concurrently. System management pursues such arrangements when there is a perceived strategic or operational benefit that is expected to enhance our ability to achieve the Mission and/or deliver on our strategic objectives. As a result, it is possible that the current organization and assets of the Obligated Group may change.

In 2019, Providence announced a potential partnership with Adventist Health System/West. The parties' original proposal to develop a joint operating company aimed at lowering cost and improving patient access and experience in the region by integrating clinical activities and services in six Northern

California counties was denied by the California Attorney General. Both parties are currently evaluating alternative options for improving community care. In addition, during the first quarter of 2019, Providence announced that Providence - Southern California and Cedars-Sinai had agreed to create a joint venture that will own and operate Providence Tarzana Medical Center (the "Tarzana Medical Center"), which is situated in Tarzana, California and is currently owned and operated by Providence - Southern California. Providence - Southern California will retain a controlling interest in the Tarzana Medical Center and, with Cedars-Sinai, would jointly build-out and redevelop the campus of the Tarzana Medical Center.

Providence will continue to evaluate opportunities for strategic growth. Providence does not typically disclose such discussions unless and until it appears likely that an agreement will be reached and any required regulatory approvals will be forthcoming.

## Key Initiatives

***Unifying around a common brand.*** St. Joseph Health and Providence Health & Services became one organization in 2016 because we knew we could do more for our communities together than on our own. At that point, we adopted the name Providence St. Joseph Health for the parent organization. We are blessed to be a diverse family of ministries and organizations committed to Health for a Better World. After months of careful deliberation, we are unifying our Catholic ministries around a common brand: the St. Joseph Health cross and the word Providence. We recognized in order to unify around a common brand to strengthen Catholic health care in our communities, we need an easily identifiable common brand that ensures patients, families, employers and consumers recognize and understand our comprehensive and diverse network of care. The unified brand will allow us to be more effective advocates for value-based health care reform and a stronger voice for those who are poor and vulnerable. The legal name of the parent organization will remain Providence St. Joseph Health.

***Advancing state-of-the-art innovations through industry-leading partnerships.*** In 2019, we announced our multi-year strategic alliance with Microsoft to accelerate the digital transformation of health care. This alliance will combine cloud computing, artificial intelligence, research capabilities, and collaboration tools with our clinical expertise and care environments, while ensuring the security and privacy of our patient data remains the paramount priority. We are developing a portfolio of integrated solutions designed to improve health outcomes and reduce the total cost of care by combining new health care technologies to transform the care experience. The goal will be to scale these innovations across our system, in a transformation that will bring innovative and necessary solutions to more communities.

***Diversifying revenue as a tech-enabled services provider.*** In 2019, we acquired Bluetree, an Epic consulting and strategy company that helps health care providers maximize their use of technology. The acquisition is part of a strategy to diversify revenue to support patient care and our Mission. In joining our System, Bluetree will extend its customer reach of more than 140 health system clients nationwide and pursue additional growth and innovation opportunities. We have extensive experience internally maximizing Epic, both within our own seven-state system and for other independent hospitals and medical groups. By acquiring Bluetree, we will expand our current offerings to increase the value we deliver to other health systems across the country. With the addition of Bluetree, we now have two electronic health record solutions companies.

***Modernizing our revenue cycle through blockchain technology.*** We are using our scale to integrate best-in-class technologies to reduce administrative burden for providers and payers. In 2019, we acquired Lumedic, a next-generation revenue cycle management platform based on blockchain to build a collaborative information-sharing platform. We believe we are the first integrated provider-payer system to establish a scalable platform to transform claims processing and enhance interoperability between providers and payers. We are engaged in efforts to reinvent our revenue cycle platform that aim to lower overall costs, improve caregiver focus, and make care more affordable. The revenue cycle management system can also be commercialized for a diversified revenue stream to better support our Mission.

## Ambulatory Care Network

***Creating best in class, lower cost health and wellness services for consumers.*** The Ambulatory Care Network continues to deliver on commitments to build a network of optimized, connected, lower cost ambulatory services across Providence. In 2019, the consumer-focused division delivered high-quality, convenient care with 2.7 million visits, and achieved top marks across the ExpressCare and Urgent Care customer experience. We exceeded growth targets adding 38 sites, a 27-percent increase in growth from adjusted baseline, including 16 ExpressCare clinics, 11 Urgent Care clinics, three Ambulatory Surgery Centers, and eight One Medical retail sites. We also secured a partnership with Surgical Care Affiliates, one of the largest ambulatory surgery centers in the United States, to develop a system-wide lower cost, high-quality network of ambulatory surgery centers, and continued to deliver digitally-enabled experiences consumers want with the launch of ExpressCare Virtual in Alaska, Washington, Montana, Oregon and California.

## Population Health Management

***Making a transformational shift from health care to health.*** Population Health models and initiatives form a vital pillar in achieving our strategic plan of transforming care, delivering value-based care, and creating healthier communities together. Our goal is to maximize the health outcomes of the people in our defined populations and communities through the design, delivery and coordination of affordable quality health care and services. We integrate solutions to improve social determinants of health and provide care management for complex patients. We are building community partnerships to increase access to health services, transportation, housing, education, food banks, and mental health services.

Our Population Health Management division is composed of a family of services, including Population Health Informatics, Value-Based Care, Payer Contracting, Risk Sharing & Payments Models, Care Management, and Mental Health Improvement that support our Providence regional care delivery systems; and two businesses: Providence Health Plans and Ayin Health Solutions.

Providence Health Plan (“PHP”), a 501(c)(4) Oregon non-profit health care service contractor, and Providence Health Assurance (“PHA”), a wholly-owned subsidiary of PHP, are collectively referred to as the Health Plans. Providence Plan Partners (“PPP”), is a 501(c)(4) Washington non-profit corporation. PPP recently announced that it has entered into a nonbinding Letter of Intent with CareOregon to evaluate combining their capabilities in order to serve Medicaid, Medicare and dually eligible Medicaid-Medicare members in the state of Oregon.

The Health Plans provide services to a wide range of clients, including self-funded employers, and insurance coverage for large group employers, small group employers, individual and family coverage under the Affordable Care Act, Medicare Commercial, Medicare Advantage, Managed Medicaid risk administration, pharmacy benefits management, workers compensation services, and network access services under preferred plans.

## Digital Innovation

***Making health care easier, more collaborative and more rewarding.*** We work to bring health care into the digital and consumer age with a steadfast focus on patient and consumer value. We deploy digital solutions to deliver personalized care that is accessible, convenient and connected. We approach this challenge comprehensively: prioritizing or repurposing existing technologies, identifying best-of-breed external companies to pilot, scale and/or invest, and incubating new technologies in-house, where appropriate. We also actively collaborate with other health systems and major consumer technology companies on shared problems and common goals. Fueled by our vision for modernized health care, we believe this strategy will help to lower the cost of care, generate new digital revenue streams, and unlock population health management capabilities that help entire communities stay healthy.

**Advancing Mission-driven innovation.** Founded in 2014, Providence Ventures manages a \$300 million venture capital fund designed to achieve venture class returns through direct investments in innovative health care companies that improve quality and convenience, lower cost and improve health outcomes. Providence Ventures offers investment capital and health system expertise to best-in-class companies addressing existing and emerging challenges in health care. We also partner with our portfolio companies to refine existing solutions, while expanding their adoption within and beyond our health system. Our venture funds target early and growth-stage health care companies that specialize in health care information technology, technology-enabled services, health care services, and medical devices.

## Home & Community Care

**Bringing excellent medical care to the home setting.** As a trusted partner for individuals and families, our community-based care and services are geared to help in times of need, aging and illness, and at the end of life. We provide a full range of post-acute services, including assisted living, skilled nursing and rehabilitation, home health, home infusion and pharmacy services, home medical equipment, hospice and palliative care, Program of All-Inclusive Care for the Elderly (PACE) locations, supportive housing, and personal home care services. As our Mission calls us to serve the most vulnerable and poor members of our community, we provide a full range of services and support more to than 38,000 patients, participants and residents each day. The demand for these services continues to increase in the markets we serve, creating opportunities for continued growth, innovation and investment.

## Physician Enterprises

The physician enterprise within the System consists of employed and foundation and affiliate physicians, providers and their supporting care teams. Our Employed Provider Network (the “*Provider Network*”) is composed of eight provider service organizations. The physician enterprise aims to create a more unified provider voice and patient experience for consumers across Providence’s seven states through its medical group and affiliate practices.

Medical groups and medical foundations within the Provider Network include: Providence Medical Group, a network serving Alaska, Washington and Montana, and Oregon; Swedish Medical Group, with staffed clinics throughout Washington’s greater Puget Sound area; Providence Medical Institute (“*PMI*”), in Southern California; Pacific Medical Centers, in western Washington; Kadlec, serving communities in southeast Washington; Providence St. John’s Medical Foundation, in Southern California; Facey Medical Foundation (“*Facey*”), in Southern California; St. Joseph Heritage Healthcare, in Northern and Southern California; Covenant Medical Group and Covenant Health Partners, operating in West Texas and Eastern New Mexico.

The System is organized into the geographic regions spanning seven states across the western United States shown in the graphic below.

| Northern California <sup>(1)</sup>                                                                                                                                                                                                                            | 6%                | 6%         |
| Southern California <sup>(1)</sup>                                                                                                                                                                                                                            | 29%               | 31%        |
| West Texas and Eastern New Mexico <sup>(2)</sup>                                                                                                                                                                                                              | 6%                | 5%         |
| Other (including Home & Community Care)                                                                                                                                                                                                                       | 3%                | 2%         |
| <sup>(1)</sup> Includes recognition of revenue from California provider fee program of \$633 million in 2019 and \$604 million in 2018.                                                                                                                       |                   |            |
| <sup>(2)</sup> As reported, the West Texas/Eastern New Mexico regional share decreased due to \$462 million in divested revenue related to the sale of Texas-based FirstCare Health Plans in 2019, including eliminations related to claims activity in 2018. |                   |            |

Alaska

As the largest health system in Alaska, the System includes 17 facilities throughout the state, with a 32-percent inpatient market share statewide in 2018, as reported by the Alaska Health Facilities Data Reporting Program. Providence Alaska Medical Center (“PAMC”) is the largest hospital in the state. The System’s 17 Alaska facilities are located in the greater Anchorage area, with 56 percent inpatient market share, and in the remote communities of Kodiak, Seward and Valdez, as reported by the Alaska Health Facilities Data Reporting Program. PAMC is a 401-bed acute care facility and the only comprehensive tertiary referral center in the state. St. Elias Specialty Hospital, a 59-bed long term acute hospital (the only one in the state) is also located in the Anchorage area. Three critical access hospitals are located in Kodiak, Seward and Valdez, all co-located with skilled nursing facilities.

Swedish

In the greater Puget Sound area of Washington, Swedish Health Services operates five hospital campuses: First Hill, Cherry Hill, Ballard, Edmonds and Issaquah located in King and Snohomish counties. The inpatient market share for Swedish was 26 percent in 2018, as reported by the Comprehensive Hospital Abstract Reporting System. Swedish also has ambulatory care centers in Redmond and Mill Creek, and a network of more than 100 primary care and specialty clinics throughout the Seattle metropolitan corridor.

Washington and Montana

In the Washington-Montana region, the System includes 12 hospitals, with a 44-percent inpatient market share in their service areas in 2018, as reported by the Comprehensive Hospital Abstract Reporting System. The region is composed of five geographic markets: Northwest Washington, Southwest Washington, Eastern Washington, Southeast Washington and Western Montana, with medical groups in the region employing more than 2,300 providers. The region provides a variety of services, including home health care, primary and immediate care services, inpatient rehabilitation, and general acute care services.

Oregon

The Oregon region includes eight hospitals in Portland, Hood River, Medford, Milwaukie, Newberg, Seaside and Oregon City, with a total inpatient market share of 30 percent in their service areas in 2018, as reported by Apprise Health Insights. Providence St. Vincent Medical Center provides tertiary

care to the Portland metropolitan market. The region also provides more than 100 primary care, specialty and immediate care clinics, home health care, and housing. The Health Plans are based in Oregon, and a majority of the members (nearly 650,000) live in the region.

### ***Northern California***

The System's ministries in Northern California serve the North Coast, Humboldt, Napa and Sonoma communities with five hospitals, ambulatory surgery centers, urgent care centers, wellness centers, physician offices, home health, hospice, and rehabilitation sites. The acute care hospitals in Northern California had 37-percent inpatient market share in their service areas in 2018, as reported by the Office of Statewide Health Planning and Development. St. Joseph Heritage Healthcare, a medical foundation, operates clinics in the region with its contracted physician partners.

### ***Southern California***

The Southern California region includes 13 acute care hospitals in Los Angeles, Orange and San Bernardino counties, and the High Desert, with a total inpatient market share of 25 percent in their service areas in 2018, as reported by the Office of Statewide Health Planning and Development. In Los Angeles County, the System includes six acute care facilities. Our largest hospital, Providence St. Joseph Medical Center, is located in Burbank. The System also includes hospitals in Mission Hills, San Pedro, Tarzana, Torrance and Santa Monica. Providence Medical Foundation ("*PMF*") operates 63 practice locations in the market, offering more than 20 types of specialty care. PMF includes the Facey, PMI and Providence St. John's medical foundations. In addition, the System includes seven acute care facilities within Orange and San Bernardino counties: Apple Valley, Fullerton, Mission Viejo, Laguna Beach, Newport Beach, Irvine and Orange. Mission Hospital is located on two campuses in Mission Viejo and Laguna Beach, and maintains the region's level II trauma center, as well as a women's center. Hoag Hospital, which also is composed of two campuses, in Newport Beach and Irvine, also includes Hoag Orthopedic Institute, part of St. Joseph Hoag Health alliance described below. St. Joseph Heritage Healthcare, a medical foundation, operates clinics in the region with its contracted physician partners.

### ***West Texas and Eastern New Mexico***

The West Texas-Eastern New Mexico region includes Covenant Health System and Covenant Medical Group. Covenant Health System and its related Texas affiliates is the market's largest health system with seven licensed hospitals; the inpatient market share was 40 percent in their service areas in 2018, as reported by Texas Health Care Information Collection. Covenant Health System also operates Grace Health System, which includes Grace Clinic and Grace Medical Center, and Covenant Medical Group, a medical foundation physician network of employed and aligned physicians. Covenant Health System, operates two acute care community hospitals in the region, Covenant Health Plainview and Covenant Health Levelland, and Specialty Hospital, a long-term acute care facility. Covenant Health System also operates a joint venture acute rehabilitation facility and Hospice of Lubbock.

## Obligated Group

Providence and the other entities so designated in the Glossary are currently Obligated Group Members under the Master Indenture.

Providence is the Obligated Group Agent under the Master Indenture. Under the Master Indenture, debt incurred or secured through the issuance of Obligations under the Master Indenture are the responsibility, jointly and severally, of the Obligated Group Members. Pursuant to the Master Indenture, Obligated Group Members may be added to and withdrawn from the Obligated Group under certain conditions described in the Master Indenture. INDEBTEDNESS EVIDENCED OR SECURED BY OBLIGATIONS ISSUED UNDER THE MASTER INDENTURE IS SOLELY THE OBLIGATION OF THE OBLIGATED GROUP, AND SUCH OBLIGATIONS ARE NOT GUARANTEED BY, OR THE LIABILITIES OF, SISTERS OF PROVIDENCE, MOTHER JOSEPH PROVINCE, ANY OTHER PROVINCE OF THE SISTERS OF PROVIDENCE, MONTREAL CONGREGATION, THE LITTLE COMPANY OF MARY SISTERS, AMERICAN PROVINCE, SISTERS OF ST. JOSEPH OF ORANGE, THE ROMAN CATHOLIC CHURCH, OR ANY AFFILIATE OF THE SYSTEM THAT IS NOT AN OBLIGATED GROUP MEMBER.

### System Utilization

The System's key volume indicators are presented for the fiscal years ended December 31:

| Long-Term Patient Days                                                                | 402               | 392        |
| Outpatient Visits (incl. Physicians)                                                  | 21,450            | 21,402     |
| Emergency Room Visits                                                                 | 2,089             | 2,097      |
| Surgeries and Procedures                                                              | 561               | 568        |
| Acute Average Daily Census (Actual)                                                   | 6,562             | 6,611      |

## Financial Information

The summary audited combined financial information as of and for the fiscal years ended December 31, 2019 and 2018, respectively, are presented below. The financial information should be read in conjunction with the audited combined financial statements of the System, including the notes thereto, and the report of KPMG LLP, independent auditors.

For the fiscal year ended December 31, 2019, the audited combined net operating revenue and total assets attributable to the Obligated Group Members were approximately 84 percent and 87 percent, respectively, of the System totals. For the fiscal year ended December 31, 2018, the audited combined net operating revenues and total assets attributable to the Obligated Group Members were approximately 82 percent and 87 percent, respectively, of the Systems totals. Refer to Exhibit 6, below, for supplementary information on the Obligated Group Members.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates and judgments that affect the amounts reported in the combined financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. System management considers critical accounting policies to be those that require the more significant judgments and estimates in the preparation of its financial statements, including the following: recognition of net operating revenues, which includes contractual allowances; impairment of long-lived assets; valuation of investments; accounting for expenses in connection with restructuring activities; provisions for bad debt; and reserves for losses and expenses related to health care professions believed to be reasonable under Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgments and estimates. Actual results could differ materially from those estimates.

<sup>(1)</sup> In 2019, the System adopted ASC 842, Leases, in accordance with U.S. GAAP and recognizes right-of-use assets and lease liabilities on the balance sheet for all leases with a term longer than 12 months.

## Management's Discussion and Analysis: Fiscal Year Ended December 31, 2019

Management's discussion and analysis provides additional narrative explanation of the financial condition, operational results and cash flow of the System to assist in increasing understanding of the combined financial statements. The summary audited combined financial information as of and for the fiscal years ended December 31, 2019 and 2018, respectively, are presented below.

### Results of Operations

#### *Operations Summary*

Operating earnings before interest, depreciation and amortization ("EBIDA") and operating income were \$1.6 billion and \$214 million, respectively, for the fiscal year ended December 31, 2019, compared with \$1.4 billion and \$3 million, respectively, for the same period in 2018, and includes restructuring costs and the recognition of provider fee programs, in addition to the net revenue impact from the sale of Texas-based FirstCare Health Plans in 2019, compared with the prior year. Pro forma operating EBIDA and operating income normalized for restructuring costs increased \$193 million and \$208 million, respectively, for the fiscal year ended December 31, 2019, compared with the same period in 2018. The net increase was primarily driven by higher patient volumes, higher acuity, and higher labor productivity and rates, in addition to improved medical supply management due to key modernization initiatives. The System's key financial indicators are presented for the fiscal years ended December 31:

<sup>(1)</sup> Pro forma normalizes for restructuring costs in 2019 and 2018.

#### *Volumes*

While patient volumes have continued to grow in comparison to the prior year, this growth has coincided with a shift to the outpatient setting and higher acuity within the inpatient setting as measured by case mix adjusted admissions ("CMAA"). The System experienced three percent higher CMAA for the fiscal year ended December 31, 2019, compared with the same period in 2018. Surgeries and procedures continue to grow through a combination of Providence wholly-owned and joint venture activities, including a three percent increase in the Providence outpatient setting, compared with the prior year. Total outpatient visits increased by one percent for the fiscal year ended December 31, 2019, compared with the same period in 2018, as inpatient admissions for lower acuity services shift to the outpatient setting. Acute patient days and acute average daily census both increased by one percent for the fiscal year ended December 31, 2019, compared with the same period in 2018, reflecting higher acuity and longer stays in the inpatient setting.

#### *Operating Revenues*

Operating revenues for the fiscal year ended December 31, 2019 were \$25.0 billion, an increase of two percent, compared with the same period in 2018, primarily driven by higher patient volumes, and higher acuity and rates, combined with the recognition of accrued reimbursements from provider fee programs of \$942 million in 2019, compared with \$894 million for the same period in 2018, in addition to the divestment of \$462 million in net revenue due to the sale of Texas-based FirstCare Health Plans in

2019. Lower reimbursements for services from changes in payor mix, payment rates and procedure mix remains a significant challenge for the System. Government health programs, principally Medicare, continue to modestly outpace our commercial growth compared to the prior year, which has coincided with increases in acuity levels. Net patient revenues per CMAA remained steady for the fiscal year ended December 31, 2019, compared with the same period in 2018.

The System's operating revenues by state are presented for the fiscal years ended December 31 (footnotes appear beneath last table):

| Total Operating Revenues                                                                     | \$24,428          | \$25,025   |

- <sup>(1)</sup> Includes recognition of revenue from California provider fee program of \$633 million in 2019 and \$604 million in 2018.  
<sup>(2)</sup> Decrease due to \$462 million in divested net revenue related to the sale of Texas-based FirstCare Health Plans in 2019.  
<sup>(3)</sup> Represents total payor net patient revenues received, including premium and capitation revenue in accordance with ASC 606, Revenue from Contracts with Customers. Refer to Exhibit 6.3 within Exhibit 6 attached hereto for supplementary information on net patient revenue payor mix driven by patient utilization.

## Operating Expenses

Operating expenses for the fiscal year ended December 31, 2019 were \$24.7 billion, an increase of two percent, compared with the same period in 2018, primarily driven by costs associated with serving the System's higher patient volumes, combined with restructuring costs incurred to streamline operations and drive future operating performance. Labor productivity improved four percent on an adjusted occupied bed volumes basis, and medical supply costs per CMAA were lower by three percent, compared with the prior year. Overall salaries and benefits expenses increased three percent for the fiscal year ended December 31, 2019, compared with the same period in 2018. Supplies expense increased by four percent compared with the prior year, driven primarily by an eight percent increase in pharmaceutical spend. This growth was offset by higher labor productivity and expense management efforts with a one percent reduction in expenses per CMAA for the year ended December 31, 2019, compared with the same period in 2018.

## Non-Operating Activity

Non-operating gains totaled \$1.1 billion for the fiscal year ended December 31, 2019, compared with non-operating losses of \$448 million for the same period in 2018. The increase was primarily driven by strong investment performance, including investment gains of \$1.3 billion for the fiscal year ended December 31, 2019, compared with investment losses of \$366 million for the same period in 2018.

## Liquidity and Capital Resources; Outstanding Indebtedness

### Unrestricted Cash and Investments

Unrestricted cash and investments totaled approximately \$12.3 billion as of December 31, 2019, compared to \$11.2 billion as of December 31, 2018, and includes cash generated from operations, debt service costs, capital spending and investment activity. The System's liquidity is presented for the fiscal years ended December 31:

| Plus: Loss on Pension Settlement Costs and Other                                                        | 30         | 26         |
| Plus: Depreciation                                                                                      | 1,010      | 999        |
| Plus: Interest and Amortization                                                                         | 264        | 254        |
| Total                                                                                                   | \$2,051    | \$2,264    |
| Debt Service Requirements: <sup>(1)</sup>                                                               |            |            |
| MADS                                                                                                    | \$390      | \$390      |
| Coverage of Debt Service Requirements                                                                   | 5.3x       | 5.8x       |
| <sup>(1)</sup> Debt Service Requirements has the meaning assigned to such term in the Master Indenture. |            |            |

## System Governance and Management

### Corporate Governance

Providence serves as the parent and corporate member of PH&S and SJHS. Providence was created in connection with the combination of the multi-state health care systems of PH&S and the SJHS, which was effective on July 1, 2016 (the “*Combination*”). Providence has been determined to be an organization that is exempt from federal income taxation under Section 501(c)(3) of the Internal Revenue Code. Prior to the Combination, the sole corporate member of PH&S was Providence Ministries, which acted through its sponsors, who are five individuals appointed by the Provincial Superior of the Sisters of Providence, Mother Joseph Province. Similarly, the sole corporate member of SJHS was St. Joseph Health Ministry, a California non-profit public benefit corporation. Providence Ministries and St. Joseph Health Ministry are each a public juridic person under Canon law, responsible for assuring the Catholic identity and fidelity to the Mission of their respective systems. Pursuant to the Combination, Providence Ministries and St. Joseph Health Ministry have entered into an agreement that establishes a sponsorship model through contractual obligations exercised by the parties’ sponsors collectively (the “*Sponsors Council*”). The Sponsors Council retains certain reserved rights with respect to Providence. Among the powers reserved to the Sponsors Council are the following powers over the affairs of Providence (excluding certain affiliates, such as: Providence – Western Washington, Western HealthConnect, Swedish, Swedish Edmonds, PacMed, Kadlec and Hoag Hospital): to amend or repeal the articles of incorporation or bylaws of the Providence; the appointment and removal, with or without cause, of the directors of Providence; the approval of the acquisition of assets, incurrence of debt, encumbering of assets and sale of certain property; the approval of operating and capital budgets, upon recommendation of the Providence Board of Directors; and the approval of dissolution, consolidation or merger. Providence has reserved rights over PH&S and SJHS, which powers may be exercised by Board of Providence. Given the complexity of the System’s governance structure, Providence routinely evaluates and considers alternative governance models to best meet the System’s governance needs.

The following table lists the current members of the Board of Directors of Providence and the Sponsors Council.

| <b>Board of Directors<br/>(December 31)</b> | <b>Term Expires<br/>(December 31)</b> | <b>Sponsors Council</b>       | <b>Term Expires<br/>(December 31)</b> |

<sup>†</sup> Not eligible for an additional term.

<sup>‡</sup> Eligible for one additional three-year term.

<sup>Δ</sup> Eligible for up to two.

***Executive Leadership Team***

The following are key members of Providence’s executive leadership team.

| <b><u>Name</u></b> | <b><u>Title</u></b>                  |
|--------------------|--------------------------------------|
| Rod Hochman, M.D.  | President and CEO                    |
| Mike Butler        | President of Operations and Strategy |
| Venkat Bhamidipati | EVP and CFO                          |

***Support Services***

Corporate officers and supporting staff oversee the management activities carried on, on a day-to-day basis, by the management staff of each region. Each regional Chief Executive reports to the President of Operations, who oversees their management with emphasis on the service area’s achievements in responding to unmet health care needs in the community, especially the unmet needs of the poor and vulnerable, productivity, developing integrated delivery systems, meeting financial guidelines, and maintaining or increasing market share. The Chief Financial Officer of Providence and Finance staff coordinate the annual budget and multi-year forecasts of the service areas, and manage the capital acquisition and management activities of the Obligated Group. Other areas in which the corporate staff provides centralized services or coordinates the activities of the service areas include: legal affairs, insurance and risk management, treasury services, materials management, technical support, fund raising, quality of care, medical ethics, pastoral services, mission effectiveness, human resources, planning and policy development, and public affairs.

***Non-Obligated Group System Affiliates***

In addition to the Obligated Group Members, the System includes: health plans; a provider network; numerous fundraising foundations; Providence Ventures, Inc., a Washington corporation that invests in health care activities; various not-for-profit corporations that own and operate assisted living facilities and low-income housing projects, including housing facilities for the elderly; and the University of Providence formerly known as University of Great Falls, located in Great Falls, Montana. The System also includes multiple operations involving or supporting home health, outpatient surgery, imaging services and other professional services provided through for-profit and non-profit entities that are not part of the Obligated Group. These entities are organized as subsidiaries of the System, partnerships or joint ventures with other entities. Obligated Group Members also may engage in informal alliances and/or contract-based physician relationships. Affiliates that are not Obligated Group Members are referred to in this Annual Report as the Non-Obligated Group System Affiliates. Certain Non-Obligated Group System Affiliates that are of significant operational or strategic importance and other Non-Obligated Group System Affiliates are discussed elsewhere in this Annual Report only to the extent they are viewed by System management to be of particular operational or strategic importance.

**Control of Certain Obligated Group Members**

***General***

Providence is the sole corporate member of PH&S and SJHS. PH&S is the sole corporate member, directly or indirectly, of each of Providence - Washington, Providence - Southern California, LCMASC, Providence - St. John’s, Providence - SJMC Montana, Providence - Montana, Providence - Oregon, Swedish, Swedish Edmonds, Pac Med, Western Health Connect and Kadlec, and co-corporate member of Providence - Western Washington.

SJHS is the sole corporate member of SJHNC and, as more fully described hereinafter, a corporate member of St. Joseph Orange, St. Jude, Mission Hospital, St. Mary and CHS.

### ***Northern California Region***

SJHS is the sole member of St. Joseph Health Northern California, LLC, which, operates the hospital facilities known as Santa Rosa Memorial Hospital, Queen of the Valley Medical Center, St. Joseph Hospital of Eureka, and Redwood Memorial Hospital. The corporate entities of Santa Rosa Memorial Hospital, Queen of the Valley Medical Center, St. Joseph Hospital of Eureka and Redwood Memorial Hospital, each a California nonprofit public benefit corporation (collectively, the “*Hospitals*”) transferred their assets to SJHNC effective as of April 1, 2018. Effective December 31, 2019 the remaining corporate entities in connection with this reorganization were dissolved.

### ***Southern California Region***

In connection with the March 2013 affiliation of SJHS and Hoag Hospital, a new entity known as Covenant Health Network, Inc. (“*CHN*”), a California nonprofit public benefit corporation, was created. CHN is a corporate member of Hoag Hospital and St. Joseph Orange, St. Jude, Mission Hospital and St. Mary (the “*SJHS Southern California Hospitals*”). CHN, The George Hoag Family Foundation (Hoag Family Foundation) and the constituent churches of the Los Ranchos Presbytery of the Presbyterian Church (USA), as represented by the Association of Presbyterian Ministers (APM), are the corporate members of Hoag Hospital. None of CHN, Hoag Family Foundation or APM is an Obligated Group Member, or is obligated for payment with respect to the Bonds.

SJHS, CHN, Hoag Hospital and the SJHS Southern California Hospitals entered into an affiliation pursuant to the terms of an Affiliation Agreement dated as of October 15, 2012 (the “*CHN Affiliation Agreement*”). The CHN Affiliation Agreement, which became effective as of March 1, 2013, is designed to allow SJHS and each of the SJHS Southern California Hospitals on the one hand, and Hoag Hospital on the other hand, to preserve their respective Catholic and Presbyterian heritages and identities while creating an integrated community health care delivery system. The Affiliation Agreement was amended as of June 1, 2017 and Providence became a party to the arrangement. In addition, a Supplemental Agreement and two amendments were also entered into between the parties in 2017.

CHN does not have any corporate members, and neither Providence, SJHS, its affiliates, nor Hoag Hospital have any ownership interest in CHN. CHN’s governing board consists of seven members, four of whom are designated by Providence in its sole discretion from persons who are members of the governing boards of SJHS, SJHS Southern California Hospitals, St. Joseph Health Ministry and/or Sisters of St. Joseph of Orange, and/or members of Providence or SJHS management. The remaining three members are designated by Hoag Family Foundation and APM, acting jointly, in their sole discretion from members of the governing board of Hoag Hospital. The CHN board provides strategic planning leadership and oversight for the Southern California region.

CHN and SJHS have certain reserved powers with respect to the governance, management and operation of each of the SJHS Southern California Hospitals and Hoag Hospital. Some of these powers may be exercised only by a supermajority vote of the CHN Board of Directors, meaning the affirmative vote of at least three of the four members designated by Providence, and of at least two of the three members designated by Hoag Family Foundation and APM. Such reserved powers and powers that require a supermajority vote may be reviewed and revised from time to time. These reserved powers include, among others, certain actions relating to: (i) changes in articles and bylaws, (ii) certain board member and management appointments and removals; and (iii) certain hospital mergers, acquisitions, joint ventures, asset sales, cash transfers and financings. Hoag Family Foundation and APM also have reserved powers with respect to certain management and operating matters and transactions involving Hoag Hospital.

### ***West Texas/Eastern New Mexico Region***

SJHS and Lubbock Methodist Hospital System (“*LMHS*”) are the corporate members of CHS. CHS is the sole corporate member of CMC, Covenant Levelland and Covenant Plainview. LMHS is not an Obligated Group Member and is not obligated for payment with respect to the Bonds.

CHS was formed in 1998 pursuant to an affiliation between SJHS and LMHS and its affiliates, pursuant to which CHS became the sole corporate member of certain entities previously affiliated with LMHS and, together with certain of such entities, joined the obligated group to which SJHS and its affiliates were party.

CHS is governed by a 19-member board of directors. LMHS and SJHS each appoint eight directors. SJHS also appoints the Chief Executive Officer of CHS, who is an ex-officio voting director. The CMC Chief of Staff and Covenant Children's Hospital Chief of Staff also serve as ex-officio voting directors. SJHS has extensive authority with respect to the financial affairs of CHS and its subsidiaries, including, but not limited to, the approval of budgets of CHS and its subsidiaries and selection and retention of auditors.

As part of the affiliation, SJHS, CHS and LMHS entered into an agreement that significantly restricts the ability of SJHS to sever its relationship with CHS and the entities formerly affiliated with LMHS. Under certain circumstances, it also restricts CHS and SJHS from a wide variety of transactions (the "*Covered Transactions*"), including: (i) certain management agreements, leases, joint ventures and other transactions that might have the effect of transferring control of Covenant Medical Center or all assets of CHS and its subsidiaries to an unrelated third party, or in a manner that voids or reduces LMHS's right, as a member, to appoint directors; (ii) a sale, transfer or conveyance of all or substantially all of CHS' assets (including all of CHS' affiliates, taken in the aggregate); (iii) an affiliation, management agreement, lease or joint venture under which a third party acquires the right to control CHS, as a whole; or (iv) any other transaction in which the ability to appoint and remove more than 50 percent of the directors of CHS is transferred to a third party.

In the event SJHS or CHS undertakes a Covered Transaction, they are obligated to provide notice and information to LMHS and to make a "reciprocal offer" to LMHS, including an offer to purchase LMHS's membership rights in CHS and a simultaneous obligation to offer CHS' membership rights to LMHS at the same purchase price, adjusted upward by a formula that reflects the dissolution percentages Pursuant to the terms of the affiliation, the dissolution percentages are SJHS - 57 percent; LMHS - 43 percent.

## Other Information

### *Outstanding Master Trust Indenture Obligations*

As of December 31, 2019, the System had Obligations outstanding under the Master Indenture totaling \$6,105,000,000. This excludes Obligations that secure interest rate or other swap transactions, bank liquidity or credit facilities. The Obligations outstanding under the Master Indenture relating to tax-exempt and taxable bond/note indebtedness are described further in the Note 7 to the Combined Audited Financial Statements for the fiscal year ended December 31, 2019.

Certain of the outstanding Obligations secure tax-exempt bonds previously issued for the benefit of one or more Obligated Group Members (collectively, the "*Direct Placement Bonds*") that were purchased directly by commercial banks. Certain other of the outstanding Obligations secure taxable loans and lines of credit previously incurred on behalf of the Obligated Group (the "*Taxable Loans*") from one or more commercial banks or a syndicate of banks. Certain other of the outstanding Obligations secure payment obligations relating to bank liquidity or letter of credit facilities (the "*Credit Facilities*") issued by credit banks to secure the payment of principal of, interest on and purchase price for certain tax-exempt and taxable bonds issued for the benefit of, or by, certain Obligated Group Members. The financial covenants relating to the Direct Placement Bonds, the Taxable Loans and the Credit Facilities are substantially consistent with the covenants in the Master Indenture. In addition to financial covenants, the Direct Placement Bonds, the Taxable Loans and the Credit Facilities include events of default that may cause an acceleration of the Obligations secured thereby, and, in turn, all Obligations secured by the Master Indenture. Certain documents relating to the Direct Placement Bonds, the Taxable Loans and the Credit Facilities containing these financial covenants and events of default are available for review on EMMA (<http://emma.msrb.org>).

### *Interest Rate Swap Arrangements*

The System and/or certain of its affiliates may enter into interest rate swap contracts from time to time to increase or decrease variable rate debt exposure, to achieve a targeted mix of fixed and floating rate indebtedness and for other purposes.

At December 31, 2019, SJHS was party to seven interest rate swap agreements with a current notional amount totaling approximately \$436 million and with varying expiration dates. The swap agreements require SJHS to make fixed rate payments in exchange for variable rate payments made by the counterparties. SJHS's payment obligations under such swap agreements are secured by Obligations issued under the Master Indenture.

Below is a summary of those swap agreements, including the fair value of the swaps as of December 31, 2019. Fair values are based on independent valuations obtained and are determined by calculating the value of the discounted cash flows of the differences between the fixed interest rate of the interest rate swaps and the counterparty's forward London Interbank Offered Rate curve, which is the input used in the valuation, also taking into account any nonperformance risk. Changes in the fair value of the interest rate swaps are included within non-operating gains and losses. See also the discussion under "Other Information - Interest Rate Swap Agreements" and Note 7 to the Combined Audited Financial Statements for the fiscal year ended December 31, 2019.

| DESCRIPTION | NOTIONAL      | TERM   | COUNTERPARTY   | RECEIVE                         | PAY    | FAIR VALUE     |
|-------------|---------------|--------|----------------|---------------------------------|--------|----------------|
| Fixed Payor | \$13,550,000  | Jul-21 | Morgan Stanley | 68% of 3 Month LIBOR            | 3.305% | (\$288,000)    |
| Fixed Payor | \$2,200,000   | Jul-20 | Morgan Stanley | 68% of 3 Month LIBOR            | 3.189% | (\$22,000)     |
| Fixed Payor | \$173,310,000 | Jul-47 | MUFG Union     | 68% of 3 Month LIBOR            | 3.529% | (\$59,788,000) |
| Fixed Payor | \$46,015,000  | Jul-47 | Wells Fargo    | 68% of 3 Month LIBOR            | 3.520% | (\$15,358,000) |
| Fixed Payor | \$64,700,000  | Dec-40 | Wells Fargo    | 55.70% of 1 Month LIBOR + 0.23% | 3.229% | (\$13,604,000) |
| Fixed Payor | \$64,750,000  | Dec-40 | Wells Fargo    | 55.70% of 1 Month LIBOR + 0.23% | 3.229% | (\$13,588,000) |
| Fixed Payor | \$71,510,000  | Dec-40 | Wells Fargo    | 55.70% of 1 Month LIBOR + 0.23% | 3.229% | (\$15,034,000) |

Entering into derivative agreements including those described above creates a variety of risks to the System. Pursuant to certain of these agreements, both SJHS and the counterparty are required to deliver collateral in certain circumstances in order to secure their respective obligations under the agreements. As of December 31, 2019, SJHS posted collateral in the amount of approximately \$15,322,000. The amount of collateral delivered by SJHS over the term of the agreements could increase or decrease based upon SJHS' credit ratings and movements of United States dollar swap rates and could be substantial. Under certain circumstances, the derivative agreements are subject to termination prior to their scheduled termination date and prior to the maturity of the related revenue bonds. Payments due upon early termination may be substantial. In the event of an early termination of an agreement, there can be no assurance that (i) SJHS or any other Obligated Group Member will receive any termination payment payable to it by the provider, (ii) SJHS or any other Obligated Group Member will have sufficient amounts to pay a termination payment payable by it to the provider, or (iii) SJHS or the other Obligated Group Members will be able to obtain a replacement agreement with comparable terms. For financial reporting purposes, the System has generally not treated its swap agreements as effective hedges against the interest cost of underlying debt. To the extent that swaps are not treated as effective hedges, the System must recognize any changes in the fair market value of the swaps agreements and the related debt as non-operating gains or losses. See Note 7 to the Combined Audited Financial Statements for the fiscal year ended December 31, 2019 attached to this Annual Report.

## ***Litigation***

Certain material litigation may result in an adverse outcome to the Obligated Group. Obligated Group Members are involved in litigation and regulatory investigations arising in the course of doing business. After consultation with legal counsel, except as described below, management estimates that these matters will be resolved without material adverse effect on the Obligated Group's future consolidated financial position or results of operations.

In 2019, the U.S. Department of Justice served Swedish Health Services with a Civil Investigative Demand requesting documents pertaining to certain arrangements and joint ventures and physician organizations. Swedish is cooperating with the Department and compiling the responsive documents.

A number of civil actions are pending or threatened against certain affiliates, including Obligated Group Members, alleging medical malpractice. In the opinion of management of Providence, based upon the advice of legal counsel and risk management personnel, the currently estimated costs and related expenses of defense will be within applicable insurance limits or will not materially adversely affect the financial condition or operations of the System.

## ***Employees***

As of December 31, 2019, the System included approximately 116,000 employed caregivers (excluding Hoag), representing 104,780 FTEs. Of the total employees in the System, approximately 32 percent are represented by 19 different labor unions.

Providence management provides market-competitive salaries and benefits to all employees in all markets. Management of Providence believes the salary levels and benefits packages for its employees are competitive in all of the respective markets. At the same time, management understands that the health care industry is rapidly evolving. The leadership of each of the separate employers within the System is working to ensure the compensation and benefits are modern and reflect competitive market practices. This will require continued negotiations at the various employers within the System throughout 2020. In the past two years, the System has experienced strikes at different facilities, as a result of contract negotiations. In each situation, the facility operated with qualified replacement employees and did not experience any disruption to hospital operations or patient service, and, ultimately settled the contracts. Management is also aware of ongoing organizing efforts by labor unions within the health care industry, including in markets where the separate employers within the System operates.

## ***Community Benefit***

Informed by our community health needs assessments, we make strategic proactive investments in community-focused health and social service programs, health professions education, and research directly responding to unmet needs. In addition, we provide free and discounted care for the uninsured and underinsured to ensure vital access. We also cover the unpaid cost of Medicaid as we care for individuals covered by Medicaid in the communities we serve across seven states.

Building on our commitment to care for those who are poor and vulnerable, we have invested \$1.5 billion in community benefit in the fiscal year ended December 31, 2019, compared with \$1.6 billion in the same period in 2018. Community benefit spending related to the unpaid costs of Medicaid was \$816 million for the fiscal year ended December 31, 2019, compared with \$927 million for the same period in 2018. While we decreased the uncompensated costs of Medicaid by \$111 million, we served thousands more patients covered by the program.

## ***Insurance***

Providence has developed insurance programs that provide coverage for the vast majority of insurable risks. The program uses benchmarking and insurance analytics to guide its decisions regarding both the type of coverage it purchases and the limits of that insurance. The analytics use claims and historical data to estimate the likelihood of certain events occurring such as an earthquake or an anti-trust

claim. The premium for an additional limit can then be compared to the probability of the event to pinpoint when the purchase of an additional insurance limit no longer provides a value to the System. The insurance team and brokers negotiate almost all of the policies directly to obtain the most favorable terms of coverage possible. Policies are also reviewed to ensure no coverage gaps – what is excluded in one policy must be covered by a different policy. Insurers must have an A rating or better from A.M. Best to be on the System program. Management meets with most of its underwriters at least once a year to obtain updates on any changes in business strategy or capacity. Providence currently self-insures a portion of its professional and general liability. Such claims are paid through trust arrangements which are funded to a 75 percent confidence level based on projections from outside independent actuaries. The major lines of insurance that are renewed yearly include property, directors and officers, employment practices, auto, fiduciary, cyber/information security, workers' compensation, crime, and aviation.

### ***Retirement Plans***

As described more completely under the caption “Retirement Plans” in Note 8 to the combined audited financial statements included in Exhibit 6, the System currently sponsors defined benefit and contribution plans. Although the System had certain defined benefit plans in place prior to January 1, 2010, in April 2009, the PH&S Board of Directors approved a freeze of the existing defined benefit plans, a cap on the ongoing cash balance interest credit formula, and the implementation of new defined contribution plans referenced within Note 8, all effective December 31, 2009.

The System's remaining unfunded liability with respect to the defined benefit plans increased from approximately 58 percent at December 31, 2018 to 61 percent at December 31, 2019. The increase in the unfunded liability occurred primarily due to a change in the valuation discount rate. The System's contribution to the defined benefit plans was approximately \$100 million and \$99 million at December 31, 2019 and 2018, respectively.

The System sponsors various defined contribution retirement plans that cover substantially all employees. The plans provide for employer matching contributions in an amount equal to a percentage of employee pretax contributions, up to a maximum amount. In addition, the System makes contributions to eligible employees based on years of service. Retirement expense related to these plans was \$500 million and \$513 million in December 31, 2019 and 2018, respectively, and is reflected in salaries and benefit expense in the accompanying combined statements of operations.

### ***Accreditation and Memberships***

The System's acute care hospital facilities are appropriately licensed by applicable state licensing agencies, certified for Medicare and Medicaid/Medi-Cal reimbursement, and (except Covenant Leveland, Providence Seward Medical Center, Providence Valdez Medical Center and Swedish Issaquah) accredited by The Joint Commission. Each long-term care facility or unit is licensed by applicable state licensing agencies and is appropriately certified for Medicare and Medicaid/Medi-Cal reimbursement.

## Glossary of Terms

### ***Credit Group:***

Obligated Group Members, Designated Affiliates, and Limited Credit Group Participants and Unlimited Credit Group Participants, collectively.

### ***Obligated Group or Obligated Group Members:***

Obligated Group Members under the Master Indenture and currently:

## **Independent Auditors' Report**

The Board of Directors  
Providence St. Joseph Health:

We have audited the accompanying combined financial statements of Providence St. Joseph Health, which comprise the combined balance sheets as of December 31, 2019 and 2018, and the related combined statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the combined financial statements.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Providence St. Joseph Health as of December 31, 2019 and 2018, and the results of its operations and its cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

### *Emphasis of Matter*

As discussed in Note 1 to the combined financial statements, in 2019, Providence St. Joseph Health adopted new accounting guidance in Accounting Standards Update (ASU) No. 2016-02, *Leases* (Topic 842). Our opinion is not modified with respect to this matter.

*Other Matter*

Our audit was conducted for the purpose of forming an opinion on the combined financial statements as a whole. The Obligated Group Combining Balance Sheets and Statements of Operations Information included on pages 36 and 37 are presented for purposes of additional analysis and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the combined financial statements as a whole.

| Cash paid for interest, net of amounts capitalized                                                       | \$ 276       | 277          |

See accompanying notes to combined financial statements.

**PROVIDENCE ST. JOSEPH HEALTH**

Notes to Combined Financial Statements

December 31, 2019 and 2018

(In millions of dollars)

**(1) Basis of Presentation and Significant Accounting Policies**

**(a) Reporting Entity**

Providence St. Joseph Health (the Health System), a Washington nonprofit corporation, is the sole corporate member of Providence Health & Services (PHS) and the St. Joseph Health System (SJHS). PHS, a Washington nonprofit corporation, is a Catholic healthcare system sponsored by the public juridic person, Providence Ministries. SJHS, a California nonprofit public benefit corporation, is a Catholic healthcare system sponsored by the public juridic person, St. Joseph Health Ministry.

The Health System seeks to improve the health of the communities it serves, especially the poor and vulnerable. The Health System operations include 51 hospitals and a comprehensive range of services provided across Alaska, California, Montana, New Mexico, Oregon, Texas, and Washington. The Health System also provides population health management through various affiliated licensed insurers and other risk-bearing entities.

The Health System has been recognized as exempt from federal income taxes, except on unrelated business income, under Section 501(a) of the Internal Revenue Code (IRC) as an organization described in Section 501(c)(3) and further described as a public charitable organization under Section 509(a)(3). PHS, SJHS, and substantially all of the various corporations within the Health System have been granted exemptions from federal income tax under Section 501(a) of the Internal Revenue Code as charitable organizations described in Section 501(c)(3). During 2019 and 2018, the Health System did not record any liability for unrecognized tax benefits.

The accompanying combined balance sheets and related combined statements of operations, changes in net assets, and cash flows reflect the Health System's financial position and results of operations as of and for the years ended December 31, 2019 and 2018.

**(b) Basis of Presentation**

The accompanying combined financial statements of the Health System were prepared in accordance with U.S. generally accepted accounting principles and include the assets, liabilities, revenues, and expenses of all wholly owned affiliates, majority-owned affiliates over which the Health System exercises control, and, when applicable, entities in which the Health System has a controlling financial interest. Intercompany balances and transactions have been eliminated in combination.

**(c) Performance Indicator**

The performance indicator is the excess (deficit) of revenues over expenses. Changes in unrestricted net assets that are excluded from the performance indicator include net assets released from restriction for the purchase of property, plant, and equipment, certain changes in funded status of pension and other postretirement benefit plans, restricted contributions from affiliations, net changes in noncontrolling interests in combined joint ventures, and certain other activities.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

**(d) Operating and Nonoperating Activities**

The Health System's primary mission is to meet the healthcare needs in its market areas through a broad range of general and specialized healthcare services, including inpatient acute care, outpatient services, physician services, long-term care, population health management, and other healthcare and health insurance services. Activities directly associated with the furtherance of this mission are considered to be operating activities. Other activities that result in gains or losses peripheral to the Health System's primary mission are considered to be nonoperating. Nonoperating activities include investment earnings, gains or losses from debt extinguishment, certain pension related costs, gains or losses on interest rate swaps, and certain other activities.

**(e) Restructuring Costs**

Restructuring costs were recorded during the years ended December 31, 2019 and 2018. The amounts were comprised of severance, consulting expenses and asset impairment related to restructuring initiatives.

**(f) Use of Estimates and Assumptions**

The preparation of the combined financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities and the reported amounts of revenues and expenses during the reporting periods. Significant estimates and assumptions are used for, but not limited to: (1) allowance for contractual revenue adjustments; (2) allowance for bad debts in 2018; (3) fair value of acquired assets and assumed liabilities in business combinations; (4) fair value of investments; (5) reserves for self-insured healthcare plans; and (6) reserves for professional, workers' compensation and general insurance liability risks.

The accounting estimates used in the preparation of the combined financial statements will change as new events occur, additional information is obtained or the operating environment changes. Assumptions and the related estimates are updated on an ongoing basis and external experts may be employed to assist in the evaluation, as considered necessary. Actual results could materially differ from those estimates.

**(g) Cash and Cash Equivalents**

Cash and cash equivalents include highly liquid investments with an original or remaining maturity of three months or less when acquired.

**(h) Supplies Inventory**

Supplies inventory is stated at the lower of cost (first-in, first-out) or market.

**(i) Investments Including Assets Whose Use Is Limited**

The Health System has classified all of its investments as trading securities. These investments are reported on the combined balance sheets at fair value on a trade-date basis.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Assets whose use is limited primarily include assets held by trustees under indenture agreements, self-insurance funds, funds held for the payment of health plan medical claims and other statutory reserve requirements, assets held by related foundations, and designated assets set aside by management of the Health System for future capital improvements and other purposes, over which management retains control.

**(j) Liquidity**

Cash and cash equivalents and accounts receivable are the primary liquid resources used by the Health System to meet expected expenditure needs within the next year. The Health System has credit facility programs, as described in Note 7, available to meet unanticipated liquidity needs. Although intended to satisfy long-term obligations, management estimates that approximately 68% of noncurrent investments, as stated at December 31, 2019, could be utilized within the next year if needed.

**(k) Derivative Instruments**

The Health System allows certain investment managers to use derivative financial instruments (futures and forward currency contracts) to manage interest rate risk related to the Health System's fixed-income holdings. Also, the Health System uses derivative financial instruments (interest rate swaps) to manage its interest rate exposure and overall cost of borrowing. The interest rate swap agreements do not meet the criteria for hedge accounting and all changes in the valuation are recognized as a component of net nonoperating gains (losses) in the accompanying combined statements of operations.

**(l) Net Assets**

Net assets without donor restrictions are those that are not subject to donor-imposed stipulations. Amounts related to the Health System's noncontrolling interests in certain joint ventures are included in net assets without donor restrictions.

Net assets with donor restrictions are those whose use by the Health System has been limited by donors to a specific time period, in perpetuity, and/or purpose.

Net assets with donor restrictions are available for the following purposes as of December 31:

|                                          | 2019            | 2018         |
|------------------------------------------|-----------------|--------------|
| Program support                          | \$ 1,046        | 903          |
| Capital acquisition                      | 228             | 211          |
| Low-income housing and other             | 107             | 121          |
| Total net assets with donor restrictions | <u>\$ 1,381</u> | <u>1,235</u> |

**(m) Donor-Restricted Gifts**

Unconditional promises to give cash and other assets to the Health System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the promise to give is no longer conditional. The gifts are reported as

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

contributions with donor restrictions if they are received with donor stipulations that limit the use of the donated assets. When the terms of a donor restriction are met, net assets with donor restrictions are reclassified as net assets without donor restrictions and reported as other operating revenues in the combined statements of operations or as net assets released from restriction in the combined statements of changes in net assets.

**(n) Charity Care and Community Benefit**

The Health System provides community benefit activities that address significant health priorities within its geographic service areas. These activities include Medicaid and Medicare shortfalls, community health services, education and research, and free and low-cost care (charity care).

Charity care is reported at cost and is determined by multiplying the charges incurred at established rates for services rendered by the Health System's cost-to-charge ratio. The cost of charity care provided by the Health System for the years ended December 31, 2019 and 2018 was \$303.

**(o) Subsequent Events**

The Health System has performed an evaluation of subsequent events through March 4, 2020, the date the accompanying combined financial statements were issued.

**(p) New Accounting Pronouncements**

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The ASU replaces most existing revenue recognition guidance. The ASU was adopted on January 1, 2018 using the cumulative effect method for those contracts that were not substantially completed as of January 1, 2018. Results for reporting periods beginning on or after January 1, 2018 are presented under Topic 606, while prior period amounts continue to be presented in accordance with the Health System's historical accounting under *Revenue Recognition (Topic 605)*. The adoption of the ASU primarily changed the Health System's presentation of revenues and the provision and allowance for bad debts. The ASU requires revenue to be recognized based on the Health System's estimate of the transaction price the Health System expects to collect as a result of satisfying its performance obligations. Accordingly, for performance obligations satisfied after January 1, 2018, the Health System no longer separately presents a provision for bad debts on the combined statements of operations or the related allowance for bad debts on the combined balance sheets. However, as a result of the Health System's election to apply the ASU only to contracts not substantially completed as of January 1, 2018, the Health System continued to maintain an allowance for bad debts related to performance obligations satisfied prior to January 1, 2018. Changes to the allowance for bad debts, other than the write-offs of uncollectable accounts, are recorded through the provision for bad debts on the combined statements of operations in accordance with Topic 605 continuing into 2018. The adoption of Topic 606 did not have a significant impact on the recognition of net patient services revenues.

In January 2016, the FASB issued ASU 2016-01, *Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities*, which updates certain aspects of recognition, measurement, presentation and disclosure of financial instruments. The Health

**PROVIDENCE ST. JOSEPH HEALTH**

Notes to Combined Financial Statements

December 31, 2019 and 2018

(In millions of dollars)

System implemented ASU 2016-01 for the fiscal year beginning January 1, 2018. The provisions of the standard did not have a material impact on the combined financial statements.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*, which requires lessees to recognize a lease liability and a right-of-use (ROU) asset for all lease obligations with exception to short-term leases. The lease liability will represent the lessee's obligation to make lease payments arising from the lease measured on a discounted basis and the ROU asset will represent the lessee's right to use or control the use of a specified asset for a lease term. The lease guidance also simplifies accounting for sale-leaseback transactions. Topic 842 is effective for the Health System beginning on January 1, 2019. In 2019, the FASB updated its guidance allowing entities to adopt the provisions of the standard prospectively without adjusting comparative periods. The Health System elected this option. The Health System elected to apply the packages of practical expedients to not reassess prior conclusions related to contracts containing leases, lease classification, and initial direct costs. Additionally, the Health System elected to apply the hindsight practical expedient, which allows entities to use hindsight in determining the lease term and in assessing impairment. In 2019, the Health System recorded initial ROU assets, offset by existing deferred rent, of approximately \$1.4 billion and lease liabilities of approximately \$1.6 billion on its combined balance sheets.

In August 2016, the FASB issued ASU 2016-14, *Presentation of Financial Statements of Not-for-Profit Entities*, with the intent of reducing diversity in reporting practice, reduce complexity, and enhance understandability of not-for-profit (NFP) financial statements. This ASU contains the following key aspects; (A) reduces the number of net asset classes presented from three to two: with donor restrictions and without donor restrictions; (B) requires all NFPs to present expenses by their functional and their natural classifications in one location in the financial statements; (C) requires NFPs to provide quantitative and qualitative information about management of liquid resources and availability of financial assets to meet cash needs within one year of the balance sheet date; and (D) retains the options to present operating cash flows in the statement of cash flows using either the direct or indirect method. The Health System implemented ASU 2016-14 as of January 1, 2018. The impact of adoption resulted in enhanced disclosures about the classification of expenses and management of liquid resources.

In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*, which requires the amounts generally described as restricted cash and restricted cash equivalents to be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The Health System adopted ASU 2016-18 in 2019 and the provisions of the standard did not have an impact on the combined financial statements.

In August 2018, the FASB issued ASU 2018-15, *Customer's Accounting for Implementation Costs Incurred in a Cloud Computing Arrangement that is a Service Contract*, which requires implementation costs incurred by customers in cloud computing arrangements to be deferred and recognized over the term of the arrangement, if those costs would be capitalized in a software licensing arrangement under internal-use software guidance in *Accounting Standards Codification Topic 350-40, Intangibles – Goodwill and Other-Internal-Use Software*. The Health System adopted ASU 2018-15 in 2019 and the provisions of the standard did not have a material impact on the combined financial statements.

**PROVIDENCE ST. JOSEPH HEALTH**

Notes to Combined Financial Statements

December 31, 2019 and 2018

(In millions of dollars)

In May 2019, the FASB issued ASU 2019-06, *Extending the Private Company Accounting Alternatives on Goodwill and Certain Identifiable Intangible Assets to Not-for-Profit entities*, which provides optional alternatives to goodwill and certain intangible assets acquired in a business combination. The alternatives are intended to (1) reduce the frequency of impairment tests; (2) simplify the impairment test when it is required; and (3) result in recognition of fewer intangible assets in future business combinations. The Health System is currently evaluating the impact of this ASU.

**(q) Reclassifications**

Certain reclassifications, which have no impact on net assets or changes in net assets, have been made to prior year amounts to conform to the current year presentation.

**(2) Revenue Recognition**

**(a) Net Patient Service Revenues**

The Health System has agreements with governmental and other third-party payors that provide for payments to the Health System at amounts different from established charges. Payment arrangements for major third-party payors may be based on prospectively determined rates, reimbursed cost, discounted charges, per diem payments, or other methods.

Net patient service revenues are recognized at the time services are provided to patients. Revenue is recorded in the amount which the Health System expects to collect, which may include variable components. Variable consideration is included in the transaction price to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is subsequently resolved. Adjustments from finalization of prior years' cost reports and other third-party settlement estimates resulted in an increase in net patient service revenues of \$26 and \$6 for the years ended December 31, 2019 and 2018, respectively.

Various states in which the Health System operates have instituted a provider tax on certain patient service revenues at qualifying hospitals to increase funding from other sources and obtain additional Federal funds to support increased payments to providers of Medicaid services. The taxes are included in purchased services, professional fees, and other expenses in the accompanying combined statements of operations and were \$597 and \$591 for the years ended December 31, 2019 and 2018, respectively. These programs resulted in enhanced payments from these states in the way of lump-sum payments and per claim increases. These enhanced payments are included in net patient service revenues in the accompanying combined statements of operations and were \$942 and \$894 for the years ended December 31, 2019 and 2018, respectively.

**(b) Premium and Capitalization Revenues**

Premium and capitalization revenues are received on a prepaid basis and are recognized as revenue ratably over the period for which the enrolled member is entitled to healthcare services. The timing of the Health System's performance may differ from the timing of the payment received, which may result in the recognition of a contract asset or a contract liability. The balance of contract liabilities was \$24 and \$29 as of December 31, 2019 and 2018, respectively. The Health System has no material contract assets.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

**(c) Allowance for Bad Debts**

As a result of adopting ASU 2014-09 as described in Note 1, the Health System continued to maintain an allowance for bad debts related to performance obligations satisfied prior to January 1, 2018. These accounts have all been fully resolved, therefore the allowance for bad debts has declined to \$0 as of December 31, 2019.

The Health System provided for an allowance against patient accounts receivable for amounts that could become uncollectible. The Health System estimated this allowance based on the aging of accounts receivable, historical collection experience by payor, and other relevant factors. There are various factors that can impact the collection trends, such as changes in the economy, which in turn have an impact on unemployment rates and the number of uninsured and underinsured patients, the increased burden of copayments to be made by patients with insurance coverage and business practices related to collection efforts. These factors continuously change and can have an impact on collection trends and the estimation process used by the Health System. The Health System records a provision for bad debts in the period of services on the basis of past experience, which has historically indicated that many patients are unresponsive or are otherwise unwilling to pay the portion of their bill for which they are financially responsible.

The estimates made and changes affecting those estimates are summarized as follows for the years ended December 31:

|                                                        | 2019        | 2018       |
|--------------------------------------------------------|-------------|------------|
| Changes in allowance for bad debts:                    |             |            |
| Allowance for doubtful accounts at beginning of year   | \$ 119      | 227        |
| Write-off of uncollectible accounts, net of recoveries | (119)       | (219)      |
| Provision for bad debts                                | —           | 111        |
| Allowance for bad debts at end of year                 | <u>\$ —</u> | <u>119</u> |

**(d) Disaggregation of Revenue**

The Health System earns the majority of its revenues from contracts with customers. Revenues and adjustments not related to contracts with customers are included in other revenue.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Operating revenues from contracts with customers by state are as follows for the years ended December 31:

|                                              | <u>2019</u>      | <u>2018</u>   |
|----------------------------------------------|------------------|---------------|
| Alaska                                       | \$ 877           | 851           |
| Washington                                   | 7,036            | 6,724         |
| Montana                                      | 450              | 433           |
| Oregon                                       | 5,207            | 5,091         |
| California                                   | 9,083            | 8,684         |
| Texas                                        | 1,120            | 1,574         |
| Total revenues from contracts with customers | 23,773           | 23,357        |
| Other revenues                               | 1,252            | 1,071         |
| Total operating revenues                     | <u>\$ 25,025</u> | <u>24,428</u> |

Operating revenues from contracts with customers by line of business are as follows for the years ended December 31:

|                                              | <u>2019</u>      | <u>2018</u>   |
|----------------------------------------------|------------------|---------------|
| Hospitals                                    | \$ 16,805        | 16,187        |
| Health plans and accountable care            | 2,553            | 3,212         |

**(3) Fair Value Measurements**

ASC Topic 820 (Topic 820), *Fair Value Measurements*, requires a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs include quoted prices (unadjusted) in active markets for identical assets or liabilities that the Health System has the ability to access at the measurement date.
- Level 2 inputs include inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair value measurement in its entirety falls is based on the lowest-level input that is significant to the fair value measurement in its entirety.

**(a) Assets Whose Use Is Limited**

The fair value of assets whose use is limited, other than those investments measured using net asset value per share (NAV) as a practical expedient for fair value, is estimated using quoted market prices or other observable inputs when quoted market prices are unavailable.

| Total assets whose use is limited                | \$ 10,253            |                                                 |         |         |

The Health System participates in various funds that are not actively marketed on an open exchange. These investments consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Due to the nature of these funds the NAV per share, or its equivalent, reported by each fund manager is used as a practical expedient to estimate the fair value of the Health System's interest therein. Management believes that the carrying amounts of these financial instruments, provided by the fund managers, are reasonable estimates of fair value.

| Commingled          | 1,242      | 1,073 | —                    | Monthly, quarterly, or semi-annually           | 6–90 days                |
| Total               | \$ 3,628   | 3,386 | 948                  |                                                |                          |

The following is a summary of the nature of these investments and their associated risks:

**Hedge funds** are portfolios of investments that use advanced investment strategies, such as long/short equity, credit, relative value, global macro, and fund of hedge funds positions in both domestic and international markets, with the goal of diversifying portfolio risk and generating return. The Health System's investments in hedge funds include certain funds with provisions that limit the Health System's ability to access assets invested. These provisions include lockup terms that range up to three years from the subscription date or are continuous and determined as a percent of total assets invested. The Health System is in various stages of the lockup periods dependent on hedge fund and period of initial investments.

**Private equity and private real estate** funds make opportunistic investments that are primarily private in nature. These investments cannot be redeemed by the Health System; rather the Health System has committed an amount to invest in the private funds over the respective commitment periods. After the commitment period has ended, the nature of the investments in this category is that the distributions are received through the liquidation of the underlying assets.

**Risk parity** is an approach to investment portfolio management which focuses on allocation of risk, usually defined as volatility, rather than allocation of capital. The risk parity approach asserts that when asset allocations are adjusted to the same risk level, the risk parity portfolio can achieve a higher Sharpe ratio and can be more resistant to market downturns than the traditional portfolio. The key to risk parity is to diversify across asset classes that behave differently across economic environments.

Notes to Combined Financial Statements

December 31, 2019 and 2018

(In millions of dollars)

**Real asset** strategies invest in securities backed by tangible real assets, with the objective of achieving attractive diversified total returns over the long term, while maximizing the potential for real returns in periods of rising inflation. Real asset investments should provide a return in excess of inflation, and their performance should be sensitive to changes in inflation or expectations for future levels of inflation. The real asset category is made up of many different underlying sectors inclusive of agriculture, commodities, gold, infrastructure, private energy, MLPs (Master Limited Partnerships), real estate, REITs (Real Estate Investment Trusts), timberland, and TIPS (Treasury Inflation Protected Securities). Each of these sectors tends to have a high degree of sensitivity to inflation and be less correlated with traditional equities and fixed income.

**Commingled** describes a type of fund structure. Commingled funds consist of assets from several accounts that are blended together. Investors in commingled fund investments benefit from economies of scale, which allow for lower trading costs per dollar of investment.

**(b) Unsettled Transactions**

Investment sales and purchases initiated prior to and settled subsequent to the combined balance sheet date result in amounts due from and to brokers. As of December 31, 2019, the Health System recorded a receivable of \$300 for investments sold but not settled and a payable of \$558 for investments purchased but not settled in other current assets and other current liabilities, respectively, in the accompanying combined balance sheets. As of December 31, 2018, the Health System recorded a receivable of \$102 for investments sold but not settled and a payable of \$305 for investments purchased but not settled in other current assets and other current liabilities, respectively, in the accompanying combined balance sheets.

**(c) Derivative Instruments**

The investment managers have executed master netting arrangements with the counterparties of the futures and forward currency purchase and sale contracts whereby the financial instruments held by the same counterparty are legally offset as the instruments are settled. The following table presents gross investment derivative assets and liabilities reported on a net basis at fair value included in assets whose use is limited in the combined balance sheets as of December 31:

|                                               | 2019     | 2018  |
|-----------------------------------------------|----------|-------|
| Derivative assets:                            |          |       |
| Futures contracts                             | \$ 681   | 707   |
| Foreign currency forwards and other contracts | 135      | 153   |
| Total derivative assets                       | \$ 816   | 860   |
| Derivative liabilities:                       |          |       |
| Futures contracts                             | \$ (681) | (707) |
| Foreign currency forwards and other contracts | (140)    | (153) |
| Total derivative liabilities                  | \$ (821) | (860) |

**(d) Investment Income (Loss), Net**

|                                                               | 2019            | 2018         |
|---------------------------------------------------------------|-----------------|--------------|
| Interest and dividend income                                  | \$ 146          | 121          |
| Net realized gains on sale of trading securities              | 161             | 165          |
| Change in net unrealized gains (losses) on trading securities | 978             | (652)        |
| Investment income (loss), net                                 | <u>\$ 1,285</u> | <u>(366)</u> |

**(e) Assets Measured Using Significant Unobservable Inputs**

The following table presents the Health System's activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) as defined in Topic 820:

|                                          |               |
|------------------------------------------|---------------|
| Balance at December 31, 2017             | \$ 105        |
| Total realized and unrealized gains, net | 3             |
| Total purchases                          | 16            |
| Total sales                              | <u>(5)</u>    |
| Balance at December 31, 2018             | 119           |
| Total realized and unrealized gains, net | 3             |
| Total purchases                          | 36            |
| Total sales                              | <u>(15)</u>   |
| Balance at December 31, 2019             | <u>\$ 143</u> |

There were no significant transfers between assets classified as Level 1 and Level 2 during the years ended December 31, 2019 and 2018.

Level 3 assets include charitable remainder trusts, real property, and equity investments in healthcare technology start-ups through the Health System's innovation venture capital fund. Fair values of real property were estimated using a market approach. Fair values of charitable remainder trusts were estimated using an income approach. Fair value of equity investments in healthcare technology start-ups were estimated using a combination of income and market approach.

**(4) Property, Plant, and Equipment, Net**

Property, plant, and equipment are stated at cost. Improvements and replacements of plant and equipment are capitalized, and maintenance and repairs are expensed. The provision for depreciation is determined by the straight-line method, which allocates the cost of tangible property equally over its estimated useful life or lease term. Impairment of property, plant, and equipment is assessed when there is evidence that events or changes in circumstances have made recovery of the net carrying value of assets unlikely.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Interest capitalized on amounts expended during construction is a component of the cost of additions to be allocated to future periods through the provision for depreciation. Capitalization of interest ceases when the addition is substantially complete and ready for its intended use.

Property, plant, and equipment and the total accumulated depreciation are as follows as of December 31:

|                                        | <b>Approximate<br/>useful life<br/>(years)</b> | <b>2019</b>      | <b>2018</b>    |
|----------------------------------------|------------------------------------------------|------------------|----------------|
| Land                                   | —                                              | \$ 1,476         | 1,459          |
| Buildings and improvements             | 5–60                                           | 10,229           | 10,036         |
| Equipment:                             |                                                |                  |                |
| Fixed                                  | 5–25                                           | 1,305            | 1,289          |
| Major movable and minor                | 3–20                                           | 6,249            | 6,050          |
| Construction in progress               | —                                              | 1,497            | 970            |
|                                        |                                                | <u>20,756</u>    | <u>19,804</u>  |
| Less accumulated depreciation          |                                                | <u>(9,778)</u>   | <u>(8,933)</u> |
| Property, plant, and<br>equipment, net |                                                | <u>\$ 10,978</u> | <u>10,871</u>  |

Construction in progress primarily represents renewal and replacement of various facilities in the Health System's operating divisions, as well as costs capitalized for software development.

**(5) Other Assets**

Other assets are summarized as follows as of December 31:

|                                                  | <b>2019</b>     | <b>2018</b>  |
|--------------------------------------------------|-----------------|--------------|
| Investment in nonconsolidated joint ventures     | \$ 330          | 337          |
| Intangible assets                                | 258             | 236          |
| Goodwill                                         | 307             | 229          |
| Beneficial interest in noncontrolled foundations | 228             | 176          |
| Other                                            | 422             | 322          |
|                                                  | <u>\$ 1,545</u> | <u>1,300</u> |
| Total other assets                               | <u>\$ 1,545</u> | <u>1,300</u> |

Goodwill is recorded as the excess of cost over fair value of the acquired net assets. Indefinite-lived intangible assets are recorded at fair value using various methods depending on the nature of the intangible asset. Both goodwill and indefinite-lived intangible assets are tested annually for impairment.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Definite-lived intangible assets are amortized using the straight-line method over the estimated useful lives of the assets.

The Health System recorded no goodwill impairment for the years ended December 31, 2019 and 2018.

**(6) Leases**

The Health System enters into operating and finance leases primarily for buildings and equipment. For leases with terms greater than 12 months, the Health System records the related ROU asset and liability at the present value of the lease payments over the contract term using the Health System's incremental borrowing rate. Building lease agreements generally require the Health System to pay maintenance, repairs, and property taxes, which are variable based on actual costs incurred during each applicable period. Such costs are not included in the determination of the ROU asset or lease liability. Variable lease costs also include escalating rent payments that are not fixed at lease commencement but are based on an index that is determined in future periods over the lease term based on changes in the Consumer Price Index or other measure of cost inflation. Most leases include one or more options to renew the lease at the initial term, with renewal terms that generally extend the lease at the then market rate of rental payment. Certain lease also include an option to buy the underlying asset at or a short time prior to the termination of the lease. All such options are at the Health System's discretion and are evaluated at the lease commencement, with only those that are reasonably certain of exercise included in determining the appropriate lease term. The Health System has elected the practical expedient to not separate lease components from non-lease components for its financing and operating leases.

The components of lease cost are as follows for the year ended December 31, 2019:

|                                       | <u>2019</u>  |
|---------------------------------------|--------------|
| Operating lease cost:                 |              |
| Fixed lease expense                   | \$ 293       |
| Short-term lease expense              | 39           |
| Variable lease expense                | 95           |
| Total operating lease cost            | <u>427</u>   |
| Finance lease cost:                   |              |
| Amortization of ROU assets            | 23           |
| Interest on finance lease liabilities | <u>21</u>    |
|                                       | <u>\$ 44</u> |

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Supplemental cash flow and other information related to leases as of and for the year ended December 31 are as follows:

|                                                                         | <u>2019</u> |
|-------------------------------------------------------------------------|-------------|
| Cash paid for amounts included in the measurement of lease liabilities: |             |
| Operating cash flows from operating leases                              | \$ 280      |
| Operating cash flows from finance leases                                | 19          |
| Financing cash flows from finance leases                                | 14          |
| Additions to ROU assets obtained from operating leases                  | 110         |
| Additions to ROU assets obtained from finance leases                    | 7           |
| Weighted-average remaining lease term (in years):                       |             |
| Operating leases                                                        | 9           |
| Finance leases                                                          | 15          |
| Weighted-average discount rate:                                         |             |
| Operating leases                                                        | 3.6%        |
| Finance leases                                                          | 7.5%        |

Commitments related to noncancellable operating and finance leases for each of the next five years and thereafter as of December 31, 2019 are as follows:

|                                | <u>Operating</u> | <u>Finance</u> |
|--------------------------------|------------------|----------------|
| 2020                           | \$ 267           | 31             |
| 2021                           | 247              | 32             |
| 2022                           | 225              | 31             |

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Lease assets and lease liabilities as of December 31, 2019, were as follows:

| Assets             | Classification                                                    | <u>2019</u> |
|--------------------|-------------------------------------------------------------------|-------------|
| Operating          | Operating leases ROU assets                                       | \$ 1,240    |
| Finance            | Property, plant, and equipment, net                               | 222         |
| <b>Liabilities</b> |                                                                   |             |
| <b>Current</b>     |                                                                   |             |
| Operating          | Current portion of operating lease ROU liabilities                | 267         |
| Finance            | Current portion of long-term debt                                 | 31          |
| <b>Long-term</b>   |                                                                   |             |
| Operating          | Long-term operating lease ROU liabilities, net of current portion | 1,167       |
| Finance            | Long-term debt, net of current portion                            | 211         |

Future minimum lease commitments under noncancelable operating leases for the next five years and thereafter as of December 31, 2018, prior to the adoption of ASU 2016-02, were as follows:

|            |                 |
|------------|-----------------|
| 2020       | \$ 222          |
| 2021       | 206             |
| 2022       | 183             |
| 2023       | 162             |
| 2024       | 144             |
| Thereafter | <u>727</u>      |
|            | <u>\$ 1,644</u> |

Rental expense, including month-to-month leases and contingent rents, was \$411 for the year ended December 31, 2018, and is included in other expenses in the accompanying combined statements of operations.

**(7) Debt**

**(a) *Short-Term and Long-Term Debt***

The Health System has borrowed master trust debt issued through the following:

- California Health Facilities Financing Authority (CHFFA)
- Alaska Industrial Development and Export Authority (AIDEA)
- Washington Health Care Facilities Authority (WHCFA)
- Montana Facility Finance Authority (MFFA)

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

- Lubbock Health Facilities Development Corp (LHFDC)
- Oregon Facilities Authority (OFA)

Short-term and long-term unpaid principal consists of the following at December 31:

|                                       | Maturing<br>through | Coupon<br>rates | Unpaid principal<br>2019 | Unpaid principal<br>2018 |
|---------------------------------------|---------------------|-----------------|--------------------------|--------------------------|
| Master trust debt:                    |                     |                 |                          |                          |

(1) Variable rate debt and credit facilities carry floating interest rates attached to indexes, which are subject to change based on market conditions.

During 2019, the Health System issued \$1,091 of Series 2019A, 2019B, and 2019C revenue bonds and direct obligations notes. In January 2018, the Health System issued \$492 of Series 2018A and 2018B revenue bonds and direct obligation notes. The intended uses of funds included refinancing legacy SJHS and PHS master trust debt and repayment of outstanding lines of credit.

In connection with the Series 2019A-C issuance and Series 2018A-B issuance, the Health System recorded losses due to extinguishment of debt of \$14 and \$6 in the years ended December 31, 2019 and 2018, respectively. The losses were recorded in net nonoperating gains (losses) in the accompanying combined statements of operations.

The following table reflects classification of long-term debt obligations in the accompanying combined balance sheets as of December 31:

|                                                     | 2019     | 2018     |
|-----------------------------------------------------|----------|----------|
| Current portion of long-term debt                   | \$ 85    | 300      |
| Short-term master trust debt                        | 205      | 110      |
| Long-term debt, classified as a long-term liability | 6,393    | 6,258    |
| Total debt                                          | \$ 6,683 | \$ 6,668 |

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Short-term master trust debt represents debt issues with remarketing provisions unsupported by credit facilities with mandatory redemption within one year of December 31, 2019 and 2018.

**(b) Other Long-Term Debt**

Other long-term debt consists of the following as of December 31:

|                                                  | 2019          | 2018       |
|--------------------------------------------------|---------------|------------|
| Finance leases                                   | \$ 242        | 255        |
| Notes payable                                    | 100           | 117        |
| Bonds not under master trust indenture and other | 5             | 10         |
| Total other long-term debt                       | <u>\$ 347</u> | <u>382</u> |

**(c) Debt Service**

Scheduled principal payments of long-term debt, considering all obligations under the master trust indenture as due according to their long-term amortization schedule, for the next five years and thereafter are as follows:

|                                                | Master trust    | Other      | Total        |
|------------------------------------------------|-----------------|------------|--------------|
| 2020                                           | \$ 69           | 16         | 85           |
| 2021                                           | 79              | 19         | 98           |
| 2022                                           | 82              | 17         | 99           |
| 2023                                           | 365             | 17         | 382          |
| 2024                                           | 114             | 15         | 129          |
| Thereafter                                     | <u>5,396</u>    | <u>263</u> | <u>5,659</u> |
| Scheduled principal payments of long-term debt | <u>\$ 6,105</u> | <u>347</u> | <u>6,452</u> |

**(d) Derivative Instruments**

The Health System uses interest rate swap agreements to manage interest rate risk associated with its outstanding debt. As of December 31, 2019 and 2018, the Health System had interest rate swap contracts with a total current notional amount totaling \$436 and \$453, respectively, with varying expiration dates. The interest rate swap agreements do not meet the criteria for hedge accounting and all changes in the valuation are recognized as a component of net nonoperating gains (losses) in the accompanying combined statements of operations. Settlements related to these agreements are recognized as a component of interest, depreciation, and amortization expense in the accompanying combined statements of operations. For the years ended December 31, 2019 and 2018, the change in valuation was a loss of \$33 and a gain of \$17, respectively, and settlements recognized as a component of interest expense were \$8 and \$9, respectively.

December 31, 2019 and 2018  
(In millions of dollars)

Derivative financial instruments are recorded at fair value taking into consideration the Health System's and the counterparties' nonperformance risk. The fair value of the interest rate swaps is based on independent valuations obtained and are determined by calculating the value of the discounted cash flows of the differences between the fixed interest rate of the interest rate swaps and the counterparty's forward London Interbank Offered Rate curve, which is the input used in the valuation, taking also into account any nonperformance risk. Collateral posted for the interest rate swaps consist of cash and U.S. government securities, which are both categorized as Level 1 financial instruments.

As of December 31, 2019 and 2018, the fair value of outstanding interest rate swaps was in a net liability position of \$117 and \$84, respectively, and is included in other liabilities in the accompanying combined balance sheets. Collateral posted in connection with the outstanding swap agreements as of December 31, 2019 was \$15 and is included in other assets in the accompanying combined balance sheets. The Health System had no collateral posted in connection with the outstanding swap agreements as of December 31, 2018.

The following tables present the fair value of swaps and related collateral:

|                                          | <b>December 31,<br/>2019</b> | <b>Fair value measurements at reporting date using</b> |                |                |

**(8) Retirement Plans****(a) Defined Benefit Plans**

The Health System sponsors various frozen defined benefit retirement plans. The measurement dates for the defined benefit plans are December 31. A rollforward of the change in projected benefit obligation and change in the fair value of plan assets for the defined benefit plans is as follows:

|                                                               | <b>2019</b>  | <b>2018</b>  |
|---------------------------------------------------------------|--------------|--------------|
| Change in projected benefit obligation:                       |              |              |
| Projected benefit obligation at beginning of year             | \$ 2,535     | 2,741        |
| Service cost                                                  | 23           | 27           |
| Interest cost                                                 | 113          | 106          |
| Actuarial loss (gain)                                         | 292          | (153)        |
| Benefits paid and other                                       | (169)        | (186)        |
| Projected benefit obligation at end of year                   | <u>2,794</u> | <u>2,535</u> |
| Change in fair value of plan assets:                          |              |              |
| Fair value of plan assets at beginning of year                | 1,469        | 1,686        |
| Actual return on plan assets                                  | 299          | (130)        |
| Employer contributions                                        | 100          | 99           |
| Benefits paid and other                                       | (169)        | (186)        |
| Fair value of plan assets at end of year                      | <u>1,699</u> | <u>1,469</u> |
| Funded status                                                 | (1,095)      | (1,066)      |
| Unrecognized net actuarial loss                               | 572          | 526          |
| Unrecognized prior service cost                               | —            | 1            |
| Net amount recognized                                         | <u>(523)</u> | <u>(539)</u> |
| Amounts recognized in the combined balance sheets consist of: |              |              |
| Current liabilities                                           | (1)          | (1)          |
| Noncurrent liabilities                                        | (1,094)      | (1,065)      |
| Unrestricted net assets                                       | 572          | 527          |
| Net amount recognized                                         | <u>(523)</u> | <u>(539)</u> |
| Weighted average assumptions:                                 |              |              |
| Discount rate                                                 | 3.50 %       | 4.60 %       |
| Rate of increase in compensation levels                       | 3.50         | 3.50         |
| Long-term rate of return on assets                            | 6.50         | 6.50         |

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

Net periodic pension cost for the defined benefit plans includes the following components:

|                                          | 2019         | 2018      |
|------------------------------------------|--------------|-----------|
| Components of net periodic pension cost: |              |           |
| Service cost                             | \$ 23        | 27        |
| Interest cost                            | 113          | 106       |
| Expected return on plan assets           | (96)         | (105)     |
| Amortization of prior service cost       | 1            | 1         |
| Recognized net actuarial loss            | 24           | 26        |
| Net periodic pension cost                | <u>\$ 65</u> | <u>55</u> |
| Special recognition – settlement expense | \$ 19        | 26        |

Certain plans sponsored by the Health System allow participants to receive their benefit through a lump-sum distribution upon election. When lump-sum distributions exceed the combined total of service cost and interest cost during a reporting period settlement expense is recognized. Settlement expense represents the proportional recognition of unrecognized actuarial loss and prior service cost. Settlement expense for the years ended December 31, 2019 and 2018 is included in net nonoperating gains (losses) in the accompanying combined statements of operations.

The accumulated benefit obligation was \$2,739 and \$2,488 at December 31, 2019 and 2018, respectively.

The following pension benefit payments reflect expected future service. Payments expected to be paid over the next 10 years are as follows:

|           |                 |
|-----------|-----------------|
| 2020      | \$ 189          |
| 2021      | 187             |
| 2022      | 185             |
| 2023      | 183             |
| 2024–2029 | <u>1,039</u>    |
|           | <u>\$ 1,783</u> |

The Health System expects to contribute approximately \$111 to the defined benefit plans in 2020.

The expected long-term rate of return on plan assets is the expected average rate of return on the funds invested currently and on funds to be invested in the future in order to provide for the benefits included in the projected benefit obligation. The Health System used 6.5% in calculating the 2019 and 2018 expense amounts. This assumption is based on capital market assumptions and the plan's target asset allocation.

**PROVIDENCE ST. JOSEPH HEALTH**  
Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

The Health System continues to monitor the expected long-term rate of return. If changes in those parameters cause 6.5% to be outside of a reasonable range of expected returns, or if actual plan returns over an extended period of time, suggest that general market assumptions are not representative of expected plan results, the Health System may revise this estimate prospectively.

The target asset allocation and expected long-term rate of return on assets (ELTRA) were as follows at December 31:

|                           | 2019<br>Target | 2019<br>ELTRA | 2018<br>Target | 2018<br>ELTRA |
|---------------------------|----------------|---------------|----------------|---------------|
| Cash and cash equivalents | 2 %            | 3%            | 2 %            | 2%–3%         |
| Equity securities         | 45             | 7%–9%         | 45             | 7%–8%         |
| Debt securities           | 33             | 3%–4%         | 33             | 3%–4%         |
| Other securities          | 20             | 5%–11%        | 20             | 5%–8%         |
| Total                     | 100 %          | 6.5 %         | 100 %          | 6.5 %         |

The following table presents the Health System's defined benefit plan assets measured at fair value:

|                                      | December 31,<br>2019 | Fair value measurements at reporting date using |         |         |

The Health System's defined benefit plans participate in various funds that are not actively marketed on an open exchange. These investments consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Due to the nature of these funds the NAV per share, or its equivalent, reported by each fund manager is used as a practical expedient to estimate the fair value of the Health System's interest therein. Management believes that the carrying amounts of these financial instruments provided by the fund managers are reasonable estimates of fair value.

Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

The following table presents information for investments where either the NAV per share or its equivalent was used to value the investments as of December 31:

|                   | Fair value    |            | Redemption frequency | Redemption notice period |
|-------------------|---------------|------------|----------------------|--------------------------|
|                   | 2019          | 2018       |                      |                          |
| Hedge funds:      |               |            |                      |                          |
| Long/short equity | \$ 54         | 43         | Monthly or quarterly | 30–65 days               |
| Credit and other  | 64            | 61         | Monthly or quarterly | 90 days                  |
| Real assets       | 61            | 53         | Monthly              | 30 days                  |
| Risk parity       | 135           | 108        | Monthly              | 5–15 days                |
| Commingled        | 268           | 222        | Monthly              | 6–30 days                |
| Total             | <u>\$ 582</u> | <u>487</u> |                      |                          |

The Health System's defined benefit plans also allow certain investment managers to use derivative financial instruments (futures and forward currency contracts) to manage interest rate risk related to the plans' fixed-income holdings. The investment managers have executed master netting arrangements with the counterparties of the futures and forward currency purchase and sale contracts whereby the financial instruments held by the same counterparty are legally offset as the instruments are settled. The following table presents gross investment derivative assets and liabilities reported on a net basis at fair value included in the plans' assets as of December 31:

|                                               | 2019            | 2018         |
|-----------------------------------------------|-----------------|--------------|
| Derivative assets:                            |                 |              |
| Futures contracts                             | \$ 128          | 724          |
| Foreign currency forwards and other contracts | 2               | 4            |
| Total derivative assets                       | <u>\$ 130</u>   | <u>728</u>   |
| Derivative liabilities:                       |                 |              |
| Futures contracts                             | \$ (128)        | (724)        |
| Foreign currency forwards and other contracts | (3)             | (3)          |
| Total derivative liabilities                  | <u>\$ (131)</u> | <u>(727)</u> |

**(b) Defined Contribution Plans**

The Health System sponsors various defined contribution retirement plans that cover substantially all employees. The plans provide for employer matching contributions in an amount equal to a percentage of employee pretax contributions, up to a maximum amount. In addition, the Health System makes contributions to eligible employees based on years of service. Retirement expense related to these plans was \$500 and \$513 in 2019 and 2018, respectively, and is reflected in salaries and benefit expense in the accompanying combined statements of operations.

Notes to Combined Financial Statements  
December 31, 2019 and 2018  
(In millions of dollars)

**(9) Self-Insurance Liabilities**

The Health System has established self-insurance programs for professional and general liability and workers' compensation insurance coverage. These programs provide insurance coverage for healthcare institutions associated with the Health System. The Health System also operates insurance captives, Providence Assurance, Inc. and American Unity Group, Ltd., to self-insure or reinsure certain layers of professional and general liability risk.

The Health System accrues estimated self-insured professional and general liability and workers' compensation insurance claims based on management's estimate of the ultimate costs for both reported claims and actuarially determined estimates of claims incurred but not reported. Insurance coverage in excess of the per occurrence self-insured retention has been secured with insurers or reinsurers for specified amounts for professional, general, and workers' compensation liabilities. Decisions relating to the limit and scope of the self-insured layer and the amounts of excess insurance purchased are reviewed each year, subject to management's analysis of actuarial loss projections and the price and availability of acceptable commercial insurance.

At December 31, 2019 and 2018, the estimated liability for future costs of professional and general liability claims was \$455 and \$393, respectively. At December 31, 2019 and 2018, the estimated workers' compensation obligation was \$367 and \$351, respectively. Both are recorded in other current liabilities and other liabilities in the accompanying combined balance sheets.

**(10) Commitments and Contingencies**

**(a) Commitments**

Firm purchase commitments at December 31, 2019, primarily related to construction and equipment and software acquisition, are approximately \$654.

**(b) Litigation**

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. Compliance with these laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time. Government monitoring and enforcement activity continues with respect to investigations and allegations concerning possible violations by healthcare providers of regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments of patient services previously billed. Institutions within the Health System are subject to similar regulatory reviews.

Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the normal course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Health System's combined financial statements.
