

Health Care Market Oversight

Align Capital Partners and Heritage Imaging

The [Health Care Market Oversight](#) (HCMO) program reviews health care business deals to make sure they support Oregon's goals of health equity, lower costs, increased access, and better care. On April 9, 2026, the Oregon Health Authority (OHA) accepted a complete notice of material change describing plans for Align Capital Partners to acquire Heritage Imaging Holdings, LLC.

Who's involved?

Align Capital Partners (Align) is a private equity firm that sponsors, advises and manages private equity investment funds. Align focuses its investment activities primarily in the business services, technology, and specialty manufacturing and distribution sectors. The firm has an active investment fund in a health care company that provides drug testing solutions.

Heritage Imaging LLC (Heritage) provides mobile and fixed site diagnostic imaging equipment and staffing to hospitals and clinics. In Oregon, Heritage leases imaging equipment and provides technologist staffing to locations in 15 cities and towns, largely located in rural areas.

About the deal

Align manages a fund that, through a subsidiary holding company, seeks to acquire Heritage. The entities state that the primary purpose of the transaction is to support Heritage's existing operations, including those located in Oregon. The entities further state that they do not expect the transaction to result in changes to staffing, type and levels of services offered, or existing contracts.

What's next?

OHA is reviewing this deal to understand how it could affect access to care for communities in Oregon. During the review, OHA will use health care data, news and media reports, information from the entities, and public input to decide whether the deal should be approved. After completing a review, OHA will issue a decision about whether the deal may proceed as planned.
